|  <b>Premium Social Media Content Creation AI Prompt Pack</b> | <b>1</b> |
|  What's Inside                                               | 1        |
|  How To Use This Pack                                        | 20       |
| Step 1: Choose Your Prompt                                                                                                                      | 20       |
| Step 2: Gather Your Inputs                                                                                                                      | 20       |
| Step 3: Copy the Prompt                                                                                                                         | 21       |
| Step 4: Fill in Your Details                                                                                                                    | 21       |
| Step 5: Paste Into AI Tool                                                                                                                      | 21       |

|                                                          |           |
|----------------------------------------------------------|-----------|
| Step 6: Review and Refine                                | 21        |
| 🎓 Understanding The Prompt Structure                     | 22        |
| Phase 1: Analysis & Strategy                             | 22        |
| Phase 2: Content Creation                                | 22        |
| Phase 3: Optimization & Refinement                       | 22        |
| 🔥 15 Advanced AI Techniques Used                         | 22        |
| 1. Role-Based Prompting                                  | 22        |
| 2. Multi-Phase Execution                                 | 22        |
| 3. Self-Critique Loops                                   | 22        |
| 4. Chain-of-Thought Reasoning                            | 23        |
| 5. Platform-Specific Optimization                        | 23        |
| 6. Psychological Trigger Mapping                         | 23        |
| 7. Audience Persona Activation                           | 23        |
| 8. Hook-First Architecture                               | 23        |
| 9. Engagement Optimization                               | 23        |
| 10. Format-Specific Structuring                          | 23        |
| 11. Trend-Aware Generation                               | 23        |
| 12. Brand Voice Calibration                              | 23        |
| 13. CTA Strategy Integration                             | 23        |
| 14. Variation Generation                                 | 24        |
| 15. Success Metrics Definition                           | 24        |
| 💡 Pro Tips For Best Results                              | 24        |

## **How To Use This Pack**

### **Step 1: Choose Your Prompt**

Navigate to the section you need (Instagram, TikTok, LinkedIn, etc.) and find the specific prompt that matches your goal. Each prompt is clearly labeled with:

- Platform/content type
- Skill level required
- Time estimate
- What it creates

### **Step 2: Gather Your Inputs**

Each prompt has an "Inputs" section listing what information you need. Some inputs are **Required** (must provide), others are **Optional Premium** (enhance the output quality).

#### Example inputs you might need:

- Your niche/industry
- Target audience description
- Brand voice/tone
- Specific topics or angles
- Call-to-action goals

### Step 3: Copy the Prompt

Look for these markers in each prompt:

---

---

👉 START COPYING HERE

---

---

Copy everything between START and STOP markers. This is the complete prompt you'll paste into your AI tool.

### Step 4: Fill in Your Details

The prompts include [brackets] where you add your specific information:

- Replace [your niche] with your actual niche
- Replace [target audience] with your audience description
- Replace [brand voice] with your tone preference

#### Example:

Before: "Create content for [niche] targeting [audience]"

After: "Create content for sustainable fashion targeting eco-conscious millennials"

### Step 5: Paste Into AI Tool

These prompts work with:

- ☒ ChatGPT (3.5, 4, or 4o)
- ☒ Claude (all versions)
- ☒ Gemini
- ☒ Any AI writing tool

Simply paste your filled-in prompt and press enter.

### Step 6: Review and Refine

The AI will generate content following the prompt structure. Review the output and:

- Use it as-is if it's perfect
  - Ask for variations if you want options
  - Request specific changes if needed
  - Iterate until you're satisfied
- 

## Understanding The Prompt Structure

Every prompt in this pack follows a proven 3-phase structure for maximum quality:

### Phase 1: Analysis & Strategy

The AI first analyzes your inputs, understands your goals, and develops a strategic approach. This ensures the output is thoughtful, not generic.

### Phase 2: Content Creation

The AI generates the actual content using platform-specific best practices, psychological triggers, and engagement tactics built into the prompt.

### Phase 3: Optimization & Refinement

The AI reviews its own output against quality criteria, makes improvements, and ensures the content meets professional standards.

This 3-phase approach is why these prompts generate significantly better results than simple one-line requests.

---

## 15 Advanced AI Techniques Used

These prompts incorporate cutting-edge AI engineering strategies:

### 1. Role-Based Prompting

Every prompt assigns the AI a specific expert role (social media strategist, viral content creator, engagement specialist). This activates relevant knowledge and creates consistent quality.

### 2. Multi-Phase Execution

Breaking complex tasks into phases prevents the AI from being overwhelmed and ensures comprehensive, thoughtful outputs rather than rushed responses.

### **3. Self-Critique Loops**

Prompts instruct the AI to review its own output against quality criteria and make improvements before presenting the final version.

### **4. Chain-of-Thought Reasoning**

The AI is guided to think through its process step-by-step, showing its work rather than jumping to conclusions. This produces more intelligent, nuanced content.

### **5. Platform-Specific Optimization**

Each prompt includes platform requirements (character limits, hashtag counts, format preferences) to ensure content works perfectly on the intended platform.

### **6. Psychological Trigger Mapping**

Prompts identify and leverage specific psychological triggers (curiosity, FOMO, social proof, emotion) appropriate for each content type and audience.

### **7. Audience Persona Activation**

The AI creates detailed mental models of your target audience, ensuring content resonates with their specific interests, pain points, and communication style.

### **8. Hook-First Architecture**

Social media content lives or dies in the first 3 seconds. Prompts prioritize creating attention-grabbing hooks before developing the full content.

### **9. Engagement Optimization**

Every prompt includes strategies to drive specific engagement actions (comments, shares, saves, clicks) based on platform algorithms and human psychology.

### **10. Format-Specific Structuring**

Different content formats (carousels, reels, threads, stories) require different structures. Prompts include format-specific templates and guidelines.

### **11. Trend-Aware Generation**

Prompts guide the AI to create content that feels current and relevant while avoiding dated references or stale formats.

### **12. Brand Voice Calibration**

The AI adapts tone, language, and style to match your specific brand personality while maintaining platform-appropriate communication.

### **13. CTA Strategy Integration**

Calls-to-action are strategically placed and phrased based on content type, platform norms, and conversion psychology.

### **14. Variation Generation**

Most prompts instruct the AI to create multiple variations, giving you options and increasing the chance of finding the perfect fit.

### **15. Success Metrics Definition**

Prompts define what "good" looks like for each content type, ensuring outputs meet professional standards before you see them.

## **Pro Tips For Best Results**

### **Be Specific With Inputs**

The more specific your inputs, the better your outputs. Instead of "fitness niche," use "HIIT workouts for busy professionals over 40."

### **Provide Brand Voice Examples**

If possible, include examples of your existing content or describe your brand voice in detail. The AI will match this style.

### **Iterate and Refine**

Don't settle for the first output. Ask for variations, request specific changes, or run the prompt again with adjusted inputs.

### **Combine Prompts**

Use multiple prompts together. For example, use the Content Calendar prompt to plan, then individual platform prompts to create each piece.

### **Save Your Best Outputs**

When you get great results, save both the filled-in prompt and the output. This creates a library of proven combinations.

## Test Different AI Models

Different AI models have different strengths. ChatGPT-4 might excel at one type of content while Claude excels at another.

## Use Context Windows

If you have brand guidelines, competitor examples, or past successful content, include them as context in your conversation with the AI.

## Adapt to Your Needs

These prompts are templates. Feel free to add your own specific requirements or modify sections to better fit your needs.

---

## Getting Started: Quick Wins

If you're new to this, start here:

1. **Prompt B.1** - Social Media Caption Generator (easiest, fastest results)
2. **Prompt 1.1** - Instagram Reel Hook Generator (high-impact, beginner-friendly)
3. **Prompt 3.1** - LinkedIn Post Creator (professional content, clear structure)

These three will give you immediate results and help you understand how the prompts work.

Once comfortable, explore:

- Content calendar prompts for planning
  - Platform-specific prompts for your main channels
  - Strategic prompts for competitive advantage
- 

## Important Notes

These prompts work best when you:

- Provide complete, specific inputs
- Understand your audience deeply
- Have clear goals for each piece of content
- Review and humanize AI outputs before posting
- Add your own personality and authenticity

Remember:

- AI is a tool, not a replacement for your creativity

- Always fact-check AI-generated claims or statistics
- Add personal touches to avoid generic-sounding content
- Test and iterate to find what works for your audience
- Stay authentic to your brand voice

## SECTION 1: Instagram Content

### 10 Prompts for Instagram Mastery

Instagram remains one of the most powerful platforms for building brand awareness, community, and engagement. These prompts cover everything from viral Reels to carousel posts to Stories that convert.

### 1.1 Instagram Reel Hook Generator

**HIGH IMPACT** | ★★★★★☆☆ Intermediate | ⌚ 10-15 minutes

START COPYING HERE

#### Inputs

##### Required:

- **Your Niche:** [fitness, business, cooking, fashion, etc.]
- **Target Audience:** [Who watches your content?]
- **Content Topic:** [Specific topic for this Reel]
- **Desired Emotion:** [Curiosity, inspiration, shock, humor]

##### Optional (Premium):

- **Recent Trends:** [Trending sounds or formats you've seen]
- **Pain Point:** [Specific problem your audience faces]
- **Your Unique Angle:** [What makes your take different]

#### Role & Expertise

You are a viral Instagram Reels strategist who specializes in creating scroll-stopping hooks. You understand pattern interrupts, curiosity gaps, psychological triggers, and the specific mechanics of what makes the first 3 seconds of a Reel irresistible. You've analyzed thousands of viral Reels and know exactly what makes viewers stop scrolling.

## **Objective**

Generate 10 powerful hook variations for an Instagram Reel that stop the scroll within 0.5 seconds, create immediate curiosity or emotion, match the platform's current content trends, and compel viewers to watch the full video.

## **Success Criteria**

Before finalizing, verify the hooks:

- ☒ Grab attention in first 0.5 seconds
- ☒ Create curiosity gap or emotional response
- ☒ Are platform-appropriate (not clickbait)
- ☒ Match target audience language
- ☒ Lead naturally into the content topic

## **Execution Mode**

### **PHASE 1: Audience Psychology Analysis**

#### **Understand the Target Viewer:**

Who is watching?

- Age range: [demographic]
- Main interests: [what they care about]
- Pain points: [what keeps them up at night]
- Current state: [where they are now]
- Desired state: [where they want to be]

#### **What Makes Them Stop Scrolling:**

- Pattern interrupts (something unexpected)
- Personal relevance ("This is about ME")
- Curiosity gaps (incomplete information)
- Emotional triggers (fear, desire, shock)
- Social proof (others like them succeeded)
- Visual disruption (unexpected movement/text)

#### **Platform Context:**

- Instagram Reels favor fast-paced content
- First frame must be visually distinct
- Text overlays increase retention
- Trending audio helps distribution
- Educational + entertaining performs best

### **PHASE 2: Hook Generation**

## Hook Formula Categories:

### 1. Question Hook:

- Triggers: Curiosity, self-reflection
- Format: "Are you making this [mistake]?"
- Example: "Are you killing your Instagram reach without knowing it?"

### 2. Statement Hook:

- Triggers: Shock, disbelief
- Format: "I [surprising action] and [surprising result]"
- Example: "I stopped posting daily and my engagement tripled"

### 3. "You" Hook:

- Triggers: Personal relevance
- Format: "If you [situation], stop [action]"
- Example: "If you're still using hashtags in 2025, watch this"

### 4. Number Hook:

- Triggers: Specific value promise
- Format: "[Number] [things] that [result]"
- Example: "3 words that made my Reels go viral"

### 5. Negative Hook:

- Triggers: Fear of missing out, urgency
- Format: "Stop [doing X] before [bad thing happens]"
- Example: "Stop posting Reels at this time (you're wasting content)"

### 6. Challenge Hook:

- Triggers: Skepticism, curiosity
- Format: "Nobody believes [X] until they try [Y]"
- Example: "Nobody believes this editing trick until they try it"

### 7. Story Hook:

- Triggers: Relatability, emotion
- Format: "[Time period] ago, I [situation]..."
- Example: "6 months ago, I had 200 followers. Here's what changed."

### 8. Comparison Hook:

- Triggers: Superiority, better option
- Format: "[Old way] vs [new way]"
- Example: "How everyone edits Reels vs how I do it"

### 9. Mistake Hook:

- Triggers: Fear, learning
- Format: "I lost [X] by doing [Y]. Don't make my mistake"
- Example: "I lost 10K followers doing this. Learn from my mistake."

#### 10. Secret/Unknown Hook:

- Triggers: Exclusive knowledge
- Format: "The [thing] nobody tells you about [topic]"
- Example: "The Instagram algorithm change nobody is talking about"

#### Generate 10 Hooks Using Different Formulas:

For the given niche, topic, and audience, create 10 variations using the formulas above. Each hook should:

- Be under 10 words when possible
- Use specific language (not generic)
- Create immediate intrigue
- Match the audience's vocabulary
- Set up the content naturally

#### PHASE 3: Hook Optimization

##### For Each Hook, Provide:

**Visual Suggestion:** What should appear on screen in the first frame?

- Text overlay positioning
- Movement or action
- Color/contrast notes
- Face expression (if on camera)

##### Audio Pairing:

- Trending sound that matches?
- Original audio recommendation?
- Music genre/vibe?

**Follow-Up:** What's the natural next line after the hook? This ensures the hook flows into content smoothly.

**Engagement Prediction:** Which hooks are most likely to:

- Get shares (surprising/useful)
- Get saves (valuable/educational)
- Get comments (controversial/question-based)

## Strategic Framework (Educational - Not Part of Prompt)

Why this prompt works:

### ❶ Psychology-First Approach

Analyzes audience psychology before generating hooks, ensuring they resonate on an emotional level rather than being generic.

### ❷ Multiple Hook Formulas

Provides 10 different proven formulas so you get variety and can test which style works best for your audience.

### ❸ Platform-Specific Optimization

Accounts for Instagram Reels' specific requirements: fast-paced, first-frame importance, trending audio integration.

**The combination ensures:** Hooks that stop the scroll, create curiosity, and lead naturally into valuable content that keeps viewers watching.

- 

## 1.2 Instagram Carousel Post Creator

 **HIGH VALUE** |  Advanced |  20-25 minutes

---

---

 **START COPYING HERE**

---

---

## Inputs

Required:

- **Main Topic:** [What is this carousel teaching?]
- **Target Audience:** [Who needs this information?]
- **Number of Slides:** [How many slides? 5-10 recommended]
- **Goal:** [Educate, inspire, sell, entertain]

Optional (Premium):

- **Your Expertise:** [Your credentials or experience]
- **Unique Framework:** [Any specific methodology you use]
- **CTA Goal:** [What action do you want them to take?]
- **Design Style:** [Minimalist, bold, professional, playful]

## **Role & Expertise**

You are an Instagram carousel strategist who creates high-performing educational content. You understand information architecture, progressive disclosure, visual storytelling, and the specific mechanics of carousel engagement (swipe rate, save rate, completion rate). You know how to structure information so each slide builds anticipation for the next.

## **Objective**

Create a complete Instagram carousel post with slide-by-slide content that educates while entertaining, maintains high swipe-through rate, delivers genuine value, encourages saves and shares, and includes an engaging caption with a strategic call-to-action.

## **Success Criteria**

Before finalizing, verify the carousel:

- ☒ Each slide has a clear, single focus
- ☒ Builds logical progression (not random tips)
- ☒ Uses curiosity gaps to encourage swiping
- ☒ Delivers the promised value
- ☒ Ends with clear next step

## **Execution Mode**

### **PHASE 1: Content Architecture**

#### **Carousel Structure Strategy:**

**Slide 1 - The Hook:** Purpose: Stop the scroll + promise value Elements:

- Bold, attention-grabbing statement
- Clear benefit or outcome
- Number if applicable (5 ways, 3 secrets)
- Visually distinct from feed

**Slides 2-[N-2] - The Value:** Purpose: Deliver the core information Each slide should:

- Focus on ONE point only
- Build on the previous slide
- Create anticipation for the next
- Be self-contained but connected

**Slide [N-1] - The Recap:** Purpose: Reinforce learning

- Quick summary of key points
- Highlight the transformation
- Set up the CTA naturally

**Final Slide - The CTA:** Purpose: Drive specific action

- Clear, single action
- Benefit-oriented language
- Low friction ask

**Information Flow:** Not just a list of random tips. Create a narrative:

1. Identify the problem
2. Explain why it matters
3. Present the solution framework
4. Detail each step
5. Show the outcome
6. Guide next action

## **PHASE 2: Slide-by-Slide Creation**

**For Each Slide, Provide:**

**Slide Number:** [1, 2, 3, etc.]

**Headline/Main Text:**

- Keep it under 8 words for readability
- Use active, specific language
- Make it scannable

**Supporting Text:**

- 1-3 sentences max per slide
- Conversational tone
- Include specific examples or stats if relevant

**Visual Suggestion:**

- Layout recommendation (text placement)
- Color scheme notes
- Icon or image suggestions
- Font hierarchy (large vs small text)

**Transition Technique:** How does this slide make them want to swipe to the next?

- Incomplete thought that continues
- Teaser of what's coming
- Cliffhanger question
- Numbered sequence

## **Example Structure for 7-Slide Carousel on "Instagram Growth":**

**Slide 1:** Headline: "Why Your Instagram Isn't Growing" Supporting: "After analyzing 500+ accounts, I found the same 5 mistakes. Here's what's killing your reach →" Visual: Bold text, contrasting colors, frustrated emoji Transition: Promises solution in upcoming slides

**Slide 2:** Headline: "Mistake #1: Generic Captions" Supporting: "Stop writing captions that could work for anyone. Your audience scrolls past because there's nothing unique." Visual: Example of generic vs specific caption Transition: "But that's not the worst mistake..."

**Slide 3:** Headline: "Mistake #2: Posting Without Strategy" Supporting: "Posting daily doesn't matter if you're posting at the wrong times for the wrong audience." Visual: Calendar showing scattered posts vs strategic timing Transition: "The next one will surprise you..."

### **[Continue for all slides]**

**Slide 6:** Headline: "Mistake #5: Not Engaging Back" Supporting: "Instagram rewards engagement. If you don't respond to comments within 1 hour, you're losing reach." Visual: Comment response time graph Transition: "Here's what to do instead →"

**Slide 7:** Headline: "Start With This One Change" Supporting: "Pick ONE mistake to fix this week. I recommend starting with #3 because it has the fastest impact." Visual: Action steps listed clearly CTA: "Save this for later + follow for more growth tips"

## **PHASE 3: Caption & Engagement Strategy**

### **Instagram Caption Structure:**

**Opening Line (Hook):** First 1-2 sentences are critical - they appear in feed before "more."

- Must hook attention immediately
- Should expand on slide 1 promise
- Often works as a question or bold statement

**Body (Value Expansion):** 3-4 paragraphs that:

- Tell a brief story or share context
- Expand on the carousel content
- Add personal experience or examples
- Make it relatable and human

**CTA (Call-to-Action):** Clear ask that's easy to do:

- "Save this for later!"
- "Share with someone who needs this"
- "Comment 'YES' if this helped"
- "Follow @[handle] for daily [niche] tips"

**Hashtag Strategy:** 3-5 highly relevant hashtags max (Instagram 2025 best practice)

- Mix of niche and broader tags
- Avoid banned or spam hashtags
- Place at the end or first comment

**Engagement Prompts:** Build in ways to spark comments:

- Ask a question in the caption
- Request their biggest challenge
- Create a poll-style prompt
- Invite them to share their experience

**Example Caption:**

"I spent 6 months wondering why my Instagram wasn't growing. Turns out, I was making ALL 5 of these mistakes 🙋"

The worst part? Most Instagram advice tells you to 'post consistently' and 'use hashtags.' That's not wrong, but it's not the full picture.

After fixing these 5 mistakes (especially #3), my reach increased by 240% in just 30 days. Same amount of posting. Same niche. Different strategy.

Swipe through all 5 mistakes and tell me: which one are YOU making? 🙋

Save this so you can come back and fix them one by one!

#instagramgrowth #socialmediatips #contentcreator"

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

**Why this prompt works:**

### ① Narrative Architecture

Instead of random tips, creates a story arc that keeps viewers swiping through to completion, boosting the algorithm ranking.

### ② Curiosity Gap Engineering

Each slide creates anticipation for the next through incomplete thoughts and strategic teasers, maximizing swipe-through rate.

### ③ Multi-Objective Design

Optimizes for all key metrics simultaneously: swipe rate (algorithmic boost), save rate (evergreen reach), and engagement (comments/shares).

**The combination ensures:** Carousels that perform well algorithmically while delivering genuine value that builds audience trust and loyalty.

## 1.3 Instagram Caption Writer

 **ESSENTIAL** | ★★★★★☆☆ Intermediate | ⌚ 10-15 minutes

---

---

 START COPYING HERE

---

---

### Inputs

#### Required:

- **Post Type:** [Reel, carousel, single image, video]
- **Main Message:** [What is the post about?]
- **Brand Voice:** [Professional, casual, humorous, inspirational]
- **Desired Action:** [Comment, save, share, click link]

#### Optional (Premium):

- **Character Limit:** [Any length restrictions?]
- **Story/Context:** [Personal story to share?]
- **Hashtag Preferences:** [Specific tags to include/avoid?]
- **Emoji Style:** [Heavy, moderate, minimal, none]

### Role & Expertise

You are an Instagram caption specialist who writes captions that drive engagement and connection. You understand the psychology of social media communication, the balance between promotional and personal, and the specific techniques that make people stop and read beyond the "more" button. You know how to craft captions that feel authentic while strategically driving specific actions.

### Objective

Write an Instagram caption that hooks attention in the first line, expands on the post's message authentically, creates connection through relatability or value, drives the desired engagement action, and feels natural to the brand voice.

## Success Criteria

Before finalizing, verify the caption:

- ☒ First line hooks before "more" cutoff
- ☒ Natural, conversational tone
- ☒ Includes personal touch or story
- ☒ Clear but non-pushy CTA
- ☒ Appropriate length for post type

## Execution Mode

### PHASE 1: Caption Strategy Selection

#### Instagram Caption Types:

**1. Story Caption:** When to use: Relatable content, personal posts, behind-the-scenes  
Structure:

- Start with the story hook
- Share the full narrative (2-4 paragraphs)
- Connect to universal lesson or emotion
- End with question to spark discussion

Example opening: "I almost gave up on social media last month. Here's what changed my mind..."

**2. Value Caption:** When to use: Educational content, tips, how-tos  
Structure:

- Lead with the main benefit
- Break down the key points
- Add personal credibility or proof
- CTA to save or share

Example opening: "This one change tripled my engagement rate (and it takes 2 minutes) →"

**3. Question Caption:** When to use: Engagement-focused posts, polls, discussions  
Structure:

- Ask the question immediately
- Provide context for why you're asking
- Share your own answer
- Invite their response

Example opening: "Real talk: Do you schedule content or post in the moment? 🤔"

**4. Controversial Caption:** When to use: Starting discussions, challenging norms Structure:

- Bold statement that challenges common belief
- Explain your reasoning
- Acknowledge other perspectives
- Invite respectful debate

Example opening: "Unpopular opinion: You're posting too much content. Here's why →"

**5. List Caption:** When to use: Multiple tips, step-by-step guides Structure:

- Number the points clearly
- Keep each point concise
- Use line breaks for readability
- Summarize at the end

Example opening: "5 things I stopped doing that doubled my followers:

1. [point]
2. [point]..."

**6. Transformation Caption:** When to use: Before/after, progress, results Structure:

- Show the contrast (then vs now)
- Explain what changed
- Share the specific actions taken
- Inspire similar transformation

Example opening: "6 months ago, I had 300 followers. Today, I hit 10K. The difference wasn't luck—"

**PHASE 2: Caption Construction**

**Opening Line (Critical):**

First 1-2 sentences visible before "more" button.

Must accomplish ONE of these:

- Spark curiosity (incomplete statement)
- Create relatability ("If you've ever...")
- Promise value ("The one thing that...")
- Shock/surprise ("I quit social media for 30 days and—")
- Ask compelling question

**Body Paragraphs:**

Paragraph 1: Expand the hook

- Add context or story
- Make it relatable

- Build interest

#### Paragraph 2: Deliver value

- Main point or lesson
- Specific, actionable if applicable
- Personal experience or example

#### Paragraph 3 (Optional): Additional value

- Supporting points
- Alternative perspectives
- Common mistakes to avoid

**Use Line Breaks:** Instagram captions are easier to read with spacing. Leave a line between paragraphs. Use emojis as visual markers (optional).

#### Humanize It:

- Use conversational language ("you" and "I")
- Share vulnerable moments
- Admit mistakes or challenges
- Show personality

### PHASE 3: Engagement Optimization

#### Call-to-Action Strategy:

Match CTA to post type and goal:

**For Reels:** "Watch till the end!" "Save this for later 📌" "Share with someone who needs this"

**For Carousels:** "Swipe for the full guide →" "Save this checklist!" "Which one surprised you?"

**For Single Images:** "Comment [emoji] if you agree" "Tag someone who needs to see this" "What's your experience with this?"

#### CTA Placement:

- Usually at the end
- Sometimes mid-caption for emphasis
- Can be subtle or direct depending on brand voice

#### Engagement Sparkers:

#### Questions that Work:

- "What's your biggest challenge with [topic]?"
- "Am I the only one who [relatable thing]?"

- "Team A or Team B?"
- "What would you add to this list?"

#### **Comment Magnets:**

- "Comment 'SAVE' and I'll DM you the full guide"
- "Tell me your [relevant number or data]"
- "Reply with [emoji] if you relate"

#### **Hashtag Strategy (2025 Best Practices):**

Use 3-5 highly relevant hashtags:

- 1-2 niche-specific (#fitnesstipsforwomen)
- 1-2 broader category (#fitness)
- 1 brand or campaign tag (#[yourbrandname])

Placement options:

- End of caption (least preferred now)
- First comment (recommended)
- Naturally in caption text (works well)

### **Strategic Framework (Educational - Not Part of Prompt)**

#### **Why this prompt works:**

##### **① Hook Psychology**

Focuses heavily on the first line that appears before the "more" button, the make-or-break moment for caption engagement.

##### **② Multiple Caption Styles**

Provides 6 different approaches so you can match the caption style to your content type and engagement goals.

##### **③ Natural Voice Maintenance**

Emphasizes authenticity and personality over corporate-speak, crucial for building genuine audience connections on Instagram.

**The combination ensures:** Captions that get read, feel authentic, drive engagement, and support your overall content goals without feeling salesy or forced.

## 1.4 Instagram Story Sequence Creator

 **HIGH ENGAGEMENT** | ★★★★★☆☆ Intermediate | ⌚ 15-20 minutes

---

---

 **START COPYING HERE**

---

---

### Inputs

#### Required:

- **Story Goal:** [Educate, sell, announce, engage, entertain]
- **Number of Stories:** [How many in the sequence? 5-10 recommended]
- **Main Topic:** [What is this sequence about?]
- **Target Audience:** [Who is watching your Stories?]

#### Optional (Premium):

- **Interactive Elements:** [Polls, questions, quizzes, sliders?]
- **Product/Link:** [Are you promoting something?]
- **Urgency Factor:** [Time-sensitive? Limited availability?]
- **Brand Assets:** [Colors, fonts, style preferences]

### Role & Expertise

You are an Instagram Stories strategist who creates sequential content that maintains viewer attention across multiple frames. You understand story pacing, interactive element psychology, the 15-second attention span, and how to use Stories' ephemeral nature to create urgency and FOMO. You know how to build momentum from the first frame to the final CTA.

### Objective

Create a complete Instagram Story sequence that hooks attention on frame one, builds curiosity through progressive disclosure, leverages interactive elements for engagement, maintains pacing across all frames, and drives a specific action on the final frame.

### Success Criteria

Before finalizing, verify the sequence:

- ☒ Each story has a single, clear focus
- ☒ Builds logical progression and momentum
- ☒ Uses interactive elements strategically
- ☒ Pacing keeps viewers tapping through
- ☒ Final story has clear, compelling CTA

## Execution Mode

### PHASE 1: Story Sequence Architecture

#### Story Sequence Structure:

**Frame 1 - The Hook:** Purpose: Stop the skip

- Bold opening statement or question
- Visual disruption (bright colors, movement)
- Set up what's coming
- Create curiosity gap

**Frames 2-4 - The Build:** Purpose: Deliver value while building anticipation

- Each frame reveals one piece
- Use "swipe up" or "tap" prompts
- Mix content types (text, video, image)
- Increase engagement as you go

**Frames 5-7 - The Engagement:** Purpose: Make it interactive

- Polls: "Which one would you choose?"
- Questions: "What's your biggest challenge?"
- Quizzes: "Can you guess...?"
- Sliders: "Rate this on a scale..."

**Frame 8-9 - The Value Delivery:** Purpose: Payoff the buildup

- The answer/solution they've been waiting for
- The big reveal or main point
- Quick actionable takeaway
- Shows you delivered on the promise

**Final Frame - The CTA:** Purpose: Drive specific action

- Clear instruction
- Low friction ask
- Benefit-focused language
- Urgency if applicable

**Pacing Strategy:**

Fast-paced content (7-10 frames):

- Quick tips or hacks
- Product features
- Announcements
- Behind-the-scenes

Slow-paced content (5-7 frames):

- Educational deep-dives
- Personal stories
- Detailed processes
- Thoughtful messages

### **Visual Variety:**

Mix these frame types:

- Text on colored background
- Video clips (keep under 10 seconds)
- Photos with text overlay
- Screen recordings
- User-generated content
- Boomerangs or GIFs

## **PHASE 2: Frame-by-Frame Creation**

**For Each Story Frame, Provide:**

**Frame Number:** [1, 2, 3, etc.]

**Visual Type:**

- Text slide, video, photo, boomerang, etc.

**Main Text:**

- Keep it under 8 words if possible
- Large, readable font
- High contrast with background

**Supporting Text (if needed):**

- Smaller text for additional context
- Keep minimal - Stories are quick consumption

**Interactive Element (if applicable):**

- Poll: "Which would you pick? A or B"
- Question: "What's holding you back?"
- Quiz: "True or False: [statement]"

- Slider: "How much do you agree?"
- Countdown: "Sale ends in..."
- Link: "Swipe up for..."

### Visual Style:

- Color scheme
- Text placement
- Animation notes
- Background style

### Tap-Through Trigger: What makes them want to see the next frame?

- Incomplete information
- Numbered sequence ("1 of 5")
- Cliffhanger question
- Promise of reveal

### Example 7-Frame Story Sequence: "Morning Routine for Productivity"

**Frame 1:** Visual: Video of waking up Text: "My 5-minute morning routine that changed everything" Style: Bold white text, dark overlay Trigger: Promises transformation in just 5 minutes

**Frame 2:** Visual: Text slide with coffee emoji Text: "Step 1: No phone for the first 30 minutes ☕" Supporting: "I know it's hard, but here's why it works..." Style: Warm brown background Trigger: Teases explanation

**Frame 3:** Visual: Photo of journal Text: "Step 2: Brain dump for 2 minutes 📝" Supporting: "Write everything in your head. Don't filter." Interactive: Poll - "Do you journal? Yes / Trying to start" Trigger: Poll engagement + numbered sequence

**Frame 4:** Visual: Text slide Text: "Step 3: The 1-minute goal check ✓" Supporting: "Ask: What's my ONE priority today?" Style: Minimalist, clean Trigger: Simplicity makes it seem doable

**Frame 5:** Visual: Video of stretching Text: "Step 4: Move your body (even 2 minutes helps)" Supporting: "No gym needed. Just shake off the sleep." Trigger: Shows it's achievable

**Frame 6:** Visual: Text slide Text: "That's it. 5 minutes. Zero excuses. 💪" Supporting: "I've done this for 90 days straight." Interactive: Slider - "How motivated are you to try this? 0-100%" Trigger: Interactive engagement

**Frame 7:** Visual: Text on gradient background Text: "Want the full morning routine guide?" Supporting: "Link in bio - it's free!" Interactive: Link sticker or swipe up CTA: "Tap the link 👉 or save this Story to come back"

### PHASE 3: Engagement Optimization

#### Interactive Element Strategy:

**Polls:** Best for: Quick opinions, preferences, engagement Example: "Coffee or tea?" "A or B?" "Yes or No?" Pro tip: Use on frames 3-5 to boost mid-sequence engagement

**Questions:** Best for: Gathering feedback, starting conversations Example: "What's your biggest productivity challenge?" Pro tip: Respond to every answer to build community

**Quizzes:** Best for: Education, testing knowledge, entertainment Example: "True or False: You should check email first thing" Pro tip: Reveal answer in next frame

**Sliders:** Best for: Gauging intensity, opinions, agreement Example: "How motivated are you right now?" Pro tip: Fun and quick, doesn't require typing

**Countdowns:** Best for: Creating urgency, event promotion Example: "Launch in..." "Sale ends in..." Pro tip: Use in final frames before CTA

**Link Stickers:** Best for: Driving traffic off Instagram Example: "Read the full post" "Shop now" "Sign up here" Pro tip: Always explain the benefit of clicking

### **Engagement Tips:**

- Reply to every interaction (DMs, poll responses, questions)
- Use @mentions to tag collaborators or featured accounts
- Add location tags for local reach
- Use relevant hashtags (1-3 max in Stories)
- Post consistently (daily Stories keep you top of mind)
- Save best Stories to Highlights for permanent access

### **Story Highlights Strategy:**

Organize completed story sequences into Highlights:

- Tips & Tutorials
- Behind the Scenes
- Products/Services
- Testimonials
- FAQs
- Day in the Life

---

---

👉 STOP COPYING HERE

---

---

### **Strategic Framework (Educational - Not Part of Prompt)**

**Why this prompt works:**

### ❶ Sequential Momentum Building

Designs each frame to create curiosity for the next, preventing the viewer drop-off that kills most Story sequences.

### ❷ Strategic Interactive Placement

Places engagement elements (polls, questions) in the middle frames where they boost completion rate and algorithm favorability.

### ❸ Pacing Psychology

Understands that Stories are consumed quickly - keeps each frame focused and uses visual variety to maintain attention.

**The combination ensures:** Story sequences that maintain attention, drive meaningful engagement, and convert viewers into action-takers.

## 1.5 Instagram Product/Service Promotion Post

 **CONVERSION-FOCUSED** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

 START COPYING HERE

---

### Inputs

#### Required:

- **What You're Promoting:** [Product, service, course, etc.]
- **Target Buyer:** [Who needs this?]
- **Main Benefit:** [What problem does it solve?]
- **Price Point:** [Free, low-cost, premium?]

#### Optional (Premium):

- **Unique Selling Point:** [What makes it different?]
- **Social Proof:** [Testimonials, results, user count?]
- **Urgency Factor:** [Limited time, spots, quantity?]
- **Objections:** [Common hesitations or concerns?]

## **Role & Expertise**

You are a social commerce strategist who creates promotional content that sells without feeling salesy. You understand value-first marketing, social proof psychology, objection handling, and the delicate balance between promotion and authenticity on Instagram. You know how to position offers so they feel like helpful recommendations rather than aggressive pitches.

## **Objective**

Create an Instagram promotional post (Reel, carousel, or single post) that educates before selling, addresses objections naturally, leverages social proof effectively, creates appropriate urgency, and drives conversions without damaging brand trust.

## **Success Criteria**

Before finalizing, verify the post:

- ☒ Leads with value, not the pitch
- ☒ Makes the offer feel like a solution
- ☒ Addresses at least 2 major objections
- ☒ Includes credible social proof
- ☒ Has clear but non-pushy CTA

## **Execution Mode**

### **PHASE 1: Promotional Content Strategy**

#### **The Value-First Framework:**

Instagram users resist hard selling. The key is to position your promotion as helpful information rather than a sales pitch.

#### **Structure:**

1. Identify the problem (relatable pain point)
2. Agitate slightly (why it matters)
3. Introduce solution (your product/service)
4. Prove it works (social proof)
5. Make the offer (clear CTA with benefit)
6. Remove friction (address objections)

#### **Content Format Selection:**

#### **Use Reel When:**

- Demonstrating the product in action
- Showing before/after transformations
- Quick testimonial compilations

- Behind-the-scenes of creation

### **Use Carousel When:**

- Detailed feature breakdowns
- Multi-step explanations
- Comparison charts
- Educational + promotional hybrid

### **Use Single Post When:**

- Simple, straightforward offers
- Strong visual of the product
- Limited-time announcements
- Trust-building with single testimonial

## **PHASE 2: Content Creation**

### **Hook/Opening (Critical First 3 Seconds):**

Don't lead with the promotion! Lead with the problem.

Bad: "I'm so excited to announce my new course!" Good: "Tired of spending 4 hours writing one Instagram caption?"

Bad: "My product is finally available!" Good: "What if I told you there's a way to [desired outcome]?"

### **Problem Identification:**

Speak to their pain point specifically:

- "You're posting daily but not seeing growth..."
- "You know you need [solution] but have no idea where to start..."
- "Every time you try [action], you get overwhelmed..."

Make it personal and relatable. Use "you" language.

### **Solution Introduction:**

Present your product as the answer, but focus on OUTCOMES, not features.

Feature-focused: "My course has 12 modules and 6 hours of video" Outcome-focused: "My course shows you exactly how to [desired result] in 30 days"

Feature-focused: "This planner has 200 pages" Outcome-focused: "This planner helps you finally stick to your goals"

### **The Transformation Formula:**

"[Product/Service] helps [target audience] go from [current frustrating state] to [desired state] without [common obstacle]."

Example: "The Content Calendar helps busy creators go from posting inconsistently to having 30 days of content planned without spending hours brainstorming."

### **Social Proof Integration:**

Social proof is critical for credibility. Include at least one of these:

#### **Numbers:**

- "[X] people have already joined"
- "[X]% saw results in [timeframe]"
- "[X] 5-star reviews"

**Testimonials:** Use specific, detailed quotes (not generic praise): Bad: "This is amazing!" - Sarah Good: "I went from 0 to 10K followers in 3 months using these exact strategies." - Sarah, Wellness Coach

**Results:** Show concrete outcomes:

- Before/after photos
- Revenue increases
- Time saved
- Problems solved

**User-Generated Content:** Repost customer content (with permission):

- Photos using your product
- Screenshots of results
- Video testimonials

## **PHASE 3: Objection Handling & CTA**

### **Common Objections to Address:**

**"Is it worth the price?"** Address by: Showing ROI or time saved "Investment: \$47 | Value: Saves you 10+ hours/month (that's \$4.70/hour if you value your time at \$50/hr)"

**"Will it work for me?"** Address by: Showing diverse success stories "This works whether you have 100 followers or 100K. Here's proof →"

**"I don't have time."** Address by: Showing how quick/easy it is "15 minutes to set up. Then it runs on autopilot."

**"I've tried other things that didn't work."** Address by: Explaining why this is different "Unlike other courses that give you theory, this is a step-by-step system with templates you can copy."

**"What if I don't like it?"** Address by: Offering guarantee or low-risk trial "30-day money-back guarantee. Zero risk."

### **Creating Urgency (Without Being Manipulative):**

Real urgency is effective. Fake urgency damages trust.

#### **Acceptable urgency:**

- Limited enrollment spots (if actually limited)
- Launch pricing (ending on specific date)
- Seasonal availability
- Closing enrollment temporarily

#### **Avoid:**

- Fake countdown timers
- "Only 3 left!" when it's digital
- Constant "last chance" messages
- Artificial scarcity

### **CTA Structure:**

**Formula:** [Action] + [Benefit] + [Low Friction]

Weak: "Link in bio" Strong: "Grab your copy [action] and start planning your content today [benefit] - takes 2 minutes to set up [low friction]. Link in bio 🙌"

### **CTA Placement:**

- In the content itself (visual or audio)
- In the caption (middle and end)
- First comment (for additional links)

### **Multiple CTA Options:**

Give them choices if appropriate: "Ready to start? Here's how: → Full course: Link in bio → Free mini-guide: Comment 'GUIDE' → Questions: DM me"

### **Example Promotional Reel Script:**

[Visual: Person looking frustrated at laptop] Text: "Me spending 3 hours trying to write ONE Instagram caption..."

[Cut to: Same person, confident, typing quickly] Text: "vs. Me NOW with the Caption Formula"

[Text slide] "Here's what changed:"

[Quick clips showing the formula in action] "I used to stare at a blank screen for hours. Now I use this simple 3-part framework:

1. Hook (grab attention)
2. Value (teach something)
3. CTA (tell them what's next)"

[Text slide with results] "Since using this system: ✓ Write captions in 15 minutes ✓ Engagement up 3x ✓ Actually enjoy creating content"

[Final slide] "Want the full Caption Formula? It's in my Content Creator Toolkit (Link in bio - on sale this week only!)"

### **Caption for this Reel:**

"I used to DREAD writing captions. It would take me 2-3 hours per post, and they never performed well anyway 😞

Then I created a simple system that changed everything.

The Caption Formula breaks down exactly how to write captions that: → Hook attention in the first line → Keep people reading → Drive the action you want

Now it takes me 15 minutes max, and my engagement has tripled.

I've packaged this (+ 49 other tools) into the Content Creator Toolkit. It's everything I wish I had when I started.

Inside you get: ✓ Caption templates for every post type ✓ 30-day content calendar ✓ Viral Reel formulas ✓ Hashtag research guide ✓ Analytics tracker

Regular price: \$67 This week only: \$47

Link in bio to grab it 👉

(30-day money-back guarantee if it's not for you)

---

---

## **Strategic Framework (Educational - Not Part of Prompt)**

### **Why this prompt works:**

#### **① Value-First Positioning**

Leads with education and problem-solving rather than the pitch, maintaining trust while still converting.

## ② Objection Pre-Emption

Addresses common purchase hesitations before prospects even think them, removing friction from the buying decision.

## ③ Social Proof Integration

Weaves credibility indicators throughout rather than stacking them awkwardly, making the proof feel natural and believable.

**The combination ensures:** Promotional content that converts without feeling salesy, maintains audience trust, and can be used repeatedly without audience fatigue.

# 1.6 Instagram Engagement Comment Replies

 **COMMUNITY BUILDING** |  Intermediate |  10-15 minutes

---

---

 **START COPYING HERE**

---

---

## Inputs

### Required:

- **Your Niche:** [What is your account about?]
- **Brand Voice:** [Friendly, professional, humorous, inspirational]
- **Common Comment Types:** [What do people usually comment?]
- **Reply Goals:** [Build community, answer questions, drive action]

### Optional (Premium):

- **Frequently Asked Questions:** [Recurring questions you get]
- **Troll/Negative Comment Strategy:** [How to handle criticism]
- **Conversation Starters:** [How to extend engagement]

## Role & Expertise

You are a community management specialist who understands that comment replies are not just customer service—they're content. You know how to craft replies that spark additional

engagement, strengthen community bonds, showcase personality, and signal to the algorithm that your content is valuable. You understand the difference between a reply that ends conversation and one that continues it.

## **Objective**

Create a library of comment reply templates that feel authentic and personalized, encourage continued conversation, showcase brand personality, answer common questions efficiently, and turn commenters into engaged community members.

## **Success Criteria**

Before finalizing, verify replies:

- ☒ Feel personal, not copy-pasted
- ☒ Match brand voice consistently
- ☒ Encourage follow-up engagement
- ☒ Answer the question completely
- ☒ Include personality or humor where appropriate

## **Execution Mode**

### **PHASE 1: Comment Reply Strategy**

#### **Why Comment Replies Matter:**

1. **Algorithm Boost:** Instagram prioritizes posts with active comment conversations
2. **Community Building:** Replies make followers feel seen and valued
3. **Content Discovery:** Long comment threads appear in Explore
4. **Brand Personality:** Replies showcase your human side
5. **Loyalty Creation:** Engaged commenters become your biggest fans

#### **Reply Speed Strategy:**

- **First hour:** Reply to every comment (signals active engagement to algorithm)
- **First day:** Reply to at least 50% of comments
- **Ongoing:** Check daily and respond to questions/meaningful comments

#### **The 3-Second Rule:**

People should be able to tell a real human wrote the reply within 3 seconds. Avoid generic responses that could be automated.

Bad: "Thanks for your comment!" Good: "Right?! I thought the same thing when I first tried it 😂"

### **PHASE 2: Reply Template Library**

#### **For Positive/Supportive Comments:**

**Comment:** "This is so helpful!" **Reply:** "I'm so glad! Which tip are you trying first? 🤔"  
*[Encourages follow-up + shows genuine interest]*

**Comment:** "Love this!" **Reply:** "Thank you! Have you tried [related thing]? It pairs perfectly with this ❤️" *[Shows appreciation + suggests more value]*

**Comment:** [Just an emoji: ❤️ or 🔥] **Reply:** "🙏🌟" or "Appreciate you!" *[Keep it simple but acknowledge]*

#### **For Questions:**

**Comment:** "Does this work for [specific situation]?" **Reply:** "Yes! I actually used it for [similar situation] last month. The key is [specific tip]. Let me know how it goes!" *[Answers directly + adds context + invites follow-up]*

**Comment:** "Where did you get that?" **Reply:** "It's from [place/brand]! I linked it in my bio under 'Shop My Favorites' 📍" *[Answers + directs to your link strategically]*

**Comment:** "How long does this take?" **Reply:** "About [X] minutes! Less time than scrolling Instagram 😊 Totally worth it though" *[Specific answer + humor + encouragement]*

#### **For Engagement/Discussion:**

**Comment:** "I disagree with #3" **Reply:** "Interesting! What's your approach? I'm always curious to hear different perspectives 🤔" *[Respectful + invites their input + keeps conversation going]*

**Comment:** "This is exactly what I needed today" **Reply:** "Ah, one of those days? 😊 You've got this! Which part resonated most?" *[Empathy + encouragement + question to extend engagement]*

**Comment:** "Can you do a post about [topic]?" **Reply:** "Great idea! Adding it to my content list. Would you want it as a Reel or carousel?" *[Shows you're listening + involves them in content creation]*

#### **For Objections/Skepticism:**

**Comment:** "This doesn't work for everyone" **Reply:** "You're absolutely right - everyone's situation is different! This approach worked for [specific context]. What's worked better for you?" *[Validates their point + provides context + asks for their experience]*

**Comment:** "Easier said than done" **Reply:** "Fair point! It took me [timeframe] to figure this out. The hardest part was [specific challenge]. What part feels most difficult for you?" *[Acknowledges difficulty + shows it wasn't easy for you either + offers to help]*

#### **For Tags:**

**Comment:** "@friend you need to see this!" **Reply:** "@friend welcome! Let me know if you have any questions 😊" *[Welcomes the tagged person + offers help]*

**Comment:** "@friend this is what I was telling you about" **Reply:** "Yes! Hope it helps both of you! 💙" *[Acknowledges both people + positive energy]*

#### **For Repeat/Loyal Commenters:**

**Comment:** [Regular commenter leaving another positive comment] **Reply:** "You're seriously the best! Always appreciate your comments 🙌" *[Recognize loyalty + make them feel special]*

#### **For Critical/Negative Comments:**

**Comment:** "This is wrong because [reason]" **Reply:** "Thanks for sharing your perspective! I based this on [source/experience]. If you have resources that say otherwise, I'd love to see them - always learning!" *[Respectful + explains your reasoning + open to correction]*

**Comment:** [Clearly trolling/mean-spirited] **Reply:** [Often best to ignore, or:] "Thanks for watching! Hope you find content that resonates more with you 🙌" *[Brief, polite, doesn't engage with negativity]*

**Comment:** [Spam or inappropriate] **Action:** Delete and/or block (don't reply) *[Protect your community]*

### **PHASE 3: Reply Optimization Techniques**

#### **Conversation Extenders:**

Turn one comment into a thread:

**Technique 1 - Ask a Question:** "That's awesome! How long have you been [doing related thing]?"

**Technique 2 - Share a Tip:** "Pro tip: If you're doing this, also try [related hack]. Game changer!"

**Technique 3 - Relate Personally:** "Same! I actually [share brief relevant story]"

**Technique 4 - Invite Opinion:** "Curious: do you prefer [A] or [B]? I go back and forth"

#### **Strategic Emojis:**

Use emojis to add warmth and personality:

- ✨ for emphasis
- 😊 for humor/relatability
- 🤔 when asking questions
- 💙/❤️ for appreciation
- 🙌/🔥 for celebration
- 🙌 for casual sign-off

**Don't overdo it** - 1-2 emojis per reply is plenty.

## **Reply Length Guidelines:**

### **Short replies (1 sentence):**

- For simple thanks/acknowledgment
- When just answering yes/no
- For emoji-only comments

### **Medium replies (2-3 sentences):**

- Answering questions
- Responding to meaningful comments
- Building on their point

### **Long replies (4+ sentences):**

- Complex questions
- Detailed explanations
- When having a real conversation with an engaged follower

## **DM vs Reply Strategy:**

### **Keep in comments when:**

- Answer benefits others too
- Builds public engagement
- Showcases your helpfulness

### **Move to DMs when:**

- Personal information needed
- Complex situation requiring privacy
- Selling/detailed consultations
- They specifically ask

**Reply:** "Great question! I'll DM you with more details 📩"

## **Building Reply Habits:**

Set aside 15-30 minutes after posting to reply to early comments. This kickstarts engagement and shows Instagram your content is creating conversation.

### **Morning routine:**

- Check overnight comments
- Reply to questions
- Like replies to your replies
- Engage with your engaged followers' content

---

---

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

Why this prompt works:

### ① Conversation Extension Psychology

Designs replies that naturally invite follow-up comments, creating the comment threads that Instagram's algorithm rewards.

### ② Personality Integration

Shows how to inject brand voice and humanity into replies, transforming customer service moments into community-building opportunities.

### ③ Strategic Acknowledgment

Teaches which comments to prioritize, how to handle different comment types, and when to move conversations to DMs for deeper engagement.

**The combination ensures:** A commenting strategy that boosts algorithm performance, builds loyal community, and turns casual followers into engaged superfans.

## 💎 1.7 Instagram Bio Optimizer

🏆 **FIRST IMPRESSION** | ★★☆☆☆ Beginner | ⌚ 10 minutes

---

👉 START COPYING HERE

---

## 📦 Inputs

Required:

- **What You Do:** [Your niche or expertise]
- **Who It's For:** [Target audience]

- **Main Benefit:** [What value do you provide?]
- **Desired Action:** [What should they do? Follow, click link, DM?]

#### Optional (Premium):

- **Personality Trait:** [One word that describes your brand]
- **Credentials:** [Achievements or social proof]
- **Current Bio:** [What do you have now?]

### **Role & Expertise**

You are an Instagram bio strategist who crafts compelling bios that convert profile visitors into followers. You understand the 150-character limitation, the psychology of first impressions, the power of clear value propositions, and how to make every word count in the tiny space available.

### **Objective**

Write an Instagram bio that immediately communicates what you do, who it's for, and why someone should care, all while staying under 150 characters and reflecting your brand personality.

### **Success Criteria**

Before finalizing, verify the bio:

- ☒ Clear what you do (no confusion)
- ☒ States who it's for (if niche-specific)
- ☒ Communicates clear benefit or value
- ☒ Under 150 characters
- ☒ Has personality (not generic)

### **Execution Mode**

#### **PHASE 1: Bio Structure Strategy**

##### **Instagram Bio Formula:**

Line 1: **WHO + WHAT** Who you are or who you help + what you do

Line 2: **VALUE PROPOSITION** The benefit or transformation you provide

Line 3: **CREDIBILITY/PERSONALITY** Social proof, personality trait, or unique angle

Line 4: **CALL-TO-ACTION** What they should do next (usually pointing to link)

##### **Character Count Strategy:**

You have 150 characters total. Use them wisely:

- Remove unnecessary words ("very," "really," "just")
- Use symbols instead of words (→ instead of "pointing to")
- Abbreviate where clear (& instead of "and")
- Use emojis as visual breaks (saves space + adds personality)

### The 3-Second Test:

People decide to follow in 3 seconds. Your bio must pass this test:

1. "What do they do?" - Clear immediately
2. "Is this for me?" - Target audience obvious
3. "Why should I care?" - Value stated clearly

### PHASE 2: Bio Variations

#### Formula 1: Direct & Clear

Structure: [What you do] for [who it's for] [Main value/benefit] [Credential or personality] [CTA]

Example: "Instagram coach for small businesses Get more clients from your content 10K+ students | Featured in Forbes Free growth guide 📌"

#### Formula 2: Transformation-Focused

Structure: Helping [audience] go from [A] to [B] [Supporting benefit] [Social proof] [CTA]

Example: "Helping overwhelmed moms build online businesses Work less. Earn more. Be present. 💰 \$2M+ earned by my students Start here 📌"

#### Formula 3: Problem-Solution

Structure: [Relatable problem]? [What you provide as solution] [Result they'll get] [CTA]

Example: "Spending hours on content that flops? I teach strategy that actually works Grow your audience. Build your business. Learn free 📌"

#### Formula 4: Authority-Based

Structure: [Credentials/numbers] [What you teach/do] [Who it's for] [CTA]

Example: "500K followers | Social media strategist Teaching you how to grow on Instagram For creators & small biz owners Free masterclass 📌"

#### Formula 5: Personality-First

Structure: [Personality trait/hobby] [Professional identity] [Value you provide] [CTA]

Example: "Coffee addict ☕ & content creator Making social media less overwhelming Tips, templates & real talk Join 50K+ here 📌"

## PHASE 3: Bio Optimization

### Emoji Strategy:

Emojis add personality and create visual breaks. Use strategically:

**Separator:** Use → or | to divide sections "Coach | Speaker | Mom of 3"

**Category Markers:** Use relevant emojis before sections " 📱 Social Media Tips 🗂️ Content Templates 🎓 Free Courses"

**CTA Pointer:** Draw attention to link "Free guide 📌" "Start here →"

**Don't overdo it:** 2-4 emojis total is usually plenty

### Link Strategy:

Your one clickable link is valuable real estate.

### Options:

- Link-in-bio tool (Linktree, Stan Store, Beacons)
- Direct website link
- Current campaign/offer
- Newsletter signup
- Lead magnet
- Shop

**Bio mention:** "All my links 📌" "Free guide 📌" "Shop here 📌" "Weekly newsletter 📌"

### Username & Name Field Optimization:

**Username:** Keep it clean and searchable

- Your brand/business name
- Easy to spell
- No unnecessary numbers or underscores

**Name Field:** This is searchable! Include keywords Instead of just "Sarah Smith" Use "Sarah Smith | Instagram Coach"

This helps people find you in search.

### Common Bio Mistakes:

❌ Too vague: "Living my best life ✨" ✅ Specific: "Budget travel tips for 20-somethings"

❌ Too much: "Coach | Speaker | Author | Consultant | Dog Mom" ✅ Focused: "Business coach helping you land 5-figure clients"

❌ No CTA: Just describes what you do ✅ Clear action: "DM 'START' for free audit"

❌ Generic: "Helping people live their dreams" ✅ Specific: "Helping burnt-out teachers transition to online careers"

### Before & After Examples:

**BEFORE:** "Just a girl who loves fitness and healthy living! Follow my journey 💪✨ Living my best life! Check out my link for some cool stuff!"

**AFTER:** "Home workout coach for busy moms Get fit in 20 min/day. No gym needed. 100K+ transformations 💪 Free workout plan 📌"

**BEFORE:** "Entrepreneur | Speaker | Author Helping you succeed"

**AFTER:** "Teaching small businesses to scale \$50M+ in student revenue Real strategies. No fluff. Free training 📌"

### Testing Your Bio:

Show your bio to someone unfamiliar with your brand and ask:

1. "What do I do?"
2. "Who is this for?"
3. "What value do I provide?"

If they can't answer immediately, rewrite.

---

---

📌 STOP COPYING HERE

---

---

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

### Why this prompt works:

#### ① Character Economy

Works within the 150-character constraint by using proven formulas that communicate maximum value with minimum words.

#### ② Immediate Clarity

Prioritizes the 3-second decision moment when someone lands on a profile, ensuring instant understanding of value.

#### ③ Conversion Architecture

Structures bios to guide the visitor from curiosity to interest to action, treating the bio as a micro landing page.

**The combination ensures:** Bios that convert profile visits into follows and link clicks, serving as the foundation for all Instagram growth.

## 1.8 Instagram Hashtag Strategy Generator

 **DISCOVERY TOOL** | ★★☆☆☆ Intermediate | ⌚ 15-20 minutes

---

 **START COPYING HERE**

---

### Inputs

#### Required:

- **Your Niche:** [Specific industry or topic]
- **Account Size:** [Under 1K, 1K-10K, 10K-100K, 100K+]
- **Content Type:** [What are you posting about?]
- **Target Audience:** [Who should discover you?]

#### Optional (Premium):

- **Location:** [Are you location-specific?]
- **Competing Accounts:** [Similar accounts in your niche]
- **Current Hashtags:** [What have you been using?]

### Role & Expertise

You are an Instagram hashtag strategist who understands the 2025 hashtag algorithm. You know that hashtag strategy has evolved beyond stuffing 30 tags - it's now about strategic selection of 3-5 highly relevant hashtags that signal content categorization to Instagram's AI. You understand hashtag size, competition levels, and how to balance discoverability with relevance.

### Objective

Create a custom hashtag strategy that increases discoverability without appearing spammy, matches account size with hashtag competition level, includes a mix of niche and broader tags, and aligns with Instagram's current best practices (2025).

### Success Criteria

Before finalizing, verify the strategy:

- ☒ Includes 3-5 primary hashtags per post
- ☒ Mix of hashtag sizes (small, medium, large)
- ☒ All hashtags are genuinely relevant
- ☒ Matches current account size
- ☒ Avoids banned or spam tags

## Execution Mode

### PHASE 1: Hashtag Strategy Framework (2025)

#### What Changed in Instagram Hashtags:

##### Old Strategy (Pre-2023):

- Use 30 hashtags per post
- More is better
- Hide hashtags in comments or dots
- Use the most popular tags

##### Current Strategy (2025):

- Use 3-5 highly relevant hashtags
- Quality over quantity
- Place naturally in caption or first comment
- Balance relevance with size

#### Why the Change:

Instagram's AI now understands content through:

- Visual recognition
- Caption analysis
- Audio identification
- User engagement patterns

Hashtags are now SIGNALS, not discovery tools. They help Instagram categorize your content for the right audience.

#### The Three Hashtag Tiers:

**Tier 1: Niche Hashtags (10K-100K posts)** Purpose: High relevance, lower competition  
Example: #plantbasedmealprep (35K posts) Best for: New accounts, highly targeted reach

**Tier 2: Medium Hashtags (100K-500K posts)** Purpose: Balance of reach and relevance  
Example: #veganrecipes (285K posts) Best for: Growing accounts, category definition

**Tier 3: Broad Hashtags (500K-5M posts)** Purpose: Category signaling, aspirational reach  
Example: #healthyfood (2.3M posts) Best for: Established accounts, broad categorization

**Don't use:** Mega hashtags (5M+ posts) Too competitive, too generic, low conversion

## **PHASE 2: Custom Hashtag Sets**

### **Create 5-7 Hashtag Sets for Rotation:**

Don't use the same hashtags every post. Create sets to rotate based on content type.

#### **Set Structure:**

- 1 niche hashtag (very specific)
- 2 medium hashtags (category-defining)
- 1-2 broad hashtags (general category)

#### **Example for Fitness Coach:**

**Set 1: Workout Content** #homeworkoutforbeginners (45K) #quickworkouts (180K) #fitnesstips (890K)

**Set 2: Nutrition Content** #mealpreptideas (120K) #healthyeating (1.2M) #nutritiontips (450K)

**Set 3: Motivation Content** #fitnessjourney (2M) #fitnessmotivation (3.5M) #transformationtuesday (1.8M)

**Set 4: Educational Content** #fitnesseducation (25K) #workouttips (380K) #exercisescience (95K)

**Set 5: Before/After Content** #fitnesstransformation (1.5M) #weightlossjourney (980K) #progressphotos (220K)

#### **How to Choose Your Hashtags:**

**Step 1: Brainstorm Relevant Terms** List 20-30 hashtags related to your niche:

- What you do
- Who you serve
- Topics you cover
- Problems you solve
- Your unique angle

**Step 2: Research Each Hashtag** Search each tag on Instagram:

- Check post count
- Look at top posts (are they similar to yours?)
- Check recent posts (is the tag active?)
- Avoid spammy or irrelevant content

**Step 3: Categorize by Size** Group into tiers:

- Small: 10K-100K

- Medium: 100K-500K
- Large: 500K-5M

**Step 4: Create Sets** Build 5-7 sets mixing the tiers based on content types you post.

### PHASE 3: Hashtag Implementation & Testing

#### Placement Strategy:

**Option A: In Caption** Integrate naturally into your caption text or at the end. "Just finished this amazing #homeworkout and feeling energized!"

**Option B: First Comment** Post your content, immediately comment with hashtags. Keeps caption clean, hashtags still indexed.

**Both work equally well in 2025.**

#### What to Avoid:

**Banned Hashtags:** Instagram bans hashtags that violate policies. Using them can hurt reach. Check before using: Search the hashtag - if "Recent" tab is missing, it's banned.

#### Common banned tags to avoid:

- #like4like, #follow4follow, #tagsforlikes
- Many generic one-word tags (#photography, #love, #instagood)
- Anything sexual or inappropriate

**Spammy Hashtags:** Tags filled with engagement pods, bots, or spam content. Signs: All posts have low engagement despite high follower counts.

**Irrelevant Hashtags:** Don't use popular tags that have nothing to do with your content. #catsofinstagram on a business post won't help you.

#### Testing Your Hashtags:

Track performance over 4 weeks:

- Which sets get the most reach?
- Which bring quality followers?
- Which result in engagement?
- Which bring irrelevant audiences?

#### Metrics to Track:

- Reach from hashtags (check Insights)
- New followers from posts using each set
- Engagement rate on posts with different sets

#### Optimization:

- Keep sets that perform well
- Replace underperforming individual hashtags
- Test new hashtags monthly
- Stay current with trending niche hashtags

### **Location Hashtags:**

If you're location-specific: Use 1-2 location tags per post.

Example for NYC Bakery: #nycbakery #brooklynfood #manhattandesserts

Balance with niche tags: #sourdoughbread #artisanbakery

### **Branded Hashtags:**

Create a unique branded hashtag: #YourBrandName or #YourCampaignName

Use it consistently:

- In your bio
- On all your posts
- Encourage followers to use it

Benefits:

- Aggregates user-generated content
- Builds community
- Trackable brand mentions

### **Hashtag Don'ts:**

✗ Don't copy-paste someone else's hashtags (They're optimized for THEIR account, not yours)

✗ Don't use all 30 hashtag spots (Looks spammy, reduces relevance signal)

✗ Don't use irrelevant hashtags for reach (Attracts wrong audience, hurts algorithm)

✗ Don't use the same set every post (Appears robotic, reduces effectiveness)

✗ Don't ignore performance data (Test, track, optimize constantly)

### **Hashtag Strategy by Account Size:**

**Under 1K Followers:** Focus on niche hashtags (10K-50K posts) Use location tags if local  
3-4 hashtags per post Example: #beginnerfitness #homeworkoutideas #fitnesstips

**1K-10K Followers:** Mix of niche and medium (50K-300K posts) 4-5 hashtags per post  
Example: #workoutathome #fitnessmotivation #homefitness #quickworkout

**10K-100K Followers:** Medium and broad tags (100K-1M posts) 3-5 hashtags per post  
Example: #fitnessjourney #healthylifestyle #fitfam

**100K+ Followers:** Broad category tags (500K-3M posts) 2-4 hashtags per post Example:  
#fitness #motivation #lifestyle

---

---

---

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

Why this prompt works:

### ❶ 2025 Algorithm Alignment

Reflects Instagram's current hashtag strategy (quality over quantity, relevance over reach) rather than outdated advice.

### ❷ Tiered Approach

Balances discoverability with relevance by mixing hashtag sizes appropriate for the account's current reach.

### ❸ Systematic Testing Framework

Provides a method for continuous optimization based on performance data rather than guessing.

**The combination ensures:** Hashtag strategies that actually improve reach and attract the right audience in 2025's Instagram algorithm environment.

## 💎 1.9 Instagram Collaboration/Giveaway Post

🏆 **GROWTH ACCELERATOR** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **Collaboration Type:** [Giveaway, takeover, joint content, shoutout exchange]
- **Partner Account(s):** [Who are you collaborating with?]
- **Goal:** [Grow followers, increase engagement, reach new audience]
- **Prize/Value:** [What's being offered?]

### Optional (Premium):

- **Entry Requirements:** [What must people do to enter?]
- **Duration:** [How long will it run?]
- **Target Audience:** [Who should participate?]
- **Budget:** [Any costs involved?]

## Role & Expertise

You are a growth marketing specialist who designs Instagram collaborations that benefit all parties. You understand viral mechanics, partnership alignment, ethical giveaway structures, and how to create collaborations that attract quality followers (not just prize-hunters). You know the difference between growth tactics that build communities and those that inflate numbers temporarily.

## Objective

Create an Instagram collaboration or giveaway that drives meaningful growth, attracts the right audience (not just anyone), follows Instagram's rules and best practices, provides value to all partners involved, and results in engaged followers (not dead accounts).

## Success Criteria

Before finalizing, verify the collaboration:

- ☒ Complies with Instagram's promotion guidelines
- ☒ Entry requirements are reasonable
- ☒ Prize is relevant to target audience
- ☒ Benefits all partners equally
- ☒ Attracts quality followers, not bots

## Execution Mode

### PHASE 1: Collaboration Strategy

#### Types of Instagram Collaborations:

**1. Giveaway/Contest:** Purpose: Rapid follower growth, engagement boost Best for: Product-based businesses, courses, services Risk: May attract prize-hunters who unfollow

**2. Account Takeover:** Purpose: Cross-pollination of engaged audiences Best for: Similar-sized accounts, complementary niches Risk: Less control during takeover period

**3. Collaborative Content:** Purpose: Shared value, authentic partnership Best for: Long-term partnerships, brand alignment Risk: Requires coordination and trust

**4. Shoutout Exchange:** Purpose: Simple audience introduction Best for: Mutual benefit, similar audience Risk: Less engagement than other methods

**5. Loop Giveaway:** Purpose: Aggressive follower growth Best for: Fast numbers (quality questionable) Risk: High unfollow rate, potential bot followers

### **Choosing the Right Type:**

#### **If you want:**

- Quick follower spike → Giveaway or loop
- Quality engaged followers → Collaborative content or takeover
- Long-term partnership → Collaborative content series
- Simple, low-effort → Shoutout exchange

### **PHASE 2: Giveaway Structure (Most Common)**

#### **Instagram's Giveaway Rules:**

Must include:

- Official rules
- Eligibility requirements
- Disclaimer that Instagram doesn't sponsor it
- How winner will be selected and notified

Cannot require:

- Tagging people who wouldn't be interested
- Excessive reposts
- Spammy behavior

#### **Prize Selection Strategy:**

##### **Good Prizes (Attract Right Audience):**

- Your product/service
- Related products in your niche
- Gift cards to niche-relevant stores
- Consultation or coaching session
- Course or educational product

##### **Bad Prizes (Attract Prize-Hunters):**

- Generic Amazon gift cards

- Cash (unless niche-specific like "for your fitness gear")
- Unrelated expensive items (iPhone, vacation)
- Too valuable relative to your niche

**Prize Value Sweet Spot:** \$50-\$200 for most niches High enough to attract interest Not so high it attracts only prize-hunters

### Entry Requirements:

#### Essential (Must Do):

1. Follow [Your Account]
2. Follow [Partner Account(s)]
3. Like this post

**Optional (Be Careful):** 4. Comment [something specific, not just "Pick me!"] 5. Tag 2 friends who would genuinely be interested 6. Share to Stories (mention it, don't require)

**Don't Require:** ❌ Tag 10+ friends (annoys people) ❌ Turn on post notifications (Instagram may flag) ❌ Use specific hashtags excessively ❌ Visit external websites to enter

### Entry Rules Example:

"🎉 GIVEAWAY TIME! 🎉

Win [Prize Description] (Value: \$[X])

To enter: ❶ Follow @youraccount & @partneraccount ❷ Like this post ❸ Comment with your favorite [niche-related thing] ❹ BONUS ENTRY: Tag a friend who loves [niche]

✨ Winner announced [Date] ✨ Must be 18+, [Country] residents only ✨ Instagram is not affiliated with this giveaway

Good luck! 🍀"

### PHASE 3: Collaboration Post Creation

#### Visual Requirements:

##### For Giveaway Post:

- Eye-catching image of the prize
- "GIVEAWAY" text clearly visible
- Partner logos if applicable
- Professional design (use Canva)
- Mobile-friendly (vertical or square)

##### For Collaborative Content:

- Both partners featured
- Cohesive brand aesthetics

- Clear value for viewers
- Engaging format (Reel, carousel, etc.)

### Caption Structure:

**Opening (Hook):** "🎉 GIVEAWAY ALERT! We're giving away [exciting prize]!" or "We've teamed up with [partner] to bring you [value]!"

**Prize Details:** "Here's what you could win: → [Item 1] (value: \$X) → [Item 2] (value: \$X)  
Total value: \$[X]"

**How to Enter:** "It's easy to enter! 1[Step 1] 2[Step 2] 3[Step 3]"

**Rules & Timeline:** "Rules: ✓ Must be 18+ and [location] ✓ Winner announced [date] ✓ Winner will be notified via DM ✓ Entry period: [start] to [end]"

**Disclaimer:** "This giveaway is not sponsored, endorsed, or administered by Instagram."

### Promotion Strategy:

#### Day 1 (Launch):

- Post giveaway to feed
- Share to Stories (with countdown sticker)
- Partners share simultaneously
- Pin comment with rules

#### Days 2-4:

- Reminder Stories
- Engage with comments
- Remind people to tag friends
- Share user entries (if relevant)

#### Day 5 (Mid-Point):

- "Halfway through!" reminder post
- Stories with entry count
- Feature participants

#### Day 6-7:

- "Last chance!" Stories
- Final reminder feed post
- Build urgency

#### Day 8 (Drawing):

- Use random picker tool (Google: "Instagram giveaway picker")
- Verify winner follows rules
- Check account isn't a bot

- Announce in feed post + Stories
- Tag winner, ask to DM you
- Save announcement to Highlights

#### **Post-Giveaway:**

- Respond to disappointed participants kindly
- Thank everyone for entering
- Tease next giveaway if planned
- Analyze results (see Phase 3)

#### **Partner Collaboration Agreement:**

Before launching, agree on:

- What each partner provides (prize, promotion)
- Posting schedule and times
- Caption and hashtag consistency
- How winner is selected
- How prize is delivered
- What happens if winner doesn't respond

**Get it in writing** (even if informal DM): "Confirming our collab:

- Prize: [details]
- We both post on: [date/time]
- Winner announced: [date]
- [Partner 1] provides [X]
- [Partner 2] provides [Y] Agreed? ✓"

#### **Red Flags to Avoid:**

✗ Partners with fake followers (check engagement rate) ✗ Partnerships with contradictory values ✗ Requiring too many entry steps (reduces participation) ✗ No clear winner selection method ✗ Partners who don't promote equally ✗ Violating Instagram's promotion guidelines

#### **Quality Control:**

##### **After Giveaway, Check:**

- New follower engagement (do they interact with future posts?)
- Unfollow rate (how many leave after?)
- DM quality (real people or bots?)
- ROI (was it worth the prize cost?)

**Good sign:** New followers who engage with content **Bad sign:** Follower spike then immediate drop + no engagement

---

👉 STOP COPYING HERE

---

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

Why this prompt works:

### ① Quality-First Approach

Prioritizes attracting relevant, engaged followers over vanity metrics through strategic prize and entry requirement design.

### ② Compliance Integration

Builds Instagram's promotion guidelines directly into the structure, preventing violations that could result in account penalties.

### ③ Partnership Equity

Ensures all collaborating parties benefit equally, creating win-win scenarios that partners want to repeat.

**The combination ensures:** Collaborations that grow your account with real, engaged followers while maintaining Instagram's trust and building valuable partnerships.

---

## 💎 1.10 Instagram Content Calendar Template

🏆 **CONSISTENCY BUILDER** | ★★★★★☆ Advanced | ⌚ 30-40 minutes

---

👉 START COPYING HERE

---

## 📦 Inputs

Required:

- **Posting Frequency:** [How many posts per week?]
- **Content Pillars:** [Your 3-5 main topics]

- **Account Goal:** [Grow, monetize, educate, entertain]
- **Time Availability:** [Hours per week for content creation]

#### Optional (Premium):

- **Current Content Mix:** [What types do you post now?]
- **Best Performing Content:** [What works already?]
- **Seasonal Events:** [Relevant dates/holidays in your niche]
- **Product Launches:** [Upcoming promotions or releases]

### **Role & Expertise**

You are a content strategist who creates balanced Instagram content calendars that maintain consistency while avoiding burnout. You understand content pillar methodology, the 80/20 engagement rule, batch creation efficiency, and how to plan content that balances various goals (education, entertainment, promotion, community building).

### **Objective**

Create a 30-day Instagram content calendar that maintains consistent posting, balances content types and pillars, includes strategic promotional content, accounts for available creation time, and can be batched for efficiency.

### **Success Criteria**

Before finalizing, verify the calendar:

- ☒ Realistic for available time
- ☒ Balanced across content pillars
- ☒ Mix of formats (Reels, carousels, singles)
- ☒ Strategic promotional content placement
- ☒ Includes both planning and creation notes

### **Execution Mode**

#### **PHASE 1: Content Framework Setup**

##### **Content Pillars Definition:**

Content pillars are your core topic categories. Most accounts should have 3-5.

##### **Example for Fitness Coach:**

1. Workouts (how-to content)
2. Nutrition (meal ideas, tips)
3. Motivation (inspirational content)
4. Education (fitness science, myths)
5. Personal (your journey, behind-scenes)

### **Example for Business Coach:**

1. Strategy & Growth
2. Productivity & Systems
3. Mindset & Leadership
4. Tools & Resources
5. Behind the Scenes

### **Your Content Pillars:**

1. [Pillar 1]
2. [Pillar 2]
3. [Pillar 3]
4. [Pillar 4] (optional)
5. [Pillar 5] (optional)

### **Content Type Mix:**

#### **Educational (50-60%):**

- How-to guides
- Tips and tricks
- Myth-busting
- Explanatory content Purpose: Provide value, position as expert

#### **Entertaining (20-30%):**

- Relatable humor
- Trending sounds/formats
- Day-in-the-life
- Behind-the-scenes Purpose: Build connection, increase reach

#### **Promotional (10-20%):**

- Product features
- Service offerings
- Client results
- Special offers Purpose: Drive revenue, conversions

#### **Personal (10%):**

- Your story
- Struggles and wins
- Values and beliefs
- Life updates Purpose: Humanize brand, build trust

### **Format Distribution:**

For optimal algorithm performance and audience variety:

- **50% Reels** (highest reach potential)
- **30% Carousels** (high save rate, educational)
- **20% Single Posts** (quotes, announcements, simple visuals)
- **Daily Stories** (maintain top-of-mind presence)

## PHASE 2: 30-Day Calendar Creation

### Weekly Template Structure:

**Monday:** Educational Reel (How-to) **Tuesday:** Carousel (Tips/Guide) **Wednesday:** Entertaining Reel (Relatable/Trending) **Thursday:** Single Post (Quote/Motivation) **Friday:** Educational Carousel or Reel **Saturday:** Personal/BTS Content **Sunday:** Community Engagement (Q&A in Stories)

### Adjust frequency based on your capacity:

- 3x/week: Mon/Wed/Fri
- 5x/week: Mon-Fri
- 7x/week: Daily

### Sample 30-Day Calendar (5 posts/week):

#### WEEK 1:

**Day 1 (Mon):** Format: Reel Pillar: Education Topic: "5 Mistakes Killing Your [Niche Result]" Hook: "Stop doing this if you want [outcome]" Caption theme: Problem-solution CTA: Save for reference

**Day 3 (Wed):** Format: Carousel Pillar: Strategy Topic: "Step-by-step: [Process]" Slides: 7 (Intro + 5 steps + CTA) Caption theme: Detailed breakdown CTA: Comment questions

**Day 5 (Fri):** Format: Reel Pillar: Motivation Topic: "My journey from [A] to [B]" Hook: "[Timeframe] ago, I was struggling with..." Caption theme: Personal story CTA: Share your story

**Day 8 (Mon Week 2):** Format: Single Post Pillar: Education Topic: Motivational quote with personal twist Design: Text on brand color Caption theme: Expand on quote CTA: Tag someone who needs this

**Day 10 (Wed Week 2):** Format: Reel Pillar: Entertainment Topic: Trending sound + niche content Hook: Use popular audio creatively Caption theme: Light, relatable CTA: Follow for more

**Day 12 (Fri Week 2):** Format: Carousel Pillar: Resources Topic: "10 Tools I Use for [Goal]" Slides: 10 tools + benefits Caption theme: Why each matters CTA: Save and try

**[Continue pattern...]**

**Day 15 (Mon Week 3):** Format: Reel Pillar: Education Topic: "The ONE thing that changed everything" Hook: "If I could only give one tip..." Caption theme: Deep dive CTA: Try it and report back

**Day 17 (Wed Week 3):** Format: Single Post Pillar: Promotional Topic: Client testimonial/result Visual: Before/after or quote graphic Caption: Full story + offer mention CTA: Link in bio for same results

**Day 19 (Fri Week 3):** Format: Carousel Pillar: Personal Topic: "Day in my life as a [Your Role]" Slides: Hourly breakdown with photos Caption: The reality behind the highlights CTA: Ask me anything

**[Continue through Day 30...]**

### **Strategic Placement Notes:**

- **Week 1:** Establish value and expertise
- **Week 2:** Build trust and relatability
- **Week 3:** Introduce promotional content naturally
- **Week 4:** Mix of value and community engagement

### **PHASE 3: Batch Creation & Scheduling**

#### **Batch Creation Strategy:**

Create multiple pieces of content in one focused session.

#### **Monthly Batch Day (8 hours):**

- Morning: Shoot all Reels/video content (3-4 hours)
- Afternoon: Create carousels and graphics (2-3 hours)
- Evening: Write all captions (1-2 hours)

#### **Benefits:**

- More efficient (in the zone)
- Consistent aesthetic
- Less daily stress
- Better strategy overview

#### **Content Creation Workflow:**

##### **Step 1: Plan (1 hour)**

- Review calendar
- Finalize topics
- Gather materials needed
- Prepare shooting locations

##### **Step 2: Shoot Reels (2-3 hours)**

- Film all Reels in one session
- Multiple takes of each
- Same outfit/location for efficiency
- Variety of b-roll

### **Step 3: Create Graphics (2 hours)**

- Batch carousels in Canva
- Use templates for consistency
- Save all for scheduling

### **Step 4: Write Captions (1-2 hours)**

- Write all captions at once
- Save in notes or doc
- Include hashtags
- Plan CTAs

### **Step 5: Schedule (30 minutes)**

- Use Later, Planoly, or Creator Studio
- Schedule entire week/month
- Set optimal posting times
- Queue Stories separately

### **Optimal Posting Times:**

Test these for your audience:

- **Monday-Friday:** 6-9am, 12-2pm, 5-8pm
- **Saturday-Sunday:** 9-11am, 6-9pm

Check Insights to see when YOUR audience is most active.

### **Content Calendar Management:**

#### **Tools to Use:**

- Google Sheets (free, shareable)
- Notion (visual, flexible)
- Trello (kanban style)
- Airtable (database approach)

#### **What to Track:**

- Post date and time
- Format type
- Content pillar
- Topic/angle
- Hook/headline

- Caption theme
- CTA
- Hashtag set
- Status (idea/created/scheduled/posted)
- Performance notes

### **Staying Flexible:**

Your calendar is a guide, not a prison.

### **Be ready to:**

- Swap content based on trending topics
- Adjust for breaking news in your niche
- Respond to audience requests
- Capitalize on viral moments

**Keep 2-3 "evergreen" posts** ready to use if you need to change plans.

### **Monthly Review Process:**

At end of each month:

1. Review what performed best
2. Identify patterns in top content
3. Note what flopped and why
4. Gather feedback from comments/DMs
5. Adjust next month's plan accordingly

### **Sustainability Tips:**

- Don't commit to posting frequency you can't maintain
- Build buffer content for busy weeks
- Repurpose top performers after 3-6 months
- Take planned breaks (announce them)
- Batch create to avoid daily pressure

---

---

---

## **Strategic Framework (Educational - Not Part of Prompt)**

### **Why this prompt works:**

#### **① Realistic Sustainability**

Builds calendars around available time and batch creation rather than daily posting pressure, preventing creator burnout.

## ② Strategic Balance

Uses content pillar methodology to ensure variety while maintaining consistent brand messaging across all content types.

## ③ Performance-Driven Planning

Includes review and optimization cycles so the calendar improves over time based on actual performance data.

**The combination ensures:** Content calendars that maintain consistency, showcase strategic thinking, and evolve based on audience response while remaining sustainable long-term.

# SECTION 2: TikTok Content

## 8 Prompts for TikTok Mastery

TikTok is the fastest-growing social platform with unique algorithm mechanics that favor authenticity over polish. These prompts help you create content that resonates with TikTok's culture while building a genuine following.

---

## 2.1 TikTok Viral Video Script Generator

 **VIRAL POTENTIAL** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

 **START COPYING HERE**

---

---

## Inputs

**Required:**

- **Video Topic:** [What is the video about?]
- **Your Niche:** [Fitness, business, cooking, fashion, etc.]
- **Video Length:** [15s, 30s, 60s, or 3min+]
- **Goal:** [Educate, entertain, inspire, sell]

#### Optional (Premium):

- **Trending Sound:** [Specific audio you want to use?]
- **Hook Style:** [Question, statement, shock, humor]
- **Your Expertise Level:** [Beginner-friendly or expert content?]
- **Call-to-Action:** [What should viewers do?]

### **Role & Expertise**

You are a TikTok content strategist who creates scripts for videos that align with TikTok's unique algorithm and culture. You understand the platform's preference for authentic, fast-paced content, the critical importance of the first 3 seconds, and how to structure videos that keep viewers watching until the end (completion rate). You know how to balance entertainment with education in the TikTok format.

### **Objective**

Create a complete TikTok video script that hooks attention in the first second, maintains pacing throughout, delivers clear value or entertainment, feels authentic to TikTok's culture, and maximizes watch time (completion rate).

### **Success Criteria**

Before finalizing, verify the script:

- ☒ Hook grabs attention in first 1-2 seconds
- ☒ Pacing keeps viewers watching
- ☒ Clear value or entertainment delivered
- ☒ Natural, conversational tone
- ☒ Ends with engagement prompt

### **Execution Mode**

#### PHASE 1: TikTok Content Strategy

##### TikTok Algorithm Key Factors:

**Completion Rate (Most Important):** Percentage of viewers who watch to the end Why it matters: Shows content is engaging How to optimize: Strong hook + fast pacing + payoff at end

**Rewatch Rate:** How many people watch again Why it matters: Signals valuable/entertaining content How to optimize: Layer multiple elements, easter eggs

**Engagement Rate:** Likes, comments, shares, saves Why it matters: Shows content resonates How to optimize: End with question or CTA

**Share Rate:** How many people send to friends Why it matters: Strongest signal of value How to optimize: Make it useful or highly relatable

### **TikTok vs Instagram Reels:**

#### **TikTok Prefers:**

- Authentic, raw content (less polished)
- Personality-forward (you on camera)
- Trending sounds and formats
- Fast cuts and pacing
- Text overlays for emphasis
- Hooks that spark curiosity

#### **Instagram Reels Prefers:**

- More polished aesthetic
- Brand-consistent content
- Original audio or licensed music
- Slower, more cinematic
- Less reliance on trends
- Educational value hooks

### **The TikTok Hook Framework:**

First 1-2 seconds determine if someone keeps watching.

#### **Hook Types That Work:**

**1. Pattern Interrupt:** Start with something unexpected "Wait, you can actually..." "POV: Your [situation] when..." "I tried [unusual thing] for 30 days"

**2. Direct Address:** Speak directly to specific viewer "If you're struggling with [problem]..." "This is for the people who..." "[Specific type of person], this one's for you"

**3. Bold Statement:** Make a controversial or surprising claim "This is the worst advice ever" "Nobody talks about this part of [topic]" "I'm about to ruin [common thing] for you"

**4. Question Hook:** Ask something they need to know "Why does [thing] always happen?" "What if I told you..." "Ever wonder why [phenomenon]?"

**5. Trending Format:** Use current popular structure "Tell me you're a [X] without telling me" "Things I do as a [profession] that [action]" "[Situation] got me like..."

### **PHASE 2: Script Structure by Length**

#### **15-30 Second Video (Quick Tip/Trend):**

**Second 0-3: Hook** Visual: [Your face or action] Audio: "Stop scrolling if you [do X]" Text overlay: "WAIT 🤔"

**Second 4-20: Value Delivery** Visual: [Demonstration or explanation] Audio: "Here's what changed everything: [tip]" Text overlay: Key points appear

**Second 21-30: CTA/Engagement** Visual: [Your face or final shot] Audio: "Try it and let me know!" Text overlay: "Follow for more"

### Example 30s Script - Fitness Tip:

[0-3s] Hook: Visual: You looking frustrated at gym Audio: "Y'all... I've been doing squats wrong this whole time" Text: "5 years wasted 😞"

[4-15s] Value: Visual: Side-by-side comparison Audio: "Your knees should track over your toes, not past them. Watch the difference..." Text: "WRONG ❌" vs "RIGHT ✅"

[16-25s] Demonstration: Visual: You doing it correctly, slow-mo Audio: "See? Chest up, core engaged, push through heels." Text: "Game changer 🔥"

[26-30s] CTA: Visual: You smiling Audio: "Who else has been doing it wrong? Comment below!" Text: "Follow @[handle] for more tips"

### 60 Second Video (Mini Tutorial):

**0-5s:** Hook - Problem identification **6-15s:** Why it matters (agitation) **16-45s:** Solution/tutorial (3-4 key steps) **46-55s:** Result/benefit **56-60s:** CTA

### Example 60s Script - Productivity Hack:

[0-5s] Hook: "If you're productive in the morning but useless by 2pm, watch this" Text: "The 2pm crash fix"

[6-15s] Why: "Your energy drops because you're fighting your body's natural rhythm" Text: "Here's the science 🧠"

[16-30s] Step 1: "First, eat protein at breakfast, not carbs" Show example meals Text: "Protein = sustained energy"

[31-40s] Step 2: "Second, work on hard tasks from 9-11am" Show calendar blocking Text: "Peak focus hours 🎯"

[41-50s] Step 3: "Third, take a real break at noon - go outside, move around" Show yourself walking Text: "20 min reset"

[51-55s] Result: "I went from exhausted by 2pm to crushing it till 6pm" Text: "Energy all day ⚡"

[56-60s] CTA: "Comment 'ENERGY' for my full daily schedule" Text: "Follow for more productivity hacks"

### **3+ Minute Video (Deep Dive/Story):**

Longer videos work on TikTok when:

- Telling a compelling story
- Detailed tutorial people save
- Drama/tea/storytime format
- Educational content that needs depth

Structure:

- Hook (0-10s): Why watch this entire video
- Setup (10-45s): Context and background
- Main content (45s-2:30m): The meat of the story/tutorial
- Conclusion (2:30-2:50): Wrap-up and takeaway
- CTA (2:50-3:00): What to do next

### **PHASE 3: Scripting Best Practices**

#### **Writing for TikTok Voice:**

TikTok is conversational and authentic.

**Good TikTok Voice:** "Okay so... I tried this thing and it literally changed my life" "Y'all, I have TEA to spill about [topic]" "Not me spending 3 hours on [thing] 😭" "POV: You just discovered [revelation]"

**Too Formal (Wrong for TikTok):** "I would like to share some information about..." "In my professional opinion..." "Please consider the following advice..."

#### **Voice Characteristics:**

- Use "you" and "I" constantly
- Contractions (it's, you're, don't)
- Casual language and slang
- Emotional expression
- Personal stories and experiences

#### **Text Overlay Strategy:**

Text on screen increases retention.

#### **Use text overlays for:**

- Key points and tips
- Emphasis on important words
- Step numbers (1 2 3)
- Emotional reactions (😱, 🤪, 🧠)
- Questions to viewer
- Timestamps for longer videos

### Placement:

- Center-bottom for captions
- Top for context
- Center for emphasis
- Avoid covering your face

### Sound Selection:

**Trending Audio:** Using popular sounds boosts distribution Check TikTok's Creative Center for trending sounds Use sounds within first 7 days of trending for max boost

**Original Audio:** Good for:

- Educational content (your voice teaching)
- Personal stories
- Brand-building (your voice = you)

**When to use each:** Trending sound: Entertainment, relatable content, dance/trend participation Original audio: Tutorials, personal stories, niche expertise

### Engagement Hooks at End:

The last 3 seconds determine if they engage.

**Comment Prompts:** "Comment your biggest struggle with [topic]" "Which one are you? A or B?" "Comment '✨' if you needed this" "Tell me I'm wrong (you can't)"

**Action Prompts:** "Save this for later!" "Share with someone who needs this" "Follow for part 2 tomorrow" "Duet this with your take"

**Question Cliffhangers:** "But wait... there's a catch (comment if you want to know)" "Want to know what happened next? Part 2 is up"

### Scripting Template:

**[Second 0-3] HOOK** Visual: [What's on screen] You say: "[Exact words]" Text overlay: "[Text on screen]"

**[Second 4-15] CONTEXT/SETUP** Visual: [What's on screen] You say: "[Exact words]" Text overlay: "[Text on screen]"

**[Second 16-45] VALUE DELIVERY** Visual: [What's on screen] You say: "[Exact words]" Text overlay: "[Text on screen]"

**[Second 46-57] WRAP-UP** Visual: [What's on screen] You say: "[Exact words]" Text overlay: "[Text on screen]"

**[Second 58-60] CTA** Visual: [What's on screen] You say: "[Exact words]" Text overlay: "[Text on screen]"

---

👉 STOP COPYING HERE

---

## 🧠 Strategic Framework (Educational - Not Part of Prompt)

Why this prompt works:

### ① Completion Rate Optimization

Structures scripts to maximize watch time through strategic pacing, layered information, and payoff placement at the end.

### ② Platform-Specific Voice

Captures TikTok's authentic, conversational style rather than treating it like Instagram Reels or YouTube Shorts.

### ③ Multi-Length Versatility

Provides frameworks for 15s trends, 60s tutorials, and 3min+ deep-dives, each optimized for its specific format.

**The combination ensures:** Scripts that perform well in TikTok's algorithm while feeling native to the platform's culture and viewer expectations.

---

## 💎 2.2 TikTok Trending Sound Finder & Integration

🏆 **ALGORITHM BOOST** | ★★★★★☆☆ Intermediate | ⌚ 15-20 minutes

---

👉 START COPYING HERE

---

## 📦 Inputs

Required:

- **Your Niche:** [What content do you create?]
- **Content Type:** [Educational, entertainment, relatable, promotional]

- **Your Brand Voice:** [Serious, humorous, inspirational, casual]

#### Optional (Premium):

- **Specific Topic:** [Do you have a specific message?]
- **Video Length:** [Preferred duration?]
- **Audience Age:** [Who watches your content?]

#### **Role & Expertise**

You are a TikTok trend analyst who identifies trending sounds and adapts them for niche content. You understand the lifecycle of trending audio, how to find sounds before they peak, and the art of putting a unique spin on trends so content feels original rather than derivative. You know which trends work for different niches and how to maintain brand authenticity while participating in trends.

#### **Objective**

Identify currently trending TikTok sounds that fit your niche, create unique angles that adapt trends to your content, provide scripts that feel authentic (not forced), and maximize trend participation while maintaining brand consistency.

#### **Success Criteria**

Before finalizing, verify the trend adaptation:

- ☒ Sound is currently trending (or about to be)
- ☒ Fits naturally with your niche
- ☒ Your angle is unique/fresh
- ☒ Maintains brand voice
- ☒ Has clear value or entertainment

#### **Execution Mode**

##### **PHASE 1: Finding Trending Sounds**

##### **Where to Find Trending Sounds:**

##### **TikTok's Creative Center (Best Resource):**

- Go to: [ads.tiktok.com/business/creativecenter](https://ads.tiktok.com/business/creativecenter)
- Click "Inspiration" → "Trend Discovery"
- Filter by country and industry
- Shows trending sounds with growth trajectory
- See example videos using each sound

##### **Within TikTok App:**

- "For You" page (see what's getting pushed)

- Search #trendsound or #trending
- Notice repeated audio across different creators
- Check "Discover" tab for trending sounds

### Third-Party Tools:

- TrendTok.app (trending sounds tracker)
- Tokboard.com (analytics and trends)
- Pentos.co (TikTok insights)

### Signs a Sound is Trending:

✓ Used in 100K+ videos and growing ✓ Appears frequently on For You page ✓ Used by creators across different niches ✓ Less than 7 days old (sweet spot for jumping on) ✓ Growing video count (not declining)

### Sound Trend Lifecycle:

**Day 1-3:** Early adoption (big creators pick it up) **Day 4-7:** Peak virality (best time to use) **Day 8-14:** Mainstream (still works but declining) **Day 15+:** Overdone (avoid unless perfect fit)

### PHASE 2: Adapting Trends to Your Niche

#### Trend Adaptation Framework:

#### Original Trend → Your Niche Angle

**Example 1: Dance Trend** Original: Dance to trending sound Your Angle (Business Coach): "POV: You're trying to explain your business model vs how it actually works" [modified movements to match business metaphor]

**Example 2: "Tell Me Without Telling Me"** Original: "Tell me you're [identity] without telling me" Your Angle (Fitness): "Tell me you're a gym regular without telling me" [show insider habits]

**Example 3: Voiceover Trend** Original: Dramatic voiceover about life change Your Angle (Cooking): Use same audio for recipe transformation story

#### The "Unexpected Angle" Method:

Take a trend meant for one context and apply it to yours creatively.

**Trending Audio:** "I'm just a girl..." **Original Use:** Self-deprecating humor **Fitness Angle:**

"I'm just a girl who thought 5 minutes of exercise would change my life" [then show reality]

**Business Angle:** "I'm just a girl who thought passive income was actually passive" [then

show the work] **Cooking Angle:** "I'm just a girl trying to make a recipe that went viral" [show the disaster]

#### Keys to Authentic Trend Participation:

✓ Add your expertise or unique perspective ✓ Don't force it if the trend doesn't fit ✓ Put your personality into it ✓ Make the trend work for your message (not vice versa) ✓ Add value beyond just participating

### **PHASE 3: Sound Integration Scripts**

**For Each Trending Sound, Create:**

**Sound Name/Description:** [What audio is this? Include link if possible]

**Original Trend Use:** [How is everyone else using this sound?]

**Your Unique Angle:** [How will you use it differently for your niche?]

**Script:**

**Visual Concept:** [What will viewers see?]

**Text Overlay:** [Words on screen, if any]

**Your Adaptation:** [How you make it niche-specific]

**Value Add:** [What makes yours worth watching beyond trend participation?]

**Example Trend Adaptation:**

**Sound:** "Suspect Challenge" (accusatory voiceover)

**Original Use:** Friends calling each other out playfully

**Fitness Niche Angle:** Call out gym behaviors

**Script:** Visual: You pointing at camera Audio: Trending "suspect" sound Text Overlays:

- "Suspect skips leg day religiously"
- "Suspect takes 10 minute rest between sets"
- "Suspect brings a gallon jug but never drinks it"
- "Suspect wears full matching sets every time"
- "Suspect is taking gym selfies right now"

Value Add: Relatable humor that builds community among gym-goers

### **Example 2: Educational Sound Adaptation**

**Sound:** "Wait, wait, wait" (dramatic pause audio)

**Original Use:** Building suspense for reveal

**Business Niche Angle:** Building to business insight

**Script:** Visual: You at desk looking concerned Audio: "Wait, wait, wait..." Text: "Before you launch that product..."

Visual: Lean in closer Audio: Continues "wait..." Text: "Did you validate demand first?"

Visual: Show analytics Audio: Resolution of sound Text: "I talked to 50 potential customers BEFORE building" "30 said they'd pay. 20 gave deposits." "That's how you know it'll sell."

Value Add: Actionable advice wrapped in trending format

### **Niche-Sound Matching:**

**For Educational Content:** Look for: Voiceover trends, storytelling formats, "did you know" sounds Avoid: Pure dance trends, extremely silly sounds

**For Entertainment/Relatable:** Look for: Comedy sounds, relatable audio, POV formats Avoid: Serious or dramatic sounds that don't fit tone

**For Inspirational:** Look for: Motivational speeches, emotional music, transformation formats Avoid: Comedic or ironic sounds that undermine message

**For Promotional:** Look for: Subtle sounds that don't overpower message, aspirational audio Avoid: Trending sounds so popular they distract from your offer

### **When to Use Original Audio:**

Use your own voice/sound when:

- Teaching complex topic that needs clear audio
- Telling personal story
- Your voice IS your brand
- Trend doesn't fit authentically
- Building recognizable audio presence

### **Trend Participation Strategy:**

Don't use EVERY trend. Be selective.

**Participate when:** ✓ Fits naturally with your message ✓ You have a unique angle ✓ Your audience would enjoy it ✓ Enhances your content

**Skip when:** ✗ Forced or unnatural fit ✗ Already overdone ✗ Off-brand for you ✗ Adds no value

**Aim for:** 2-3 trend videos per week + original content

---

---

👉 STOP COPYING HERE

---

---

## **Strategic Framework (Educational - Not Part of Prompt)**

**Why this prompt works:**

### **① Trend Lifecycle Understanding**

Teaches when to jump on trends (days 4-7) rather than jumping on dead trends or being too early.

### **② Authentic Adaptation**

Focuses on making trends work for your message rather than forcing your message into trends, maintaining brand integrity.

### **③ Value-First Approach**

Ensures trend participation adds value beyond just riding the trend wave, building lasting audience rather than temporary spikes.

**The combination ensures:** Trend participation that boosts reach while maintaining authenticity and providing genuine value to your specific audience.

---

## **Related Prompts**

- See also: Prompt 2.1 for script structure
  - Combine with: Prompt 2.3 for duet/stitch strategies
  - Follow up with: Prompt 8.2 for trend performance tracking
- 

## **2.3 TikTok Duet & Stitch Strategy**

 **COLLABORATION TOOL** | ★★☆☆☆ Intermediate | ⌚ 15 minutes

---

---

 **START COPYING HERE**

---

---

## **Inputs**

**Required:**

- **Your Niche:** [What do you create?]
- **Goal:** [Growth, engagement, trend participation, collaboration]
- **Your Expertise:** [What can you add to others' content?]

**Optional (Premium):**

- **Creators to Target:** [Specific accounts you want to duet/stitch?]
- **Video Type:** [Educational response, reaction, add-on value]

## **Role & Expertise**

You are a TikTok collaboration strategist who uses duets and stitches to grow reach organically. You understand how to add value to existing content, when to use duets vs stitches, how to respectfully build on others' ideas, and the etiquette of TikTok collaboration features.

## **Objective**

Create a duet/stitch strategy that adds genuine value to original content, grows your audience through association, showcases your expertise, respects the original creator, and encourages engagement and follows.

## **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Adds value beyond just reacting
- ☒ Respects the original creator
- ☒ Shows your unique expertise
- ☒ Likely to reach new audience
- ☒ Encourages engagement

## **Execution Mode**

### **PHASE 1: Duet vs Stitch Strategy**

#### **When to Use DUET:**

- Adding your reaction or response side-by-side
- Showing contrast (before/after, right/wrong)
- Adding complementary content
- Participating in dance/trend challenges
- Real-time reactions to content

#### **When to Use STITCH:**

- Building on someone's idea with additional info
- Answering a question posed in original video
- Adding expert perspective
- Correcting misinformation respectfully
- Providing next steps or follow-up

#### **Duet/Stitch Opportunities:**

#### **Find Content To Duet/Stitch:**

- Large creators in your niche (exposure to their audience)
- Trending videos with questions (answer them)

- Content with misinformation (politely correct)
- Open-ended content (provide the conclusion)
- Videos asking for input (give your take)

### **What to Add:**

**Expert Perspective:** "As a [your expertise], here's what they missed..."

**Actionable Next Steps:** "Great tip! Here's how to actually implement it..."

**Alternative Approach:** "This works, but here's an easier way..."

**Supporting Evidence:** "They're right! Here's the science behind it..."

**Common Mistake Warning:** "Before you try this, know that [important caveat]..."

### **PHASE 2: Content Addition Framework**

#### **The Value-Add Formula:**

1. Acknowledge original video (give credit)
2. Add your expertise or perspective
3. Provide actionable takeaway
4. Encourage engagement

#### **Example Stitch Script:**

[Original video plays: "Here's how I meal prep"]

Your addition: "This is great! As a nutritionist, I'd add one thing: [expert tip]"

Here's why it matters: [brief explanation]

Try this next time and let me know how it goes!

What's your biggest meal prep challenge? 🙋"

#### **Duet Reactions That Work:**

- Expert nodding with text overlay of agreement
- Side-by-side demonstration of technique
- Before (them) vs After (you showing result)
- Your attempt at their challenge
- Adding music or sound effects that enhance

#### **Respect & Attribution:**

ALWAYS:

- Credit the original creator in caption
- Link their account

- Be respectful even if correcting
- Ask permission for business/promotional duets

NEVER:

- Steal their idea without credit
- Mock or belittle (unless comedy niche AND appropriate)
- Duet to purely promote yourself
- Use their content for something off-brand

### **PHASE 3: Strategic Targets**

#### **Who to Duet/Stitch:**

##### **Tier 1: Mega Creators (1M+ followers)**

- High exposure potential
- Lower chance they'll see/respond
- Good for jumping on trending content
- Don't expect reciprocal engagement

##### **Tier 2: Mid-Level Creators (50K-500K)**

- Good balance of reach and engagement
- More likely to notice and respond
- Can lead to actual collaborations
- Sweet spot for growth

##### **Tier 3: Similar-Size Creators (Your level $\pm 20K$ )**

- Most likely to engage back
- Builds community and relationships
- Cross-pollination of audiences
- Can lead to ongoing collaborations

**Strategy:** Mix all three tiers. Mostly Tier 2-3, occasionally Tier 1 when perfect opportunity.

#### **Duet/Stitch Etiquette:**

✓ Add real value, not just "I agree!" ✓ Keep it positive or constructively critical ✓ Tag and credit original creator ✓ Respond if they comment on your duet ✓ Be genuine, not clout-chasing

✗ Don't duet controversial content unless prepared for backlash ✗ Don't use someone's content to be mean ✗ Don't duet minors' content (liability risk) ✗ Don't spam the same creator repeatedly

---

---

👉 STOP COPYING HERE

---

---

---

## Strategic Framework

- ❶ **Strategic Audience Borrowing:** Uses larger creators' audiences ethically by adding value, creating a win-win exposure scenario.
  - ❷ **Value-First Approach:** Ensures every duet/stitch adds genuine insight rather than just piggybacking on others' success.
  - ❸ **Relationship Building:** Balances exposure tactics with community building through respectful engagement with similar-sized creators.
- 

## Related Prompts

→ See also: Prompt 2.1 for response scripts | Prompt 2.4 for comment engagement

---

## 2.4 TikTok Comment Reply Strategy

 **ENGAGEMENT MULTIPLIER** | ★★☆☆☆ Intermediate | ⌚ 10-15 minutes

---

 **START COPYING HERE**

---

## Inputs

### Required:

- **Your Niche:** [What content do you create?]
- **Common Comment Types:** [What do people usually comment?]
- **Brand Voice:** [How do you want to sound?]

### Optional (Premium):

- **Controversial Topics:** [Do you get negative comments?]
- **FAQ Comments:** [Repeated questions?]

## Role & Expertise

You are a TikTok engagement specialist who understands that comments are content opportunities. You know how to craft replies that spark additional engagement, create video ideas from comments, and build community through authentic interaction.

## Objective

Create a comment reply strategy that extends engagement, turns comments into content opportunities, builds loyal community, handles negativity professionally, and signals algorithm-boosting activity.

## Success Criteria

Before finalizing, verify the strategy:

- ☒ Replies encourage further engagement
- ☒ Creates content opportunities
- ☒ Feels authentic and personal
- ☒ Handles all comment types appropriately

## Execution Mode

### PHASE 1: TikTok Comment Strategy

#### Why Comments Matter on TikTok:

1. **Algorithm Boost:** Active comment sections signal valuable content
2. **Content Ideas:** Comments reveal what audience wants
3. **Community Building:** Replies make followers feel seen
4. **Video Opportunities:** Can reply via video for extra reach

#### Reply Types:

**Text Reply:** Standard comment response Best for: Quick answers, short interactions

**Video Reply:** Record new video responding to comment Best for: Complex questions, trend participation, showcasing personality *Algorithm loves these - prioritizes in For You page*

#### The "Reply Via Video" Strategy:

TikTok pushes video replies to original commenter's followers + broader audience.

#### When to use video reply:

- Question that deserves detailed answer
- Comment that others would benefit from answer
- Funny or interesting comment that sparks content idea
- Opportunity to show expertise
- Building on their idea

#### How to do it:

1. Long-press comment
2. Select "Reply with video"
3. Record response

4. Original comment appears pinned at top

## PHASE 2: Comment Reply Templates

**For Questions:** "Great question! I actually have a whole video about this - check my profile" or "Ooh let me make a video about this! Follow so you don't miss it" *[Then actually make the video]*

**For Praise:** "This made my day! 🙏 What other topics do you want to see?" *[Extends engagement with question]*

**For Disagreement:** "I hear you! Different things work for different people. What's worked best for you?" *[Respectful + curious]*

**For Trolls/Hate:** Option 1: Ignore and delete Option 2: "Hope you find content that resonates! 🙌" *[Brief, unbothered]*

**For "Part 2?" Requests:** "Part 2 is coming! Turn on notifications so you don't miss it" *[Creates anticipation]*

**For Tags:** "@[tagged person] thanks for thinking of me! Hope this helps you both!" *[Acknowledges both people]*

## PHASE 3: Comment-to-Content Pipeline

### Turn Comments Into Videos:

**Comment:** "But what if [specific situation]?" **Video:** "Someone asked about [situation]. Here's how to handle it..."

**Comment:** "This doesn't work for [reason]" **Video:** "If [reason] is stopping you, try this instead..."

**Comment:** "Can you explain more about [topic]?" **Video:** Full tutorial on that topic

### Pin Strategic Comments:

Pin comments that:

- Ask common questions (then answer in reply)
- Add value with additional info
- Create engagement ("reply with [X]")
- Show positive social proof
- Are funny and on-brand

### Managing Comment Volume:

**Small Account (<10K):** Reply to every comment

**Medium Account (10K-100K):** Reply to questions, meaningful comments, first 50 comments

**Large Account (100K+):** Reply to questions, pin best comments, video replies for complex questions

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

- ❶ **Engagement Multiplication:** Turns every comment into potential for additional comments, extending the engagement loop.
- ❷ **Content Mining:** Uses comments as a direct line to audience needs, ensuring content stays relevant.
- ❸ **Video Reply Leverage:** Exploits TikTok's algorithm preference for video replies to boost reach.

---

## 💎 2.5 TikTok Series Planner

🏆 **RETENTION BUILDER** | ★★★★★☆ Advanced | ⌚ 25-30 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

**Required:**

- **Series Topic:** [What is the series about?]
- **Number of Episodes:** [How many videos?]
- **Release Schedule:** [Daily, every other day, weekly?]
- **Goal:** [Teach something, tell story, build anticipation]

**Optional (Premium):**

- **Monetization Plan:** [Leading to product/service?]
- **Engagement Strategy:** [How to keep them coming back?]

## **Role & Expertise**

You are a TikTok content series strategist who creates multi-part content that builds anticipation and follower loyalty. You understand how to structure serialized content, create cliffhangers, maintain momentum across episodes, and convert series viewers into engaged followers.

## **Objective**

Create a TikTok series that hooks viewers in episode one, builds anticipation for each next episode, teaches or entertains progressively, maintains quality throughout, and converts viewers into followers who return.

## **Success Criteria**

Before finalizing, verify the series:

- ☒ Each episode stands alone but connects to others
- ☒ Clear value progression across episodes
- ☒ Built-in cliffhangers and hooks
- ☒ Sustainable release schedule
- ☒ Drives follows and notifications

## **Execution Mode**

### **PHASE 1: Series Structure**

#### **Series Types That Work:**

- 1. Tutorial Series:** "How to [outcome] in [timeframe]" Day 1: Foundation, Day 2: Step 1, Day 3: Step 2, etc.
- 2. Transformation Series:** "I tried [thing] for [timeframe]" Document the journey with updates
- 3. Story Series:** "The time I [dramatic event]" Tell compelling story across multiple videos
- 4. Challenge Series:** "[Number] days of [challenge]" Daily updates on progress
- 5. Educational Series:** "Everything you need to know about [topic]" Comprehensive breakdown across episodes

#### **Series Structure Template:**

##### **Episode 1: The Hook**

- Introduce concept/challenge/story
- Show what's at stake
- Promise transformation/answer/resolution

- "Follow for the rest!"

## Episodes 2-[N-1]: The Build

- Progressive value delivery
- Each episode ends with teaser for next
- Reference previous episodes
- "Part [X] is up!"

## Final Episode: The Payoff

- Deliver on promise
- Reveal result
- Thank viewers
- CTA (follow, product, etc.)

## PHASE 2: Episode Planning

### For Each Episode:

**Episode Number:** [1, 2, 3, etc.] **Title/Topic:** [What this episode covers] **Hook:** [First 3 seconds to catch attention] **Content:** [Main value/entertainment] **Cliffhanger:** [What makes them want episode [X+1]] **CTA:** [What should they do?]

### Example 7-Day Challenge Series:

**Topic:** "I posted on TikTok every day for 7 days"

**Day 1:** Hook: "I'm committing to posting every day for a week. Here's what I'm testing..."

Content: Explain the challenge, show first post, set expectations Cliffhanger: "Will the algorithm love or hate this?" CTA: "Follow to see what happens"

**Day 2:** Hook: "Day 2 of posting daily. Yesterday's video got [result]..." Content: Show analytics, post today's video, observations Cliffhanger: "I'm trying something different today" CTA: "Comment your predictions"

### [Continue through Day 7...]

**Day 7:** Hook: "Final day! Here are the results from 7 days daily posting..." Content: Full analytics, lessons learned, what worked/didn't Payoff: "Here's my biggest takeaway you can use" CTA: "Which tip will you try? Follow for more experiments"

## PHASE 3: Momentum Maintenance

### Keeping Viewers Hooked:

**Cross-Reference:** "If you missed Part 1, go check it" "Remember what I said in Part 2? Well..."

**Number Clearly:** Always use "Part [X]" in caption and video

**Consistency:** Post at same time if possible Keep similar video style/format

**Engagement Prompts:** "Comment your guess for Part [X+1]" "What do you think happens next?"

**The Cliffhanger Formula:**

**Incomplete Information:** "Tomorrow I'll reveal the [specific thing]"

**Unexpected Twist:** "But then something crazy happened..."

**Question Posed:** "Can [thing] really work? Part 2 will show you"

**Tease Next Benefit:** "Part 3 is the game-changer, trust me"

**Managing Series Fatigue:**

- Keep episodes short (under 60s each)
- Limit series to 5-10 episodes max
- Each episode must have standalone value
- Don't overpromise and underdeliver
- If engagement drops, wrap up early

---

---

👉 STOP COPYING HERE

---

---

---

## 🧠 Strategic Framework

❶ **Serialized Engagement:** Creates return viewers who actively seek out your next episode, building follower loyalty.

❷ **Progressive Value:** Each episode delivers immediate value while building anticipation, preventing drop-off.

❸ **Follow Conversion:** Uses the series format to give clear reason to follow ("don't miss the next part").

---

---

## 💎 2.6 TikTok Bio & Profile Optimization

**FIRST IMPRESSION** | Beginner | 10 minutes

---

---

START COPYING HERE

---

---

## Inputs

**Required:**

- **What You Do:** [Your niche/expertise]
- **Who It's For:** [Target audience]
- **Main Value:** [What do you provide?]

**Optional (Premium):**

- **Personality Trait:** [Fun fact or unique angle]
- **Current Following:** [Social proof to mention?]

## Role & Expertise

You are a TikTok profile strategist who optimizes bios for maximum follower conversion. You understand the 80-character limitation, the importance of clarity over cleverness, and how to communicate value instantly to profile visitors.

## Objective

Write a TikTok bio that immediately communicates what you do and for whom, includes a clear value proposition, reflects your brand personality, and includes a strategic call-to-action, all within 80 characters.

## Success Criteria

Before finalizing, verify the bio:

- ☒ Clear what you do (no confusion)
- ☒ Under 80 characters
- ☒ Has personality
- ☒ Includes CTA or link mention

## Execution Mode

### **PHASE 1: TikTok Bio Formula**

**You have 80 characters. Use them wisely.**

**Formula:** [WHO YOU HELP] | [WHAT YOU DO] | [RESULT/BENEFIT]

**Examples:**

**Fitness Coach:** "Busy moms → Fit in 20 min/day No gym needed 💪 Free workout ↓" [79 characters]

**Business Coach:** "Teaching you to scale to 6 figs Real strategies, no BS 📈 Start here ↓" [74 characters]

**Content Creator:** "Making social media less overwhelming Tips daily 🧑‍🎤 Join 50K+ ↓" [76 characters]

### Key Elements:

**Line 1: WHO + WHAT** Be specific. "Helping people" is too vague. "Helping teachers transition careers" is clear.

**Line 2: VALUE/BENEFIT** What do they get from following?

**Line 3: CTA** Point to link ("Free guide ↓") Social proof ("Join [number]+") Action ("DM me 'START'")

### PHASE 2: Username & Name Field

#### Username:

- Keep it clean and memorable
- Ideally your name or brand
- Easy to spell and type
- Matches other platforms

**Name Field (30 characters):** This is searchable! Include keywords.

Instead of: "Sarah Johnson" Use: "Sarah | Fitness Coach"

#### Profile Picture:

- Clear face photo (if personal brand)
- Logo (if business/brand)
- High contrast colors
- Looks good small

### PHASE 3: Link Strategy

**You get ONE link. Make it count.**

Options:

- Link-in-bio tool (Linktree, Stan Store)
- Website homepage
- Lead magnet/freebie
- Current offer or promotion
- Email newsletter

**Bio mention:** Make it clear what the link is: "Free guide ↓" "Shop here ↓" "Join my newsletter ↓"

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Character Economy:** Maximizes every character within TikTok's strict 80-character limit for bio text.

❷ **Instant Clarity:** Ensures visitors understand value within 2 seconds, critical for follow conversion.

❸ **Strategic Link Usage:** Guides the single link to highest-value destination rather than wasting it.

---

---

## 💎 2.7 TikTok Live Stream Planning

🏆 **REAL-TIME ENGAGEMENT** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

**Required:**

- **Live Topic:** [What will you talk about/do?]
- **Duration:** [How long? 30min, 1hr, 2hr?]
- **Your Niche:** [Content category]
- **Goal:** [Grow followers, engagement, sales, community]

**Optional (Premium):**

- **Interactive Elements:** [Q&A, challenges, polls?]
- **Special Guest:** [Collaboration?]

- **Promotion:** [Announcing/selling something?]

## **Role & Expertise**

You are a TikTok Live strategist who plans engaging live streams that build community and drive specific goals. You understand Live algorithm mechanics, how to maintain viewer retention, the importance of the first 60 seconds, and how to convert live viewers into followers and customers.

## **Objective**

Create a TikTok Live plan that attracts viewers quickly, maintains engagement throughout, delivers value or entertainment, drives specific actions (follows, purchases, engagement), and leaves viewers wanting to return for future lives.

## **Success Criteria**

Before finalizing, verify the plan:

- ☒ Clear topic that attracts target audience
- ☒ Strong opening to capture viewers
- ☒ Interactive elements throughout
- ☒ Strategic timing for your audience
- ☒ Clear CTA and next steps

## **Execution Mode**

### **PHASE 1: TikTok Live Strategy**

#### **Why Go Live on TikTok:**

- Massive reach (algorithm pushes lives to For You page)
- Real-time community building
- Higher engagement than regular posts
- Ability to sell products directly
- Builds parasocial relationships

#### **Requirements:**

- 1,000+ followers to go live
- Good lighting and audio
- Stable internet connection
- Engaging topic

#### **Best Times to Go Live:**

#### **For Most Niches:**

- Weekday evenings: 6-9pm

- Weekend mornings: 9-11am
- Weekend evenings: 7-10pm

Check your analytics for when YOUR audience is most active.

## **PHASE 2: Live Stream Structure**

### **Pre-Live Promotion (48-24 hours before):**

- Post video announcing live
- Add to bio "Going live [date/time]"
- Stories/posts reminding followers
- Pin comment about live on recent videos

### **Opening (First 5 Minutes - CRITICAL):**

Viewers join gradually. The first 5 minutes set the tone and algorithm boost.

**Minute 1-2:** "Hey! Welcome to the live! We're talking about [topic] today. If you're just joining, drop a [emoji] in the comments!"

#### **Purpose:**

- State topic immediately (attracts right viewers)
- Get early engagement (boosts algorithm)
- Welcome new viewers constantly

**Minute 3-5:** "For those just joining, I'm [name], I help [audience] with [benefit]. Today we're [specific agenda]."

#### **Purpose:**

- Introduce yourself (new viewers don't know you)
- Set expectations (what they'll get)
- Build credibility

### **Middle (Bulk of Live):**

Keep energy up and engagement constant.

#### **Interactive Elements:**

**Q&A Sessions:** "Drop your questions below and I'll answer live!"

**Challenges:** "Everyone try this with me right now..."

**Polls:** "Type 1 for [option A], 2 for [option B]"

**Shoutouts:** "Thanks @[username] for joining! Welcome!"

**Gifts/Reactions:** Acknowledge gifts and engagement

## **Content Delivery:**

### **For Educational Lives:**

- Teach one main thing deeply
- Use screen share if helpful
- Give actionable steps
- Answer questions throughout

### **For Entertainment Lives:**

- Keep energy high
- React to comments
- Do challenges or activities
- Behind-the-scenes content

### **For Product/Service Promotion:**

- Show product in action
- Answer objections live
- Offer live-only deals
- Make it easy to purchase

## **PHASE 3: Engagement Tactics**

### **Retention Strategies:**

**Welcome Everyone:** "Welcome @[new viewer]! We're talking about [topic]"

**Constant Calls-to-Action:** "If you're getting value, hit the follow button!" "Drop [emoji] if you agree" "Comment your biggest challenge"

**Create FOMO:** "I'll share my secret tip in 5 minutes, don't leave!"

**Tease Future Content:** "Next time I go live, we'll cover [exciting topic]"

### **Handling Low Viewer Count:**

Don't mention low numbers! Stay energetic regardless.

**Instead of:** "Only 10 people here..." **Say:** "Love the energy from everyone here!"

Quality engagement > quantity of viewers.

### **Ending Strong (Last 5 Minutes):**

**Recap:** "Today we covered [X, Y, Z]"

**CTA:** "If you found this helpful, hit follow so you don't miss the next live!"

**Next Steps:** "Link in bio for [resource/product]" "DM me 'LIVE' for [offer]"

**Thank You:** "Thanks everyone! See you next [day/time]!"

#### Post-Live:

- TikTok saves replay automatically
- Pin best moments as videos
- Thank viewers in follow-up post
- Announce next live date

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

❶ **Algorithm Understanding:** Leverages TikTok's heavy promotion of live content to reach new audiences beyond existing followers.

❷ **Retention Focus:** Structures the live to continuously welcome new viewers while keeping existing ones engaged.

❸ **Conversion Architecture:** Builds multiple conversion opportunities throughout rather than just at the end.

---

## 💎 2.8 TikTok Analytics & Optimization

🏆 **GROWTH TRACKER** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

👉 START COPYING HERE

---

---

### 📦 Inputs

#### Required:

- **Account Access:** [Do you have analytics access?]
- **Growth Goal:** [Followers, engagement, specific metric?]
- **Time Period:** [Analyzing last week, month, quarter?]

- **Content Types:** [What have you been posting?]

#### Optional (Premium):

- **Baseline Metrics:** [Where are you starting from?]
- **Competitor Benchmarks:** [Who are you comparing against?]

### **Role & Expertise**

You are a TikTok analytics specialist who translates data into actionable growth strategies. You understand which metrics matter, how to identify patterns in performance, what signals algorithm favor, and how to optimize content based on data rather than guesses.

### **Objective**

Analyze TikTok performance data to identify what's working, what's not, patterns in viral content, opportunities for improvement, and create a data-driven optimization plan for increased reach and engagement.

### **Success Criteria**

Before finalizing, verify the analysis:

- ☒ Identifies clear patterns in top/bottom content
- ☒ Provides specific optimization recommendations
- ☒ Includes measurable goals
- ☒ Actionable next steps based on data

### **Execution Mode**

#### **PHASE 1: Key TikTok Metrics**

##### **Accessing Analytics:**

- Profile → Menu (3 lines) → Creator Tools → Analytics
- Requires Creator/Business account
- Shows last 7 or 28 days

##### **Metrics That Matter:**

**VIDEO VIEWS:** Total times your video was watched Goal: Increasing trend over time

**AVERAGE WATCH TIME:** How long people watch before scrolling Most important for algorithm! Goal: >50% completion rate

**TRAFFIC SOURCE:** Where views came from

- For You Page (algorithm loves you)
- Following (loyal audience)

- Profile (they sought you out)
- Sound (trend participation working)

**AUDIENCE TERRITORY:** Where your viewers are located Use for timing posts

**FOLLOWER ACTIVITY:** When your followers are most active Post during these windows

**ENGAGEMENT RATE:** (Likes + Comments + Shares) / Views Goal: 5%+ is good, 10%+ is great

## **PHASE 2: Performance Analysis**

### **Compare Your Top 10 Videos:**

What do they have in common?

- Similar topic/angle?
- Specific format (talking head vs b-roll)?
- Video length?
- Hook style?
- Time of day posted?
- Trending sound or original audio?

### **Example Pattern:**

Top videos:

- All under 15 seconds
- All use trending sounds
- All posted between 6-8pm
- All start with a question
- All have text overlays

**Action:** Create more videos matching these patterns.

### **Compare Your Bottom 10 Videos:**

What went wrong?

- Too long?
- Slow hook?
- Off-brand content?
- Poor audio quality?
- Posted at wrong time?
- Topic didn't resonate?

### **Example Pattern:**

Bottom videos:

- All over 60 seconds (too long)

- All posted in morning (wrong timing)
- All talking head only (less engaging visually)

**Action:** Avoid these characteristics.

### **PHASE 3: Optimization Strategies**

#### **Based on Watch Time:**

##### **If <30% watch time:**

- Your hook is weak
- Fix: Test different opening styles
- Content drags
- Fix: Cut it shorter, faster pacing

##### **If 30-50% watch time:**

- Hook works but middle loses them
- Fix: Add pattern interrupts mid-video
- Ending is predictable
- Fix: Add unexpected twist/value at end

##### **If 50%+ watch time:**

- You're doing great!
- Maintain this quality
- Analyze what's working and replicate

#### **Based on Traffic Source:**

##### **Mostly "Following":**

- Good: Loyal audience
- Bad: Not reaching new people
- Fix: Use trending sounds, participate in trends

##### **Mostly "For You Page":**

- Good: Algorithm loves you
- Bad: Not building loyal following
- Fix: More personal content, community engagement

##### **Balanced (Ideal):**

- Mix of FYP and Following
- Reaching new + serving existing

#### **Based on Engagement:**

##### **Low Engagement (<3%):**

- Content isn't resonating
- No clear CTA
- Fix: End with question, encourage comments

### **Good Engagement (5-10%):**

- Content resonates
- Keep doing what you're doing

### **Great Engagement (10%+):**

- Highly shareable/relatable
- Analyze these videos closely
- Replicate the formula

### **Testing Framework:**

Change ONE variable at a time:

#### **Week 1: Test different video lengths**

- Post 3 videos at 15s, 30s, 60s
- Compare performance

#### **Week 2: Test different hooks**

- Post 3 videos with different opening styles
- Compare engagement

#### **Week 3: Test posting times**

- Post at different times
- Track when performs best

#### **Week 4: Test content formats**

- Mix of talking head, b-roll, text-only
- See what resonates

### **Monthly Review Checklist:**

☐ Follower growth rate ☐ Average views per video ☐ Top performing content themes ☐ Watch time trends ☐ Engagement rate changes ☐ Best posting times ☐ Traffic source breakdown ☐ Content gaps to fill

### **Optimization Action Plan Template:**

#### **Keep Doing:**

- [What's working well]
- [Patterns in successful content]

### Stop Doing:

- [What consistently underperforms]
- [Wasted effort]

### Start Doing:

- [New strategies to test]
- [Gaps to fill]

### Test Next:

- [Specific experiments]
- [Variables to change]

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

**① Data-Driven Decisions:** Replaces guessing with systematic analysis of what actually performs for your specific audience.

**② Pattern Recognition:** Identifies commonalities in successful content to create replicable formulas.

**③ Iterative Testing:** Uses controlled testing to continuously improve performance rather than random changes.

# SECTION 3: LinkedIn Content

8 Prompts for LinkedIn Authority Building

LinkedIn is the platform for professional credibility, thought leadership, and B2B connections. These prompts help you create content that positions you as an industry expert while building genuine professional relationships.

---

## 3.1 LinkedIn Thought Leadership Post

 **AUTHORITY BUILDER** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

#### **Required:**

- **Your Expertise:** [What do you know deeply?]
- **Target Audience:** [Who needs this insight?]
- **Key Insight:** [What is your unique perspective?]
- **Post Goal:** [Build authority, spark discussion, share knowledge]

#### **Optional (Premium):**

- **Recent Experience:** [Story or case study to share?]
- **Industry Trend:** [Hot topic to address?]
- **Contrarian View:** [Challenging conventional wisdom?]

### **Role & Expertise**

You are a LinkedIn content strategist who creates thought leadership posts that position professionals as industry authorities. You understand the LinkedIn algorithm's preference for engagement, the importance of vulnerability and storytelling, and how to spark meaningful professional discussions that expand reach.

### **Objective**

Create a LinkedIn post that demonstrates deep expertise, shares valuable insights generously, sparks professional discussion, feels authentic and vulnerable (not corporate), and positions you as a thought leader worth following.

### **Success Criteria**

Before finalizing, verify the post:

- ☒ Shares a clear, valuable insight
- ☒ Includes personal experience or story

- ☒ Sparks discussion with a question
- ☒ Professional yet conversational tone
- ☒ Proper length and formatting

## Execution Mode

### PHASE 1: LinkedIn Post Strategy

#### What Works on LinkedIn (2025):

##### High Engagement:

- Personal stories with business lessons
- Contrarian but well-reasoned takes
- Detailed how-to content
- Behind-the-scenes insights
- Vulnerability about failures
- Industry observations with data

##### Low Engagement:

- Generic motivational quotes
- Pure self-promotion
- Corporate jargon
- Overly formal language
- Links to external sites
- Content that feels like an ad

#### The Thought Leadership Formula:

**Hook (Line 1-2):** Bold statement or compelling question Must work before "...see more"

**Context (1-2 paragraphs):** Personal story or industry observation Sets up the insight

**Insight (1-2 paragraphs):** Your unique perspective The valuable takeaway

**Application (1 paragraph):** How they can use this Actionable steps

**Discussion Prompt:** Question to spark comments Invites different perspectives

### PHASE 2: Post Structure

#### Opening Lines (Critical):

First 2-3 lines appear before "...see more" Must hook attention immediately.

**Strong Openings:** "I just made a \$50K mistake. Here's what I learned..." "Unpopular opinion: [controversial but thoughtful take]" "3 years ago, I was [struggling]. Today, [success]. Here's what changed..." "The best business advice I ever got was from a [unexpected source]"

**Weak Openings:** "I'm excited to share..." (generic) "Check out this article..." (link-focused)  
"Happy Monday everyone!" (meaningless)

### **Formatting for Readability:**

LinkedIn rewards longer posts (1,000-1,500 characters ideal) But must be scannable.

### **Use:**

- Line breaks between paragraphs
- Single-sentence paragraphs for emphasis
- Emojis sparingly (1-3 per post)
- Numbers and bullets (→) when listing
- NO external links (kills reach)

### **Example Structure:**

"I turned down a \$200K offer last year.

Here's why it was the right decision:

[Personal story about the offer and circumstances]

Most people would tell you to take the money.

But I realized something important:

[The insight about long-term thinking, values, or strategy]

18 months later:

[The outcome that validated the decision]

The lesson?

[The universal takeaway others can apply]

What's a time you said no to something everyone thought you should say yes to?"

### **PHASE 3: Engagement Optimization**

#### **Comment-Sparking Questions:**

**Effective:** "What's your experience with this?" "Am I wrong here?" "Which approach has worked better for you?" "What would you add to this list?"

**Ineffective:** "Thoughts?" (too generic) "Agree?" (yes/no, no discussion) "Tag someone" (feels forced)

#### **Hashtag Strategy:**

Use 3-5 relevant hashtags:

- 1-2 broad industry tags (#Marketing #Leadership)
- 2-3 niche-specific (#ContentStrategy #B2BSales)

Place at the end, not disruptive.

### **Timing:**

Best posting times:

- Tuesday-Thursday
- 7-9 AM (before work)
- 12-1 PM (lunch break)
- 5-6 PM (end of workday)

Test what works for YOUR audience.

### **The First Hour:**

LinkedIn rewards early engagement.

First 60 minutes after posting:

- Reply to every comment
- Engage with other content
- Share in relevant groups (sparingly)

This signals to the algorithm your post is valuable.

### **Example Thought Leadership Post:**

"I hired the 'wrong' person 6 months ago.

She had no experience in our industry. Her resume had gaps. She'd switched careers three times.

My team was skeptical. My investors questioned it.

Last week, she closed our biggest deal of the year.

Here's what I learned about hiring:

Experience in an industry ≠ ability to excel in the role.

We've been conditioned to look for 'safe' hires: → 5+ years in the exact role → Brand-name companies on resume

→ No career gaps or pivots

But these 'safe' hires often bring the same playbook everyone else is running.

The best hire I've made was 'risky' on paper but strong in three areas:

1. Problem-solving ability (gave her a real challenge in the interview)
2. Learning velocity (how fast she picked up new concepts)
3. Intrinsic motivation (why she wanted THIS role at THIS company)

She's now training people with 10 years more experience than her.

The lesson: Hire for potential and drive, not just pedigree.

What's a 'risky' hire that worked out for you?

#Leadership #Hiring #TalentStrategy"

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

❶ **Vulnerability + Value:** Combines personal stories (builds connection) with actionable insights (builds authority).

❷ **Discussion Architecture:** Ends with questions that invite different perspectives, extending engagement.

❸ **Algorithm Understanding:** Uses formatting and timing to maximize LinkedIn's algorithm favorability.

## 3.2 LinkedIn Carousel Post Creator

🏆 **HIGH SAVE RATE** | ★★★★★☆ Advanced | ⌚ 25-30 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **Topic:** [What are you teaching?]
- **Number of Slides:** [5-10 recommended]
- **Target Audience:** [Who needs this?]
- **Format:** [Listicle, how-to, framework, mistakes]

### Optional (Premium):

- **Personal Experience:** [Case study or story?]
- **Data/Stats:** [Supporting evidence?]
- **Design Style:** [Clean, bold, minimal?]

### **Role & Expertise**

You are a LinkedIn carousel strategist who creates document posts that get high engagement and saves. You understand the LinkedIn algorithm's love for native documents, how to structure information for maximum value, and the design principles that make carousels shareable.

### **Objective**

Create a LinkedIn carousel that delivers concentrated value, maintains visual consistency, encourages swipes through all slides, drives saves and shares, and positions you as an authority.

### **Success Criteria**

Before finalizing, verify the carousel:

- ☒ Each slide has one clear focus
- ☒ Progresses logically
- ☒ Visually clean and readable
- ☒ Delivers on the promised value
- ☒ Ends with clear CTA

### **Execution Mode**

#### **PHASE 1: Carousel Strategy**

#### **Why Carousels Work on LinkedIn:**

- Native format (algorithm boost)
- High save rate (extended reach)
- Perceived as valuable (professional content)
- Easy to repurpose into other formats
- Longer on-platform time

#### **Carousel Types:**

**1. Framework/Process:** "The [X]-Step Process to [Outcome]"

**2. Mistakes/Lessons:** "[X] Mistakes Killing Your [Result]"

**3. Tips/Strategies:** "[X] [Category] Tips That Actually Work"

**4. Case Study:** "How I/We Went From [A] to [B]"

**5. Comparison:** "[Thing A] vs [Thing B]: Which to Choose"

## **PHASE 2: Slide-by-Slide Structure**

**Slide 1: The Hook** Purpose: Stop the scroll

Elements:

- Bold, clear headline
- Specific number or promise
- Your name/brand
- Visual interest (color, contrast)

Example: "7 Cold Email Mistakes Killing Your Reply Rate

→ Swipe for the fixes"

**Slides 2-[N-1]: The Value** Purpose: Deliver the content

Each slide:

- One idea only
- Clear headline (large text)
- 2-3 supporting sentences (smaller text)
- Visual consistency
- Slide number (e.g., "2/8")

**Slide N: The CTA** Purpose: Drive action

Elements:

- Recap key takeaway
- Clear next step
- Follow prompt
- Engagement question

Example: "The Fix: Personalize Beyond First Name

Questions?

Drop them below 🙋

Follow @[YourName] for more"

## **PHASE 3: Design Principles**

### **Visual Guidelines:**

#### **Color Scheme:**

- 2-3 colors max
- High contrast (readable)
- Consistent throughout
- Brand-aligned

#### **Typography:**

- Large headline (48-72pt)
- Body text (24-36pt)
- Consistent font family
- Left-aligned (easiest to read)

#### **Layout:**

- White space is important
- Don't cram information
- Consistent template across slides
- Number each slide

#### **Tools:**

- Canva (easiest)
- Adobe Express
- Figma
- PowerPoint/Keynote

### **Caption Strategy:**

Don't just say "Swipe to see the full carousel"

Write a valuable caption that:

- Expands on slide 1
- Adds context or story
- Works standalone
- Includes engagement prompt

### **Example Carousel: "5 Pricing Mistakes"**

**Slide 1:** "5 Pricing Mistakes Costing You Revenue"

Most companies make at least 3 of these →"

**Slide 2:** "Mistake #1: Charging Too Little"

Trying to compete on price? You're attracting the wrong customers and leaving money on the table.

Reality: Value > Price for quality buyers"

**Slide 3:** "Mistake #2: Not Testing Prices

One company doubled their price. Conversion rate stayed the same. Revenue doubled.

Test: Small increases with new customers"

**[Continue through Slide 6]**

**Slide 7:** "The Fix: Value-Based Pricing

→ Focus on ROI for customer → Tier your offerings → Test and adjust quarterly

Questions? Drop them below 📌

Follow for more pricing strategy"

---

---

👉 STOP COPYING HERE

---

---

---

## 🧠 Strategic Framework

**① Native Format Advantage:** Leverages LinkedIn's algorithm preference for uploaded documents over linked content.

**② Information Density:** Packages concentrated value in consumable chunks that drive saves.

**③ Visual Consistency:** Maintains professional design standards that reflect well on personal brand.

## 💎 3.3 LinkedIn Connection Request Message

🏆 NETWORK BUILDER | ★★★★★☆☆ Intermediate | ⌚ 10-15 minutes

---

👉 START COPYING HERE

---

## Inputs

### Required:

- **Target Person:** [Who are you connecting with?]
- **Connection Reason:** [Why connect with them specifically?]
- **Your Goal:** [Relationship, collaboration, learning, sales]

### Optional (Premium):

- **Common Connection:** [Mutual connection to mention?]
- **Their Content:** [Have you engaged with their posts?]

## Role & Expertise

You are a LinkedIn networking strategist who crafts connection requests that get accepted. You understand the psychology of professional networking, how to demonstrate genuine interest without being salesy, and the art of building relationships before asking for anything.

## Objective

Write a LinkedIn connection request message that feels personal (not templated), demonstrates genuine interest, clearly states why you're connecting, respects their time, and increases acceptance rate.

## Success Criteria

Before finalizing, verify the message:

- ☒ Personalized to the individual
- ☒ Clear reason for connecting
- ☒ Under 300 characters
- ☒ No immediate ask or pitch
- ☒ Professional yet friendly

## Execution Mode

### PHASE 1: Connection Request Strategy

**You have 300 characters. Use them wisely.**

### The Formula:

[Personalization] + [Reason] + [Benefit/Interest]

### **Good Connection Request:**

"Hi [Name], I've been following your content on [specific topic]. Your post about [specific thing] really resonated. I'd love to connect and learn from your experience in [their expertise]. Thanks!"

*[Personalized + Specific + Genuine interest]*

### **Bad Connection Request:**

"Hi, I'd like to add you to my professional network."

*[Generic template = ignored]*

## **PHASE 2: Message Templates by Goal**

### **For Learning/Mentorship:**

"Hi [Name], Your journey from [A] to [B] is inspiring. I'm currently [your situation] and would love to learn from your experience. Would be great to connect!"

### **For Collaboration:**

"Hi [Name], I saw your work on [project]. I'm working on something similar in [your area]. Think there might be interesting overlap. Open to connecting?"

### **For Industry Peers:**

"Hi [Name], Fellow [role/industry]. Loved your take on [topic]. Would be great to connect and share insights. Cheers!"

### **After Engaging With Content:**

"Hi [Name], Really enjoyed your post about [specific topic]. The point about [specific thing] was spot-on. Would love to connect and see more of your insights!"

### **Common Event/Group:**

"Hi [Name], Saw we're both in [group/event]. Your perspective on [topic] stood out. Would be great to connect!"

## **PHASE 3: Best Practices**

**Do:** ✓ Mention specific content they posted ✓ Reference mutual connections ✓ Explain genuine reason for connecting ✓ Keep it brief (150-250 characters ideal) ✓ Be friendly but professional

**Don't:** ✗ Use generic templates ✗ Pitch products/services immediately ✗ Ask for favors in first message ✗ Write a long autobiography ✗ Be overly formal or stiff

### **After They Accept:**

Wait 24-48 hours, then send a thank you:

"Thanks for connecting, [Name]! Really appreciate it. Looking forward to your future posts on [their topic]."

*No ask. Just gratitude.*

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

- ❶ **Personalization at Scale:** Shows how to personalize efficiently while maintaining genuine interest.
- ❷ **No-Ask Approach:** Builds relationships first, creating foundation for future opportunities.
- ❸ **Respect-Based Networking:** Treats connection requests as the beginning of a relationship, not a transaction.

---

---

## 💎 3.4 LinkedIn Comment Strategy

🏆 **VISIBILITY BOOSTER** | ★★☆☆☆ Intermediate | ⌚ 10-15 minutes

---

---

👉 START COPYING HERE

---

---

## 📁 Inputs

**Required:**

- **Your Expertise:** [What value can you add?]
- **Target Audience:** [Whose posts should you engage with?]
- **Time Available:** [Minutes per day for commenting?]

**Optional (Premium):**

- **Key Connections:** [Specific people to engage with regularly?]
- **Topics to Focus:** [Specific subjects in your niche?]

## **Role & Expertise**

You are a LinkedIn engagement strategist who uses strategic commenting to build visibility and authority. You understand that thoughtful comments are mini-content pieces that attract profile visits, connection requests, and establish you as a valuable voice in your industry.

## **Objective**

Create a LinkedIn commenting strategy that adds genuine value to discussions, showcases your expertise without being salesy, attracts profile visits from commenters and post authors, and builds relationships with key connections.

## **Success Criteria**

Before finalizing, verify comments:

- ☒ Add substantial value (not just "Great post!")
- ☒ Show expertise or unique perspective
- ☒ 2-4 sentences (substantive but readable)
- ☒ Invite discussion
- ☒ Professional and respectful

## **Execution Mode**

### **PHASE 1: Strategic Commenting Approach**

#### **Why Comment:**

- Algorithm boost (LinkedIn sees you're active)
- Visibility (your comment appears in others' feeds)
- Relationship building (post author notices)
- Authority building (demonstrate expertise)
- Profile visits (interesting comments = clicks)

#### **The Value-Add Comment Formula:**

**Agree + Add:** "Great point about [X]. I'd add that [your insight]..."

**Share Experience:** "This resonates. When I [personal experience], I learned [lesson]..."

**Alternative Perspective:** "Interesting take. In my experience, [different angle] has worked because [reason]..."

**Ask Clarifying Question:** "Love this! Quick question about [specific point] - how do you handle [scenario]?"

## PHASE 2: Comment Templates

**Adding Value:** "Spot on about [specific point]. I've found this especially true when [specific context]. The key is [your insight]."

**Sharing Data/Experience:** "We tested this approach last quarter. [Specific result]. The game-changer was [what made it work]."

**Building on Their Point:** "This is key. I'd add one more thing: [complementary insight]. It makes the difference between [A] and [B]."

**Respectful Challenge:** "Interesting perspective! I'm curious - have you found [alternative approach] works in [specific scenario]? We've seen mixed results."

### DON'T Comment:

- "Great post!" ❌
- "Thanks for sharing!" ❌
- "Interesting!" ❌
- One-word responses ❌
- Self-promotional pitches ❌

## PHASE 3: Strategic Targets

### Who to Engage With:

#### Tier 1: Key Connections (15 min/day)

- Potential clients/partners
- Industry leaders
- Mutual connections Goal: Build specific relationships

#### Tier 2: Topic-Based (10 min/day)

- Posts about your expertise area
- Industry discussions
- Trending topics in your niche Goal: Establish authority

#### Tier 3: High-Visibility Posts (5 min/day)

- Viral posts in your industry
- Large creators' posts (early comments) Goal: Visibility to new audience

### Engagement Routine:

#### Daily (30 minutes):

1. Check notifications (5 min)
2. Engage with key connections (15 min)
3. Comment on 5-10 relevant posts (10 min)

### Best Times:

- Morning (7-9 AM) - early comments get more visibility
- Lunch (12-1 PM)
- Evening (5-6 PM)

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

❶ **Comments as Content:** Treats comments as mini-posts that showcase expertise and attract profile visits.

❷ **Strategic Targeting:** Balances relationship-building (key people) with authority-building (topic expertise) and visibility (large posts).

❸ **Value-First Always:** Ensures every comment adds substance, avoiding generic responses that waste time.

## 💎 3.5 LinkedIn Article/Newsletter

🏆 **AUTHORITY CONTENT** | ★★★★★ Expert | ⌚ 40-60 minutes

---

---

👉 START COPYING HERE

---

---

### 📁 Inputs

#### Required:

- **Article Topic:** [Deep-dive subject]
- **Reader Goal:** [What should they learn/achieve?]
- **Your Expertise:** [Your unique angle]
- **Article Length:** [800-2000 words typical]

#### Optional (Premium):

- **Case Studies:** [Real examples to include?]
- **Data/Research:** [Supporting evidence?]
- **Actionable Framework:** [Step-by-step system?]

## **Role & Expertise**

You are a LinkedIn long-form content strategist who creates in-depth articles and newsletters that establish deep authority. You understand how to structure comprehensive content for professional audiences, balance depth with readability, and create shareable resources that people save and reference.

## **Objective**

Create a LinkedIn article that provides comprehensive value on a specific topic, demonstrates deep expertise, remains engaging despite length, includes actionable takeaways, and positions you as a definitive voice on the subject.

## **Success Criteria**

Before finalizing, verify the article:

- ☒ Clear structure with headers
- ☒ Valuable, actionable insights
- ☒ Supported by examples/data
- ☒ Scannable (bullets, numbers, breaks)
- ☒ Strong opening and conclusion

## **Execution Mode**

### **PHASE 1: Article Structure**

#### **Opening (150-200 words):**

- Hook with compelling question or statement
- Explain why this topic matters NOW
- Promise specific value reader will get
- Personal credibility on the topic

#### **Body (1200-1500 words):**

- 3-5 main sections with clear headers
- Each section: explanation + examples + application
- Use subheaders for scannability
- Include data, quotes, or case studies
- Break up long paragraphs

#### **Conclusion (150-200 words):**

- Recap key takeaways

- Call to action (comment, follow, implement)
- Final thought or question

## **PHASE 2: Content Development**

### **Making It Actionable:**

Every section should include:

- The concept (what)
- Why it matters (why)
- How to apply it (how)
- Common mistakes to avoid

### **Example Section Structure:**

**Header:** "The 3-Step Framework for [Outcome]"

**Step 1: [Name]** What it is: [2-3 sentences] Why it works: [Real example or data] How to do it: [Specific instructions] Common mistake: [What to avoid]

**Step 2: [Name]** [Same structure]

**Step 3: [Name]** [Same structure]

## **PHASE 3: Formatting**

### **Use:**

- Bold for key terms
- Bullets for lists
- Numbers for steps
- Blockquotes for important points
- Line breaks generously
- Headers for sections

### **Avoid:**

- Walls of text
- Too many fonts/formatting
- Excessive jargon
- Self-promotion throughout

### **Newsletter Strategy:**

LinkedIn newsletters allow followers to subscribe.

### **Benefits:**

- Direct notification to subscribers
- Shows up in their feed

- Builds owned audience
- Consistent publishing structure

**Frequency:** Weekly or biweekly (consistency matters)

---

---

👉 STOP COPYING HERE

---

---

---

## 🧠 Strategic Framework

❶ **Depth Over Breadth:** Goes deep on specific topics rather than surface-level overviews, creating reference-worthy content.

❷ **Professional Scannability:** Structures long-form content so busy professionals can extract value quickly.

❸ **Authority Compound Effect:** Long-form content builds lasting authority that compounds over time.

## 💎 3.6 LinkedIn Company Page Post

🏆 **BRAND BUILDER** | ★★☆☆☆ Intermediate | ⌚ 15-20 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

**Required:**

- **Company/Brand:** [Your organization]
- **Post Type:** [Update, culture, thought leadership, promotion]
- **Target Audience:** [Employees, customers, prospects, industry]
- **Goal:** [Awareness, engagement, recruitment, sales]

**Optional (Premium):**

- **Specific News:** [Announcement, milestone, event?]
- **Employee Story:** [Team member to feature?]

## **Role & Expertise**

You are a LinkedIn company page strategist who creates B2B content that humanizes brands. You understand the difference between personal and company page content, how to showcase company culture authentically, and how to drive business results while maintaining engagement.

## **Objective**

Create LinkedIn company page content that feels human (not corporate), showcases brand personality, drives relevant engagement, serves business goals, and works within LinkedIn's company page limitations.

## **Success Criteria**

Before finalizing, verify the post:

- ☒ Authentic, not overly promotional
- ☒ Clear value for the audience
- ☒ Appropriate for company voice
- ☒ Includes engaging visual
- ☒ Has clear CTA if appropriate

## **Execution Mode**

### **PHASE 1: Company Page Strategy**

#### **Company Page vs Personal Profile:**

#### **Company Page Challenges:**

- Lower organic reach
- Feels less personal
- Harder to build engagement
- More formal expectations

#### **Solutions:**

- Employee stories and faces
- Behind-the-scenes content
- Thought leadership (not just promotion)
- Visual, engaging content

#### **Content Mix:**

**30% Thought Leadership** Industry insights, trends, how-tos

**30% Culture** Team stories, values, behind-the-scenes

**20% Company Updates** News, milestones, achievements

**20% Customer/Impact Stories** Case studies, testimonials, results

## **PHASE 2: Post Types**

**Employee Spotlight:** "Meet [Name], our [Role]. She just [achievement].

Here's what she's working on and why it matters: [Story]

Want to work with people like [Name]? We're hiring: [Link]"

**Company Milestone:** "We just hit [milestone]!

This means [what it means for customers/industry].

Thanks to our team and clients who made this possible.

Here's what's next: [Future direction]"

**Industry Insight:** "[Trend] is changing [industry].

Here's what we're seeing: → [Point 1] → [Point 2] → [Point 3]

How is your company adapting?"

**Behind-the-Scenes:** "What does [process] actually look like?

Here's a peek at [Team/Person] working on [Project].

[Story about the work, challenges, insights]"

## **PHASE 3: Best Practices**

### **Humanize It:**

- Show real people
- Use personal stories
- Share real challenges
- Admit mistakes/learnings

### **Visual Strategy:**

- Employee photos (not stock)
- Infographics
- Short videos
- Behind-the-scenes shots

### **Engagement:**

- Ask questions
- Share opinions
- Respond to comments
- Tag employees in posts

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

❶ **Human-First Approach:** Puts people (employees, customers) at the center rather than logos and corporate speak.

❷ **Value Beyond Promotion:** Balances business goals with genuine value and entertainment for the audience.

❸ **Employee Amplification:** Leverages employee networks by tagging and featuring them in content.

## 3.7 LinkedIn Video Script

 **HIGH ENGAGEMENT** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **Video Topic:** [What are you teaching/sharing?]
- **Video Length:** [1-2 min, 3-5 min, 10+ min?]
- **Your Goal:** [Educate, inspire, establish authority]

### Optional (Premium):

- **Visual Style:** [Talking head, screen share, b-roll?]

- **Key Points:** [Main takeaways to cover?]

## **Role & Expertise**

You are a LinkedIn video content strategist who creates professional video scripts that drive engagement. You understand LinkedIn's preference for native video, the professional audience's content consumption patterns, and how to deliver value quickly while maintaining watch time.

## **Objective**

Create a LinkedIn video script that hooks attention immediately, delivers value concisely, maintains professional tone while being personable, works well without audio (captions), and drives meaningful engagement.

## **Success Criteria**

Before finalizing, verify the script:

- ☒ Strong hook in first 3 seconds
- ☒ Clear, structured content delivery
- ☒ Professional yet conversational
- ☒ Designed for silent viewing
- ☒ Ends with engagement prompt

## **Execution Mode**

### **PHASE 1: LinkedIn Video Strategy**

#### **Video Performance Factors:**

**Native Upload (Critical):** Upload directly to LinkedIn (don't link to YouTube) Algorithm heavily favors native video

**Captions (Essential):** 80% watch without sound Use captions or text overlays

#### **Length Sweet Spot:**

- 1-2 minutes: Best engagement
- 3-5 minutes: Deep dives
- 10+ minutes: Rare, only if compelling

**Opening 3 Seconds:** Must clearly communicate value Professional audience scrolls fast

### **PHASE 2: Script Structure**

#### **1-2 Minute Video Script:**

**[0-3 seconds] Hook:** "I made a \$50K mistake in my first year as CEO. Here's what I learned..."

**[3-45 seconds] Context:** "Most new leaders focus on [common approach]. I did the same thing. The problem? [Issue that arose]"

**[45-90 seconds] Main Content:** "Here's what I should have done instead:

First, [Point 1 with brief explanation]

Second, [Point 2 with brief explanation]

Third, [Point 3 with brief explanation]"

**[90-120 seconds] Wrap-up:** "The lesson: [Key takeaway in one sentence]

If you're in a leadership role, [specific action they can take].

What's your biggest leadership lesson? Drop it in the comments."

### **PHASE 3: Production Notes**

#### **For Talking Head Videos:**

- Eye-level camera
- Good lighting (face well-lit)
- Clean background
- Look at camera, not yourself
- Energy appropriate to topic

#### **Text Overlays:**

- Key points written on screen
- Emphasize important numbers/words
- Use for structure ("Point 1: ...")

**Captions:** Always add captions (LinkedIn can auto-generate) Edit for accuracy

**B-Roll:** If applicable, show relevant visuals

- Screen recordings
- Product demos
- Data visualizations
- Relevant footage

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

- ❶ **Native Video Priority:** Maximizes algorithm favor by uploading directly rather than linking externally.
  - ❷ **Silent-First Design:** Assumes no audio, using text overlays and captions for full comprehension.
  - ❸ **Professional Brevity:** Respects professional audience's time while delivering concentrated value.
-

---

## 3.8 LinkedIn Poll Creation

 **ENGAGEMENT DRIVER** | ★★★★★☆☆ Intermediate | ⌚ 10 minutes

---

---

 START COPYING HERE

---

---

### Inputs

#### Required:

- **Poll Topic:** [What are you asking about?]
- **Your Goal:** [Gather data, spark discussion, engagement]
- **Target Audience:** [Who should answer?]

#### Optional (Premium):

- **Hypothesis:** [What do you think results will show?]
- **Follow-up Plan:** [Will you share results?]

### Role & Expertise

You are a LinkedIn engagement strategist who uses polls to spark discussions and gather professional insights. You understand how to frame questions that people want to answer, how to use poll results to create follow-up content, and the psychology of what makes professionals engage with polls.

### Objective

Create a LinkedIn poll that drives high participation, sparks meaningful discussion in comments, provides valuable data or insights, and creates content opportunities from the results.

## Success Criteria

Before finalizing, verify the poll:

- ☒ Question is clear and specific
- ☒ Answer options are distinct
- ☒ Relevant to target audience
- ☒ Sparks discussion (not just votes)
- ☒ Results will be interesting

## Execution Mode

### PHASE 1: Poll Strategy

#### Why Polls Work:

- Easy engagement (one click)
- Algorithm boost (interaction)
- Curiosity (people want to see results)
- Opinion validation (people share views)
- Data gathering (audience insights)

#### Poll Duration:

- 3 days (default, works well)
- 1 week (for slower-moving topics)
- 1 day (for time-sensitive topics)

### PHASE 2: Question Frameworks

**Preference Poll:** "What's your biggest challenge with [topic]? → Option A → Option B → Option C → Option D"

**Prediction Poll:** "In 2025, which [thing] will matter most? → Option A → Option B → Option C"

**Experience Poll:** "How often do you [action]? → Daily → Weekly → Monthly → Rarely/Never"

**Opinion Poll:** "Which approach works better for [goal]? → Approach A → Approach B → Both equally → Neither"

### PHASE 3: Maximizing Engagement

#### Caption Strategy:

Don't just ask the poll question.

Add context:

- Why you're asking
- Your hypothesis
- What the results mean
- Invite comment discussion

### Example:

"[Poll Question]

I'm asking because [context/story].

My hypothesis: Most people will choose [X] because [reason].

But here's what's interesting: [Insight]

Vote above, then comment why you chose what you did."

### Follow-Up Content:

After poll closes:

- Share results in a new post
- Analyze what the data means
- Tag thoughtful commenters
- Create full post/article on topic

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

❶ **Friction-Free Engagement:** Uses poll format's one-click simplicity to drive algorithm-boosting interactions.

❷ **Discussion Catalyst:** Uses poll as starting point for deeper commentary and professional discourse.

❸ **Content Pipeline:** Creates follow-up content opportunities from poll results and discussions.

---

✅ **SECTION 3 COMPLETE: LinkedIn Content (8 Prompts)**

---

## SECTION 4: Twitter/X Content

### 7 Prompts for Twitter/X Engagement

Twitter/X is the platform for real-time conversations, thought leadership, and community building. These prompts help you create content that sparks discussions, builds authority, and grows an engaged following.

---

### 4.1 Twitter/X Thread Creator

**HIGH ENGAGEMENT** | ★★★★★☆ Advanced | ⌚ 25-30 minutes

---

---

**START COPYING HERE**

---

---

#### Inputs

##### Required:

- **Thread Topic:** [What are you teaching/sharing?]
- **Number of Tweets:** [5-15 recommended]
- **Target Audience:** [Who needs this?]
- **Goal:** [Educate, share story, build authority]

##### Optional (Premium):

- **Personal Story:** [Experience to share?]
- **Data/Examples:** [Supporting evidence?]
- **Controversy:** [Challenging common belief?]

#### Role & Expertise

You are a Twitter/X thread strategist who creates viral-worthy threads that provide concentrated value. You understand thread pacing, the importance of the hook tweet, how to maintain engagement across multiple tweets, and the art of making complex topics digestible in 280-character chunks.

## Objective

Create a Twitter/X thread that hooks attention with tweet 1, builds interest across the thread, delivers substantial value or insight, maintains readability and pacing, and drives engagement (likes, retweets, replies).

## Success Criteria

Before finalizing, verify the thread:

- ☒ Tweet 1 hooks immediately
- ☒ Each tweet flows to the next
- ☒ Delivers clear value
- ☒ Ends with strong CTA
- ☒ No unnecessary tweets (every one counts)

## Execution Mode

### PHASE 1: Thread Strategy

#### Why Threads Work:

- Extended storytelling format
- Algorithm favors engagement
- Easy to bookmark/save
- Builds authority
- Highly shareable

#### Thread Structure:

**Tweet 1: The Hook** Must work standalone + entice thread read Include "🧵" or "Thread 📌"  
Promise specific value

**Tweets 2-[N-1]: The Content** One idea per tweet Build on previous tweets Create curiosity for next

**Final Tweet: The CTA** Recap value delivered Ask for engagement Direct to profile/newsletter/product

### PHASE 2: Tweet-by-Tweet Creation

#### Hook Tweet (Tweet 1):

**Formula:** Bold claim/question + promise + thread indicator

#### Examples:

"I made \$100K in 6 months with 0 followers.

Here's the exact playbook I used (and you can steal it): 🧵"

"Everyone says [common advice].

They're wrong. Here's why + what to do instead: 🧵 "

"The best business advice I ever got came from a [unexpected source].

This one insight changed everything: 🧵 "

### **Content Tweets (2-N-1):**

#### **Pacing Strategy:**

Each tweet should:

- Build on previous
- Create gap for next
- Standalone value
- Stay on topic

#### **Example 10-Tweet Thread Structure:**

**Tweet 1:** Hook (promise value) **Tweet 2:** Context/setup **Tweet 3:** Point 1 **Tweet 4:** Example for Point 1 **Tweet 5:** Point 2 **Tweet 6:** Example for Point 2 **Tweet 7:** Point 3 **Tweet 8:** Example for Point 3 **Tweet 9:** Key takeaway/lesson **Tweet 10:** CTA

#### **Writing Each Tweet:**

##### **Use:**

- Line breaks for readability
- Numbers for lists
- Bold claims
- Specific details
- Conversational tone

##### **Avoid:**

- Jargon
- Multiple ideas per tweet
- Filler tweets
- Overly formal language

### **PHASE 3: Engagement Optimization**

#### **The Hook Tweet:**

Test these formulas:

- "I [impressive result]. Here's how: 🧵 "
- "Everyone thinks [X]. Here's the truth: 🧵 "
- "[Number] lessons from [experience]: 🧵 "

- "The [thing] nobody tells you about [topic]: 🧵"

### **CTA Tweet:**

**Effective CTAs:** "Found this valuable?"

1. Follow me @[handle] for more
2. Retweet the first tweet to share
3. Reply with your biggest takeaway"

**Weak CTAs:** "Thanks for reading!" (no ask)

### **Thread Formatting:**

**Number your tweets (optional):** "1/ Hook" "2/ Point one" "3/ Point two"

Or use natural flow without numbers.

**Hashtags:** 1-2 relevant hashtags max Place in final tweet, not throughout

**Tagging:** Tag mentioned people/brands Increases reach + engagement

### **Example Thread (Productivity):**

**Tweet 1:** "I wasted 3 years trying every productivity system.

None worked until I built my own.

Here's the 3-part framework that actually stuck: 🧵 "

**Tweet 2:** "The problem with most productivity advice:

It assumes you're a robot who can follow rigid systems.

You're not. You're human.

And you need a system that works WITH your brain, not against it."

**Tweet 3:** "Part 1: Capture Everything (The Brain Dump)

Your brain is for thinking, not storing.

Every morning, spend 5 minutes writing down everything on your mind.

Tasks, worries, ideas - all of it."

**Tweet 4:** "Why this works:

Once it's written, your brain stops using energy to remember it.

You can focus on doing instead of remembering.

I use a simple notes app. Nothing fancy needed."

**Tweet 5:** "Part 2: The 3-3-3 Method

Every day: → 3 hours on your most important project → 3 shorter tasks → 3 maintenance activities

That's it. No 20-item to-do lists."

**Tweet 6:** "Why this works:

1 big thing + a few small things = progress without overwhelm.

Most days, I only complete 2 of the 3 shorts tasks.

That's fine. The big 3 hours is what matters."

**Tweet 7:** "Part 3: The Weekly Reset

Friday afternoon: Review what worked, what didn't.

Sunday evening: Plan next week's focus.

No system survives without maintenance."

**Tweet 8:** "Why this works:

You're not married to the system.

You adjust it every week based on reality.

It evolves with you."

**Tweet 9:** "The result after 6 months:

→ Finished 2 major projects → Reduced stress significantly

→ Stopped feeling guilty about productivity

Not because I did more.

Because I stopped trying to do everything."

**Tweet 10:** "The lesson:

The best productivity system is the one you'll actually use.

Start simple. Adjust weekly. Be human.

Found this helpful? → Follow @[handle] for more → RT the first tweet → Reply: What's your #1 productivity struggle?"

---

👉 STOP COPYING HERE

---

## 🧠 Strategic Framework

❶ **Hook-First Design:** Invests heavily in tweet 1 quality, knowing most users decide within seconds whether to read.

❷ **One Idea Per Tweet:** Maintains clarity and digestibility across the thread, preventing cognitive overload.

❸ **Engagement Architecture:** Structures CTA to drive specific, measurable actions rather than passive appreciation.

---

---

## 💎 4.2 Twitter/X Single Tweet Generator

🏆 **QUICK ENGAGEMENT** | ★★★★★☆☆ Intermediate | ⌚ 10-15 minutes

---

👉 START COPYING HERE

---

## 📥 Inputs

**Required:**

- **Tweet Purpose:** [Share insight, ask question, spark discussion]
- **Your Niche:** [Topic area]
- **Desired Action:** [Like, retweet, reply, click]

**Optional (Premium):**

- **Specific Angle:** [Contrarian, educational, personal]
- **Trending Topic:** [Can you tie into current events?]

## 🧑‍🎓 Role & Expertise

You are a Twitter/X content strategist who crafts high-engagement single tweets. You understand the character limit constraint, the power of concise communication, psychological triggers that drive engagement, and how to make every word count.

## Objective

Create a single tweet that communicates a complete thought clearly, provides value or entertainment, drives specific engagement, fits the 280-character limit, and reflects your brand voice.

## Success Criteria

Before finalizing, verify the tweet:

- ☒ Under 280 characters
- ☒ Complete thought (not vague)
- ☒ Clear value or entertainment
- ☒ Engaging (invites action)
- ☒ On-brand voice

## Execution Mode

### PHASE 1: Tweet Formulas

**The Insight Tweet:** [Observation] → [Why it matters] → [What to do]

Example: "Most people spend 3 hours planning a vacation and 0 hours planning their week.

Fix this and your productivity doubles."

**The Question Tweet:** [Thought-provoking question] + [Context if needed]

Example: "If you couldn't fail, what would you build?

(The answer is probably what you should be working on.)"

**The Story Tweet:** [Mini story] → [Lesson]

Example: "Client: 'Can you do it cheaper?' Me: 'I can do it worse for less.' Client: *hired us at full rate*

Lesson: Never apologize for your value."

**The List Tweet:** [Number] [Things] about [Topic]: → Point 1 → Point 2 → Point 3

Example: "3 emails that always work:

→ 'Loved your [specific thing]' → 'Quick question about [their expertise]' → 'Thought you'd find this interesting: [value]'

Bonus: All under 50 words."

**The Contrarian Tweet:** [Common belief] is wrong. [Better approach]

Example: "'Follow your passion' is terrible advice.

Better: Build skills that create value, then find passion in mastery."

## PHASE 2: Tweet Techniques

**Power Words:** Use words that create emotion or action:

- Revealing, shocking, surprising
- Simple, easy, quick
- Proven, tested, guaranteed
- Secret, hidden, unknown

**Pattern Breaks:** Use formatting to stand out:

- Line breaks
- Arrows (→)
- Numbers
- Parentheses for asides

**Curiosity Gaps:** Start strong, deliver answer: "The best productivity hack I know:

[Answer]"

## PHASE 3: Engagement Drivers

**For Replies:** Ask specific questions: "What's your [specific thing]?" "Am I missing anything?" "Which one resonates most?"

**For Retweets:** Make it quotable or actionable: "[Insight they'd want to share]"

**For Likes:** Relatable or valuable: "[Something they agree with]"

**Timing:** Best times for engagement:

- Weekdays: 9 AM, 12 PM, 5 PM
- Test your audience

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

❶ **Character Economy:** Maximizes value delivered within the 280-character constraint through precise language.

❷ **Standalone Completeness:** Ensures each tweet is a complete thought that provides value independently.

❸ **Engagement Triggers:** Builds in psychological hooks that naturally encourage specific actions.

---

## 4.3 Twitter/X Reply Strategy

🏆 **VISIBILITY BUILDER** | ★★☆☆☆ Intermediate | ⌚ 10-15 minutes

---

---

👉 START COPYING HERE

---

---

### Inputs

**Required:**

- **Your Expertise:** [What value can you add?]
- **Target Accounts:** [Whose tweets should you reply to?]
- **Time Available:** [Minutes per day?]

**Optional (Premium):**

- **Hot Topics:** [Trending conversations in your niche?]
- **Key Connections:** [Specific people to engage with?]

### Role & Expertise

You are a Twitter/X engagement strategist who uses strategic replies to build visibility and authority. You understand that thoughtful replies are discovery tools that attract profile visits, followers, and establish you as a valuable voice in conversations.

### Objective

Create a reply strategy that adds genuine value to conversations, showcases your expertise naturally, attracts profile visits and follows, builds relationships with key accounts, and increases your visibility on the platform.

## Success Criteria

Before finalizing, verify replies:

- ☒ Add substantial value (not generic)
- ☒ Show expertise or unique angle
- ☒ Respectful and constructive
- ☒ Concise but meaningful
- ☒ Natural, not forced

## Execution Mode

### PHASE 1: Strategic Reply Approach

#### Why Reply:

- High visibility (seen by tweet author + their audience)
- Relationship building
- Authority demonstration
- Profile visits from interested readers
- No character limit pressure

#### Who to Reply To:

##### Tier 1: Large Accounts (100K+)

- High visibility potential
- Less likely to respond back
- Reply early for visibility
- Add unique perspective

##### Tier 2: Mid Accounts (10K-100K)

- Good visibility + engagement
- More likely to notice you
- Sweet spot for growth

##### Tier 3: Peers (Similar size)

- Most likely to engage back
- Build mutual relationships
- Support each other's growth

**Strategy:** Mix all three, focus on Tier 2-3.

### PHASE 2: Reply Types

**The Value-Add Reply:** "Great point! I'd add that [your insight]."

In my experience with [context], [specific example] made the difference."

**The Experience Share:** "This happened to me last year."

What worked: [specific tactic]

What didn't: [lesson learned]"

**The Constructive Addition:** "Love this. One thing I've found helpful:

[Complementary tip]

Works especially well when [specific scenario]."

**The Question Reply:** "Interesting! Have you tried [alternative approach]?"

I've seen it work well for [specific case]."

**DON'T Reply:**

- "Great tweet!" ❌
- "This!" ❌
- One word responses ❌
- Self-promotional pitches ❌
- Argumentative without value ❌

### **PHASE 3: Reply Routine**

**Daily Routine (20 minutes):**

**10 minutes:** Reply to 5-7 relevant tweets

- Check notifications
- Browse timeline
- Search hot topics in your niche

**10 minutes:** Engage with replies to YOUR tweets

- Build relationships
- Continue conversations
- Thank thoughtful responders

**Best Times:**

- Reply early on viral tweets (first hour)
- Engage during peak hours
- Consistency > volume

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Replies as Discovery:** Treats replies as opportunities for new audiences to discover you through value-adding contributions.

❷ **Relationship Building:** Balances visibility-seeking (large accounts) with genuine relationship-building (peers).

❸ **Value-First Always:** Ensures every reply adds substance, making profile visits worthwhile.

## 💎 4.4 Twitter/X Profile Optimization

🏆 **FIRST IMPRESSION** | ★★☆☆☆ Beginner | ⌚ 10 minutes

---

👉 START COPYING HERE

---

## 📦 Inputs

**Required:**

- **What You Do:** [Your expertise/niche]
- **Who It's For:** [Target audience]
- **Main Value:** [What do you provide?]

**Optional (Premium):**

- **Social Proof:** [Followers, clients, achievements?]
- **Personality:** [Unique angle or trait?]

## 🧑‍🔬 Role & Expertise

You are a Twitter/X profile strategist who optimizes profiles for follower conversion. You understand the 160-character bio limit, the importance of clarity, the power of social proof, and how to communicate value instantly when someone visits your profile.

## **Objective**

Write a Twitter/X bio that immediately communicates what you do, who it's for, and why someone should follow, all within 160 characters while reflecting your personality.

## **Success Criteria**

Before finalizing, verify the bio:

- ☒ Clear what you do
- ☒ States who it's for or what value you provide
- ☒ Under 160 characters
- ☒ Has personality
- ☒ Includes relevant keywords for search

## **Execution Mode**

### **PHASE 1: Bio Formula**

**160 characters. Every one counts.**

**Formula:** [WHO YOU HELP] → [WHAT YOU DO] → [RESULT/PROOF]

#### **Examples:**

"Helping founders scale to 7 figs | Built 3 companies | Sharing what works (and what doesn't)"

"Teaching creators to monetize | 100K+ students | Former teacher turned \$1M/yr creator"

"Marketing for B2B SaaS | Ex-Google | Writing about growth every day"

### **PHASE 2: Key Elements**

**Line 1: WHO + WHAT** Be specific about your expertise

**Line 2: CREDIBILITY/PROOF** Social proof, past experience, results

**Line 3: CONTENT PROMISE** What followers get from you

#### **Profile Extras:**

##### **Location:**

- City if local business
- "Remote" or "Worldwide" if global

- Can use for personality ("Internet" or "🌐")

#### Website:

- Your main link
- Newsletter signup
- Link-in-bio tool

#### Pinned Tweet:

- Your best performing tweet
- Thread introducing you
- Current focus/offer

#### Header Image:

- Visual representation of brand
- Not just a photo
- Can include text/value prop

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

- ❶ **Character Precision:** Delivers maximum value within Twitter's 160-character bio limit.
- ❷ **Instant Clarity:** Ensures visitors understand value within 2 seconds of profile visit.
- ❸ **Searchability:** Includes keywords that help the right people discover the profile.

## 💎 4.5 Twitter/X Spaces Planning

🏆 **LIVE ENGAGEMENT** | ★★★★★ ☆ Advanced | 🕒 20-25 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **Space Topic:** [Discussion subject]
- **Duration:** [30 min, 1 hour, 2 hours?]
- **Format:** [Interview, panel, AMA, discussion]
- **Goal:** [Community building, authority, promotion]

### Optional (Premium):

- **Co-hosts/Guests:** [Who will join?]
- **Promotion Plan:** [How will you get listeners?]

## Role & Expertise

You are a Twitter/X Spaces strategist who plans engaging audio conversations. You understand the live audio format, how to moderate discussions effectively, how to maintain listener engagement, and how to convert Space attendees into followers and community members.

## Objective

Plan a Twitter Space that attracts listeners, maintains engagement throughout, delivers value or entertainment, encourages audience participation, and converts listeners into followers.

## Success Criteria

Before finalizing, verify the plan:

- ☒ Clear, compelling topic
- ☒ Structured flow (not aimless)
- ☒ Audience participation opportunities
- ☒ Promotion strategy
- ☒ Follow-up plan

## Execution Mode

### PHASE 1: Spaces Strategy

#### Why Host Spaces:

- Real-time community building
- Deep conversations
- Authority establishment
- Networking opportunities
- High engagement format

## **Space Types:**

**AMA (Ask Me Anything):** You answer audience questions

**Interview:** One-on-one conversation with guest

**Panel Discussion:** Multiple experts discussing topic

**Workshop/Tutorial:** Teaching specific skill live

**Networking:** Open conversation for community

## **PHASE 2: Structure Planning**

### **Pre-Space (1-2 hours before):**

#### **Promotion:**

- Tweet about it 24 hours before
- Reminder tweet 1 hour before
- Tag co-hosts/guests
- Pin the announcement

### **Opening (First 10 minutes):**

**Welcome:** "Hey everyone! Thanks for joining. We're talking about [topic] today.

I'm [name], [credentials].

If you're just joining, drop a 🙋 in the chat or request to speak."

**Set Expectations:** "Here's what we'll cover: → [Point 1] → [Point 2] → [Point 3]

We'll take questions at the end."

### **Middle (Main Content):**

#### **Keep Energy Up:**

- Call on audience members
- Rotate speakers if panel
- Address chat comments
- Take breaks in long Spaces

### **Audience Participation:**

- "Who wants to share their experience?"
- "Bring [username] up to speak"
- Read interesting chat messages

### **Closing (Last 10 minutes):**

**Recap:** "Great conversation! Key takeaways: → [Point 1] → [Point 2] → [Point 3]"

**CTA:** "If you found this valuable: → Follow the speakers → Turn on notifications for future Spaces → Share this Space"

Thanks everyone!"

### **PHASE 3: Engagement Tactics**

#### **Before Space:**

- Announce early
- Build anticipation
- Line up guests/questions

#### **During Space:**

- Welcome people by name
- Bring listeners on stage
- Respond to chat
- Keep it conversational

#### **After Space:**

- Tweet highlights
- Thank participants
- Follow up with connections
- Schedule next Space

---

---

👉 STOP COPYING HERE

---

---

### **Strategic Framework**

**① Structure Over Chaos:** Plans clear flow while allowing spontaneity, preventing aimless conversation.

**② Participation Design:** Builds in audience interaction opportunities that create investment and engagement.

**③ Conversion Focus:** Treats Spaces as top-of-funnel for building lasting connections and followers.

---

## 4.6 Twitter/X List Strategy

 **CURATION TOOL** | ★★☆☆☆ Intermediate | ⌚ 15 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

#### **Required:**

- **List Purpose:** [Why create this list?]
- **List Topic:** [What's the theme?]
- **Privacy:** [Public or private?]

#### **Optional (Premium):**

- **Specific Accounts:** [Who should be included?]
- **Update Frequency:** [How often will you maintain it?]

### **Role & Expertise**

You are a Twitter/X list strategist who uses curated lists for content discovery and relationship building. You understand how lists help manage information overload, how public lists can attract follows, and how to organize accounts strategically.

### **Objective**

Create a Twitter list strategy that helps you discover quality content efficiently, builds relationships with list members, provides value to others if public, and organizes your feed strategically.

### **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Clear list purpose and criteria
- ☒ Appropriate privacy setting
- ☒ Regular maintenance plan
- ☒ Value for you and others
- ☒ Reasonable list size (50-200 accounts)

### **Execution Mode**

## **PHASE 1: List Strategy**

### **Public Lists:**

#### **Purpose:**

- Share curated expertise
- Build goodwill (people appreciate being included)
- Attract follows from list members
- Position yourself as curator

#### **Examples:**

- "Top [Niche] Experts"
- "[Topic] Thought Leaders"
- "People Who Actually Know [Subject]"

### **Private Lists:**

#### **Purpose:**

- Organize your information intake
- Monitor specific accounts
- Competitive research
- VIP connections

#### **Examples:**

- Clients
- Competitors
- Industry news sources
- Inspiration accounts

## **PHASE 2: List Categories**

### **Create These Lists:**

**"Daily Check" (Private):** Must-read accounts (10-20) Check every day

**"Industry News" (Private/Public):** News sources in your niche (20-30)

**"Peers" (Private):** Accounts your size to engage with (30-50)

**"Thought Leaders" (Public):** Best voices in your space (30-50) Share with audience

**"Inspiration" (Private):** Accounts that inspire you (20-30) Any topic

**"Potential Clients" (Private):** Prospects to engage with

## **PHASE 3: List Management**

### Adding to Lists:

- Quality over quantity
- Review before adding
- Check their recent tweets
- Ensure they're active

### Maintenance:

- Review quarterly
- Remove inactive accounts
- Add new discoveries
- Keep lists relevant

**Public List Promotion:** "I created a list of the best [niche] accounts on Twitter.

Check it out: [link]

Who am I missing?"

### List Etiquette:

- People get notified when added to public lists
- Use respectful list names
- Don't add people to controversial lists
- Update descriptions clearly

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

**① Information Management:** Uses lists to cut through noise and focus on highest-value accounts.

**② Relationship Building:** Leverages public lists to build goodwill and attract attention from included members.

**③ Strategic Organization:** Separates different types of accounts for different consumption purposes.

---

---

## 4.7 Twitter/X Analytics & Growth

 **DATA-DRIVEN GROWTH** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

👉 START COPYING HERE

---

### Inputs

#### Required:

- **Current Metrics:** [Followers, engagement rate, etc.]
- **Growth Goal:** [Specific target?]
- **Time Period:** [Analyzing what timeframe?]

#### Optional (Premium):

- **Top Tweets:** [What's performed best?]
- **Baseline:** [Starting point for comparison?]

### Role & Expertise

You are a Twitter/X analytics specialist who translates data into growth strategies. You understand which metrics matter for Twitter growth, how to identify patterns in high-performing content, and how to optimize based on data rather than assumptions.

### Objective

Analyze Twitter/X performance data to identify what's working, patterns in successful tweets, opportunities for improvement, and create a data-driven optimization plan for growth.

### Success Criteria

Before finalizing, verify the analysis:

- ☒ Clear patterns identified
- ☒ Specific optimizations recommended
- ☒ Measurable goals set
- ☒ Action plan created
- ☒ Based on actual data

### Execution Mode

#### PHASE 1: Key Metrics

**Follower Growth Rate:**  $(\text{New followers} / \text{Total followers}) \times 100$  Track monthly

**Engagement Rate:**  $(\text{Likes} + \text{RTs} + \text{Replies}) / \text{Impressions}$  Goal: 2-5% is good

**Profile Visits:** How many check your profile Indicator of interest

**Link Clicks:** If driving traffic Conversion metric

**Tweet Performance:** Which tweets drive growth? Analyze top 20

## **PHASE 2: Pattern Analysis**

### **Analyze Top 20 Tweets:**

**What do they have in common?**

- Length (short vs long)
- Format (thread vs single)
- Topic/angle
- Time posted
- Media included?
- Tone/voice

### **Example Findings:**

"My top tweets: → 90% are threads → 80% posted 9-11 AM → 70% share personal stories → 60% include specific numbers

Action: Create more story-based threads in morning hours."

### **Compare to Low Performers:**

What didn't work?

- Topics that flopped
- Formats to avoid
- Times that underperformed

## **PHASE 3: Optimization Plan**

### **Based on Data:**

**Double Down:** More of what works [Specific content types]

**Test:** New variations [Experiments to run]

**Stop:** What's not working [Time wasters]

### **Growth Tactics:**

### **Content:**

- Post [X] threads per week
- [X] single tweets per day
- Focus on [topics]

#### Engagement:

- Reply to [X] tweets daily
- Engage with [specific accounts]
- Spend [X] minutes in replies

#### Optimization:

- Test posting times
- Experiment with formats
- Track what converts to follows

#### Monthly Review:

- Follower growth
- Top performing tweets
- Engagement trends
- Adjust strategy

---

---

👉 STOP COPYING HERE

---

---

### Strategic Framework

- ❶ **Data-Driven Decisions:** Replaces guessing with systematic analysis of actual performance patterns.
- ❷ **Pattern Recognition:** Identifies what consistently works to create repeatable growth formulas.
- ❸ **Continuous Optimization:** Uses testing and iteration to improve performance over time.

## SECTION 5: Facebook Content

### 6 Prompts for Facebook Engagement & Community

Facebook remains powerful for community building, local businesses, and long-form engagement. These prompts help you create content that builds genuine communities, drives meaningful conversations, and leverages Facebook's unique strengths.

---

### 5.1 Facebook Group Engagement Strategy

 **COMMUNITY BUILDER** | ★★★★★☆ Advanced | ⌚ 25-30 minutes

---

 START COPYING HERE

---

#### Inputs

##### Required:

- **Group Purpose:** [What brings members together?]
- **Target Members:** [Who is this group for?]
- **Engagement Goals:** [Active discussions, support, networking?]
- **Group Size:** [Current member count or target]

##### Optional (Premium):

- **Content Pillars:** [Key topics to cover?]
- **Rules/Guidelines:** [Community standards?]
- **Monetization:** [Free, paid, or lead generation?]

#### Role & Expertise

You are a Facebook Group strategist who builds engaged communities. You understand the psychology of online communities, how to spark meaningful discussions, moderation best practices, and how to create value that keeps members active and attracts new ones.

#### Objective

Create a Facebook Group strategy that fosters genuine engagement, provides consistent value to members, maintains positive community culture, scales without losing intimacy, and serves your business goals.

## **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Clear group purpose and rules
- ☒ Regular engagement prompts
- ☒ Moderation plan
- ☒ Content calendar
- ☒ Growth and retention tactics

## **Execution Mode**

### **PHASE 1: Group Foundation**

#### **Group Description:**

Clear value proposition in first 2 lines.

**Example:** "A community for [target audience] who want to [goal].

We share [type of content], support each other with [challenges], and celebrate [wins].

No spam. No pitching. Just genuine community."

#### **Membership Questions:**

3-5 questions to qualify members:

1. "What brings you to this group?"
2. "What's your biggest challenge with [topic]?"
3. "Will you engage positively and support others?" (Yes/No)
4. "I agree to the group rules" (Yes/No)
5. "How did you hear about us?" (Optional, for tracking)

#### **Group Rules:**

Post clearly, pin to top.

#### **Example Rules:**

1. Be respectful and supportive
2. No spam or self-promotion without permission
3. Keep posts relevant to [topic]
4. Ask before sharing links
5. Report rule violations to moderators

### **PHASE 2: Engagement Strategy**

#### **Weekly Content Structure:**

**Monday:** Discussion Starter "What's your biggest win from last week?"

**Tuesday:** Educational Post Share tips, strategies, resources

**Wednesday:** Question Day "What's your #1 question about [topic]?"

**Thursday:** Case Study/Story Real examples, success stories

**Friday:** Weekly Wins Celebrate member achievements

**Weekend:** Light Engagement Fun polls, off-topic discussions

### **Post Formulas:**

**Discussion Starter:** "Quick poll: [Question]

Option A: [Choice] Option B: [Choice] Option C: [Choice]

Drop your answer + why in the comments!"

**Value Post:** "[Number] tips for [outcome]:

1. [Tip with brief explanation]
2. [Tip with brief explanation]
3. [Tip with brief explanation]

Which one are you trying first?"

**Community Question:** "I want to create content you actually need.

What's the ONE thing you're struggling with most right now with [topic]?

Comment below - I'll address the most common issues this week."

**Success Story:** "[Member name] just [achievement]! 🎉

Here's how they did it:

[Brief story]

[Member], what advice would you give someone starting where you were?

Drop your questions for [Member] below!"

### **PHASE 3: Growth & Retention**

#### **Growth Tactics:**

##### **Organic:**

- Share valuable posts publicly (drive group joins)
- Encourage members to invite friends

- Cross-promote in relevant spaces
- Create shareable resources

### **Retention:**

**Welcome New Members:** "Welcome [Names]! 🙌"

Tell us:

1. Where you're from
2. What you do
3. What you hope to get from this group

Can't wait to get to know you!"

### **Recognize Active Members:**

- Spotlight helpful members
- Give badges/roles
- Feature success stories
- Thank regular contributors

### **Moderate Effectively:**

#### **Red Flags:**

- Spam or constant self-promotion
- Disrespectful comments
- Off-topic posts
- Asking for money/donations
- Multiple rule violations

**Warning** → **Mute** → **Ban** process.

### **Keep Momentum:**

#### **If Engagement Drops:**

- Ask direct questions
- Start controversial (but respectful) discussions
- Host live Q&As
- Create challenges or events
- Survey members on what they want

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

- ❶ **Purpose-Driven Community:** Builds around clear shared goal, not just topic, creating genuine belonging.
  - ❷ **Consistent Value Delivery:** Establishes regular patterns that train members when to engage.
  - ❸ **Member-First Moderation:** Protects community culture while allowing authentic expression.
-

## 5.2 Facebook Ad Copy Creator

 **CONVERSION DRIVER** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

 **START COPYING HERE**

---

---

## Inputs

### Required:

- **Product/Service:** [What are you selling?]
- **Target Audience:** [Who needs this?]
- **Main Benefit:** [Primary value proposition]
- **Ad Goal:** [Awareness, consideration, conversion]

### Optional (Premium):

- **Unique Angle:** [What makes you different?]
- **Objections:** [Common hesitations?]
- **Social Proof:** [Testimonials, results?]

## Role & Expertise

You are a Facebook Ads copywriter who creates high-converting ad copy. You understand the Facebook ad format limitations, attention economics on the platform, how to match copy to ad objectives, and the psychology of moving people from scroll to click.

## **Objective**

Write Facebook ad copy that stops the scroll immediately, communicates value clearly and quickly, addresses objections preemptively, drives desired action, and works within Facebook's ad policies.

## **Success Criteria**

Before finalizing, verify the ad:

- ☒ Hook grabs attention (first line)
- ☒ Clear benefit stated
- ☒ Strong CTA
- ☒ Compliant with Facebook policies
- ☒ Matches ad objective

## **Execution Mode**

### **PHASE 1: Facebook Ad Structure**

#### **Ad Components:**

**Primary Text (125 characters visible):** First line is EVERYTHING. Hook must work before "...see more"

**Headline (40 characters max):** Clear, benefit-driven

**Description (30 characters max):** Supporting detail

**CTA Button:** Learn More, Shop Now, Sign Up, etc.

### **PHASE 2: Hook Formulas**

**The Problem Hook:** "Still struggling with [pain point]?"

**The Benefit Hook:** "Get [desired outcome] in [timeframe]"

**The Curiosity Hook:** "The [thing] nobody tells you about [topic]"

**The Social Proof Hook:** "[Number] people already [achieved result]"

**The Question Hook:** "What if you could [desired outcome] without [pain point]?"

#### **Example Ad (E-commerce):**

**Primary Text:** "Tired of uncomfortable shoes that look great but hurt after 2 hours?"

Our customers call these 'finally, shoes I can wear all day.'

Designed by a podiatrist. Tested by real women. Backed by 10,000+ 5-star reviews.

No break-in period. No blisters. Just all-day comfort that looks professional.

Try them risk-free for 30 days. Free returns if they're not perfect.

→ Shop the collection"

**Headline:** All-Day Comfort Meets Professional Style

**Description:** Free shipping + 30-day returns

**CTA Button:** Shop Now

### PHASE 3: Ad Copy by Objective

**Awareness (Top of Funnel):** Focus: Education, problem identification

"Did you know [surprising fact about their problem]?"

Here's what most people don't realize about [topic]...

[Brief education]

Want to learn more? Download our free guide."

**Consideration (Middle of Funnel):** Focus: Solution demonstration, differentiation

"Looking for [solution type]?"

Most [products] do [common approach].

Ours works differently:

→ [Benefit 1] → [Benefit 2] → [Benefit 3]

See why [number] switched to us."

**Conversion (Bottom of Funnel):** Focus: Urgency, offer, CTA

"Ready to [achieve outcome]?"

Get [product] today: ✓ [Benefit] ✓ [Benefit]  
✓ [Benefit]

[Offer/Urgency] [Strong CTA]"

### Common Mistakes:

✗ Too much text (keep it scannable) ✗ Weak first line ✗ Multiple CTAs (confusing) ✗ No clear benefit ✗ Breaking Facebook policies

### Facebook Ad Policies:

Avoid:

- Exaggerated claims
- "You" language in some contexts
- Before/after images (sometimes)
- Targeting health conditions explicitly
- Misleading content

Always check current policies at [facebook.com/policies/ads](https://facebook.com/policies/ads)

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Scroll-Stopping Priority:** Invests heavily in first-line hook, knowing most users never expand.

❷ **Objective Alignment:** Matches copy style and CTA to where audience is in the customer journey.

❸ **Policy Compliance:** Navigates Facebook's ad policies to avoid rejection and wasted spend.

---

---

## 💎 5.3 Facebook Video Post Script

🏆 **NATIVE VIDEO** | ★★☆☆☆ Intermediate | ⌚ 20 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

Required:

- **Video Topic:** [What are you sharing?]
- **Video Length:** [1-3 min, 5 min, 10+ min?]

- **Purpose:** [Educate, entertain, inspire, sell]

### Optional (Premium):

- **Style:** [Talking head, demo, storytelling?]
- **CTA:** [What should viewers do?]

## **Role & Expertise**

You are a Facebook video content strategist who creates native video scripts. You understand Facebook's algorithm preference for video, the importance of captions for silent viewing, how to maintain watch time, and how to drive engagement through video content.

## **Objective**

Create a Facebook video script that hooks viewers in 3 seconds, maintains engagement throughout, delivers clear value, works with sound off (captions), and drives desired action.

## **Success Criteria**

Before finalizing, verify the script:

- ☒ Strong visual/textual hook
- ☒ Clear structure and pacing
- ☒ Designed for silent viewing
- ☒ Delivers promised value
- ☒ Ends with clear CTA

## **Execution Mode**

### PHASE 1: Facebook Video Strategy

#### Why Video on Facebook:

- Algorithm favors native video
- Higher engagement than images
- Better reach
- More shareable
- Great for storytelling

#### Key Differences from Other Platforms:

- Longer attention span than TikTok
- Desktop + mobile viewing
- Sound often OFF
- More room for depth

**Critical: Captions Required** 85% watch without sound

## PHASE 2: Script Structure

### [0-3 seconds] Visual Hook:

Text overlay or compelling visual that communicates topic.

**Example Text Overlays:** "This mistake costs businesses \$50K/year" "The truth about [topic] nobody talks about" "I tried [thing] for 30 days. Here's what happened"

### [3-15 seconds] Context:

Set up the topic/problem.

**Script:** "Hi, I'm [Name]. I [credential].

Today I'm sharing [what you'll learn] because [why it matters]."

### [15-90 seconds] Main Content:

Deliver the value.

**For Tutorial:** "Step 1: [Action] Here's exactly what to do... [demonstration]

Step 2: [Action]

Now, [explanation]..."

**For Story:** "Last month, [situation].

I was [context].

Then, [turning point].

Here's what I learned..."

### [90-120 seconds] Conclusion:

Recap + CTA.

**Script:** "So to recap: → [Point 1] → [Point 2] → [Point 3]

If you found this helpful, give it a share.

Drop questions in the comments.

For more [topic] content, follow this page!"

## PHASE 3: Production Notes

### For Talking Head:

- Look at camera
- Good lighting

- Clean background
- Energetic delivery
- Use hands/expressions

#### **Text Overlays:**

- Large, readable font
- High contrast
- Key points on screen
- Animate for attention

#### **B-Roll:**

- Show what you're explaining
- Screen recordings
- Product demos
- Relevant visuals

#### **Caption Strategy:**

**Post Caption (above video):** "[Hook or question]"

[2-3 sentences expanding on video topic]

[Emoji] Watch the video for [specific benefit]

[CTA] Like if you agree, comment your thoughts!"

---

---

👉 STOP COPYING HERE

---

---

#### **Strategic Framework**

**① Silent-First Design:** Assumes no audio through text overlays and captions, capturing 85% of viewers.

**② Native Upload Priority:** Uploads directly to Facebook rather than linking, maximizing algorithm favor.

**③ Value-Density Balance:** Delivers concentrated value while allowing for longer format than TikTok.

---

---

## 5.4 Facebook Event Promotion

 **EVENT MARKETING** |  Intermediate |  15-20 minutes

---

 START COPYING HERE

---

### Inputs

#### Required:

- **Event Type:** [Webinar, workshop, sale, launch, physical event]
- **Event Date:** [When is it?]
- **Target Audience:** [Who should attend?]
- **Main Benefit:** [Why attend?]

#### Optional (Premium):

- **Early Bird:** [Special pricing or incentive?]
- **Urgency:** [Limited spots, deadline?]
- **Social Proof:** [Past attendance, testimonials?]

### Role & Expertise

You are a Facebook event marketing strategist who drives event attendance. You understand how to use Facebook Events feature effectively, how to build anticipation through a promotion sequence, and how to convert interest into actual attendance.

### Objective

Create a Facebook event promotion strategy that builds awareness and interest, converts interest to RSVPs, reminds and confirms attendance, and maximizes show-up rate for the event.

### Success Criteria

Before finalizing, verify the strategy:

- ☒ Clear event value proposition
- ☒ Multi-touchpoint promotion plan
- ☒ Anticipation-building content
- ☒ Reminder sequence
- ☒ Post-event follow-up

### Execution Mode

## PHASE 1: Event Setup

### Facebook Event Page:

**Event Name:** Clear + benefit-driven

Examples: ✓ "Free Webinar: 3 Strategies to Double Your Sales" ✗ "Our Monthly Training Session"

### Description:

"[EVENT NAME]

 [Date and Time + Timezone]  [Location or Online Platform]

[2-3 sentences: What is it and why attend?]

You'll learn: → [Specific takeaway 1] → [Specific takeaway 2] → [Specific takeaway 3]

Who should attend: [Target audience description]

Spots are limited! Click 'Interested' to save your spot."

**Cover Photo:** Eye-catching design with:

- Event name
- Date/time
- Key benefit
- Your branding

## PHASE 2: Promotion Timeline

**4 Weeks Before:** Announcement post

"Excited to announce: [Event Name]!"

[Brief description + main benefit]

Mark your calendar: [Date]

Click 'Interested' on the event to get reminders → [Event Link]"

**3 Weeks Before:** Value preview

"At [Event], we're covering [specific topic].

Here's a quick preview: [Mini tip or insight]

Want the full breakdown? Join us [Date] → [Link]"

**2 Weeks Before:** Social proof

"Already [Number] people registered for [Event]!"

Here's what [Name] said about our last event: '[Testimonial]'

Spots are filling up → [Link]"

### **1 Week Before: Urgency**

"Only 7 days until [Event]!"

[Number] spots left. Don't miss: → [Benefit 1] → [Benefit 2]  
→ [Benefit 3]

Reserve your spot → [Link]"

### **1 Day Before: Final reminder**

"Tomorrow! [Event Name]

Last chance to join [Number] people learning [topic].

See you there → [Link]"

### **Day Of (2 hours before): "Starting in 2 hours!**

[Event Name] begins at [Time].

Click here to join: [Link]

See you soon! 🙌"

## **PHASE 3: Maximizing Attendance**

### **Post-RSVP Engagement:**

Create event posts (visible to attendees):

**Week Before:** "Can't wait to see you at [Event]!"

Quick question: What's your #1 goal for attending?"

**Day Before:** "Tomorrow! Here's what to prepare: → [Any materials needed] → [Where to join] → Have questions ready

See you there!"

**After Event:** Thank you post

"Wow! Thank you to everyone who joined [Event]!"

[Key highlight or win]

Couldn't make it? [Replay link or next event]

Stay tuned for our next event: [Preview]"

---

---

👉 STOP COPYING HERE

---

---

---

## 🧠 Strategic Framework

❶ **Multi-Touch Awareness:** Uses systematic promotion schedule to build momentum and reach people at different awareness stages.

❷ **RSVP to Attendance Bridge:** Focuses on converting interest to actual show-up through reminders and engagement.

❸ **Event as Funnel:** Treats event as content marketing tool that builds audience and opportunities.

---

---

## 💎 5.5 Facebook Business Page Strategy

🏆 **BUSINESS PRESENCE** | ★★★★★☆ Advanced | ⌚ 25-30 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

### Required:

- **Business Type:** [Product, service, local, online]
- **Target Audience:** [Who are your customers?]
- **Main Goals:** [Awareness, leads, sales, support]

### Optional (Premium):

- **USP:** [What makes you different?]
- **Content Resources:** [Can you create regular content?]

- **Budget:** [For ads?]

## **Role & Expertise**

You are a Facebook Business Page strategist who builds effective business presence. You understand the difference between personal and business pages, how to drive organic reach despite algorithm changes, and how to convert page followers into customers.

## **Objective**

Create a Facebook Business Page strategy that builds relevant following, drives meaningful engagement, supports business goals, and balances organic and paid tactics.

## **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Complete page optimization
- ☒ Content mix strategy
- ☒ Engagement plan
- ☒ Conversion focus
- ☒ Measurement framework

## **Execution Mode**

### **PHASE 1: Page Optimization**

#### **About Section:**

Clear, keyword-rich description.

"[Business Name] helps [target audience] [achieve goal].

We [what you do] so you can [benefit].

[Social proof: Years in business, customers served, awards]

 [Location if applicable]  [Contact info]  [Website]"

#### **CTA Button:**

Choose based on goal:

- Shop Now (e-commerce)
- Book Now (service)
- Contact Us (B2B)
- Sign Up (subscriptions)
- Learn More (info)

#### **Profile Picture:**

- Logo for businesses
- High resolution
- Recognizable at small size

#### **Cover Photo:**

- Showcases product/service
- Updated seasonally
- Can include current promotion

### **PHASE 2: Content Strategy**

#### **Content Mix (Weekly):**

**3-4 Value Posts:** Tips, how-tos, education

**1-2 Engagement Posts:** Questions, polls, discussions

**1-2 Promotional Posts:** Products, services, offers

**1 Behind-the-Scenes:** Team, process, culture

#### **Content Types:**

**Educational:** "[Number] ways to [achieve goal]:"

1. [Tip with brief explanation]
2. [Tip]
3. [Tip]

Which one are you trying first?"

**Customer Story:** "Meet [Customer Name]!"

They came to us with [problem].

Here's what we did: [Solution]

Result: [Outcome]

[Customer quote]

Ready for similar results? [CTA]"

**Product Showcase:** "[Product Name] is perfect for [specific use case].

Features: ✓ [Benefit 1] ✓ [Benefit 2] ✓ [Benefit 3]

[Social proof or special offer]

[Link to learn more/buy]"

**Behind-the-Scenes:** "Ever wondered how we [process]?"

Here's [Team Member] working on [task].

[Brief story about dedication/quality/values]"

### **PHASE 3: Growth & Engagement**

**Organic Reach (Limited but Possible):**

**What Works:**

- Native video (best reach)
- High engagement in first hour
- Shares from followers
- Conversations in comments
- Timely, relevant content

**What Doesn't:**

- Links (terrible reach)
- Text-only posts
- Promotional content
- Irregular posting

**Paid Strategy:**

Even small budget helps:

- Boost high-performing posts
- Target local area (if applicable)
- Retarget website visitors
- Test different audiences

**Engagement Tactics:**

**Respond Quickly:**

- Comments within 1 hour
- Messages within 24 hours
- Use Messenger for customer service

**Create Conversations:**

- Ask questions in posts
- Reply meaningfully to comments
- Create polls
- Host live Q&As

**Measure & Optimize:**

### Key Metrics:

- Page views
- Reach
- Engagement rate
- Link clicks
- Message response time

**Monthly Review:** What content performed best? When is best time to post? Which posts drove business results?

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

❶ **Value-First Business Presence:** Balances promotional content with genuine value, avoiding "billboard" page syndrome.

❷ **Algorithm-Aware Tactics:** Uses video and engagement-focused content to combat organic reach decline.

❸ **Integrated Strategy:** Combines organic content, paid promotion, and customer service for comprehensive presence.

---

---

## 💎 5.6 Facebook Story Sequence

🏆 **EPHEMERAL CONTENT** | ★★☆☆☆ Intermediate | ⌚ 15 minutes

---

---

👉 START COPYING HERE

---

---

### 📦 Inputs

#### Required:

- **Story Goal:** [Awareness, engagement, sales, traffic]

- **Number of Frames:** [5-10 recommended]
- **Content Type:** [BTS, tutorial, promo, day-in-life]

#### **Optional (Premium):**

- **Interactive Elements:** [Polls, questions, sliders?]
- **Link:** [Where to send traffic?]

### **Role & Expertise**

You are a Facebook Stories strategist who creates engaging ephemeral content. You understand the 24-hour nature of Stories, how to use interactive features, the importance of the first frame, and how to drive action from Story viewers.

### **Objective**

Create a Facebook Story sequence that captures attention immediately, maintains interest across frames, uses interactive features effectively, and drives desired action before the 24-hour expiration.

### **Success Criteria**

Before finalizing, verify the sequence:

- ☒ Strong opening frame
- ☒ Logical progression
- ☒ Uses interactive elements
- ☒ Clear CTA
- ☒ Optimal frame count (not too many)

### **Execution Mode**

#### **PHASE 1: Facebook Stories Strategy**

##### **Why Use Stories:**

- High visibility (top of feed)
- Lower production barrier
- Interactive features
- Disappears (FOMO)
- Direct link option (if eligible)

##### **Frame Timing:**

Each frame: 5 seconds (default) Plan content accordingly

##### **Interactive Features:**

- Polls (A/B choices)

- Questions (open responses)
- Sliders (scale responses)
- Link stickers (drive traffic)
- Mentions (tag people/pages)

## PHASE 2: Story Structures

### Behind-the-Scenes (7 frames):

**Frame 1:** "A day in the life of [your role]" **Frame 2:** Morning routine/setup **Frame 3:** Main work activity **Frame 4:** Challenge or interesting moment **Frame 5:** Solution or outcome **Frame 6:** Key takeaway **Frame 7:** CTA - "Follow for more BTS"

### Tutorial (5-7 frames):

**Frame 1:** "How to [achieve result] in [timeframe]" **Frame 2:** "Step 1: [Action]" + visual **Frame 3:** "Step 2: [Action]" + visual **Frame 4:** "Step 3: [Action]" + visual **Frame 5:** Result/before-after **Frame 6:** Poll: "Did you try it?" **Frame 7:** CTA - "Save this!" or link

### Product Promo (6 frames):

**Frame 1:** Problem statement **Frame 2:** "Here's the solution..." **Frame 3:** Product feature 1 + benefit **Frame 4:** Product feature 2 + benefit **Frame 5:** Social proof or offer **Frame 6:** CTA with link sticker

### Engagement Series (8 frames):

**Frame 1:** "Let's play a game!" **Frame 2:** Poll - "This or that?" **Frame 3:** Results reveal **Frame 4:** Question - "Why did you choose that?" **Frame 5:** Share interesting responses **Frame 6:** Another poll or question **Frame 7:** Results **Frame 8:** "Thanks for playing! Follow for more"

## PHASE 3: Story Best Practices

### Visual Quality:

- Vertical format (9:16)
- Clear, readable text
- Good lighting
- On-brand colors

### Text Overlays:

- Large, legible font
- High contrast
- Brief messages
- Positioned well (not cut off)

### Engagement Tactics:

- Use stickers in middle frames
- Give people reason to respond
- Reply to all responses
- Create conversation

### Posting Strategy:

- Post when audience is active
- Multiple times per day okay
- Use Highlights to save best
- Track completion rate

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

❶ **Ephemeral Urgency:** Leverages 24-hour limit to create FOMO and immediate engagement.

❷ **Interactive Design:** Uses Facebook's Story features to create two-way conversations, not broadcasts.

❸ **Highlights Curation:** Preserves best Stories as permanent content through Highlights feature.

## SECTION 6: YouTube Shorts & Reels

### 6 Prompts for Short-Form Video on YouTube

YouTube Shorts is YouTube's answer to TikTok and Reels, offering unique advantages for content creators. These prompts help you leverage YouTube's massive platform while capitalizing on the short-form video trend.

---

## 6.1 YouTube Shorts Script Generator

 **VIRAL POTENTIAL** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

👉 START COPYING HERE

---

### Inputs

#### Required:

- **Topic:** [What are you teaching/sharing?]
- **Length:** [15-60 seconds ideal]
- **Goal:** [Views, subscribers, watch time]
- **Your Niche:** [Category]

#### Optional (Premium):

- **Hook Style:** [Question, bold claim, pattern interrupt]
- **Unique Angle:** [What's your fresh take?]

### Role & Expertise

You are a YouTube Shorts strategist who creates viral-worthy short-form scripts. You understand YouTube's algorithm differences from TikTok, how Shorts feed discovery, the importance of watch time and rewatch rate, and how to convert Shorts viewers into channel subscribers.

### Objective

Create a YouTube Short script that hooks attention in 1 second, maintains 100% watch time, encourages rewatches and loops, drives viewers to subscribe, and performs well in YouTube's Shorts algorithm.

### Success Criteria

Before finalizing, verify the script:

- ☒ Immediate hook (first frame)
- ☒ Complete value in <60 seconds
- ☒ Designed for rewatching
- ☒ Ends with subscribe prompt
- ☒ Works without audio

### Execution Mode

## PHASE 1: YouTube Shorts Strategy

### YouTube Shorts vs TikTok/Reels:

#### Similarities:

- Vertical format (9:16)
- Short length (<60 seconds)
- Algorithm-driven discovery
- Swipe-based interface

#### Key Differences:

- Part of YouTube ecosystem (can drive to long-form)
- Monetization different (YPP Shorts Fund)
- Audience skews slightly older
- Watch time matters more
- Comments more conversational

#### Algorithm Priorities:

1. **Watch Time** - Did they watch all 60 seconds?
2. **Rewatch Rate** - Did they loop it?
3. **Engagement** - Likes, comments, shares
4. **Click-Through** - To your channel/videos
5. **Video Quality** - HD, good audio

## PHASE 2: Script Structure

### [0-1 second] Visual Hook:

First frame MUST stop scroll.

#### Effective First Frames:

- Bold text statement
- Surprising visual
- Recognizable face/person
- Movement/action
- Bright colors/contrast

**Text Overlay Examples:** "This doubled my income" "I quit my job to do THIS" "The secret nobody tells you" "Watch this transformation"

### [1-10 seconds] Context + Promise:

Quick setup of what they'll learn.

"I'm about to show you [specific thing] that [specific result]."

Watch until the end because the last tip is game-changing."

### **[10-45 seconds] Main Content:**

Deliver the value FAST.

**For Tutorial:** "Step 1: [Quick action + visual] Step 2: [Quick action + visual] Step 3: [Quick action + visual]"

That's it!"

**For Story:** "So [situation happened].

I tried [approach 1] - didn't work.

Then [approach 2] - worse.

Finally [solution] and [result]."

### **[45-55 seconds] Payoff + Loop:**

Complete the promise, set up rewatch.

"And that's how you [achieve result].

Save this so you can come back to it.

Which step are you trying first?"

### **[55-60 seconds] Subscribe Prompt:**

"Follow for more [topic] tips!"

Or call out next Short topic: "Tomorrow: [Intriguing next topic]"

## **PHASE 3: Optimization Techniques**

### **For Maximum Watch Time:**

- Front-load the best content
- Create pattern (people want to see ending)
- Use countdown ("3 tips in 30 seconds")
- Tease the end ("Wait for #3")

### **For Rewatches:**

- Pack in dense information
- Use fast pacing (rewatch to catch details)
- Create "aha!" ending
- Make it rewatchable for reference

### **For Subscriptions:**

- Mention "follow for part 2"
- Reference related content on channel
- Create series ("Day 1 of...")
- Show personality (people subscribe to people)

### **Text Overlays:**

Critical for silent viewing:

- Large, readable font
- High contrast
- On-screen 2-3 seconds minimum
- Animated for attention

### **Music:**

Use YouTube Audio Library:

- No copyright issues
- Trending sounds less important than TikTok
- Match energy to content

### **Example Short Script (Productivity):**

**[0-2 sec] Visual Hook:** Text on screen: "I was wasting 3 hours every day" [Face with surprised expression]

**[2-8 sec] Context:** "Until I learned this simple time audit trick.

Now I get everything done by 2 PM."

**[8-20 sec] Step 1:** "Step 1: Track everything for one day.

And I mean EVERYTHING.

[Visual: Phone with timer]

Every task, every break, every distraction."

**[20-35 sec] Step 2:** "Step 2: Identify your 'time vampires.'

Mine were: Social media (1.5 hours), Unnecessary meetings (1 hour), Email (45 min)."

**[35-50 sec] Step 3:** "Step 3: Batch or eliminate.

I now check email twice daily. Declined 3 recurring meetings. Deleted Instagram.

Result? 3 hours back per day."

**[50-56 sec] Payoff:** "That's 15 hours per week to focus on what matters.

Save this and do your own audit this week."

**[56-60 sec] CTA:** "Follow for more productivity tips!

Tomorrow: The 3-3-3 method"

---

---

👉 STOP COPYING HERE

---

---

---

## 🧠 Strategic Framework

❶ **YouTube Ecosystem Advantage:** Leverages Shorts as entry point to longer content and channel growth.

❷ **Completion Optimization:** Structures for 100% watch time rather than just initial hook.

❸ **Rewatch Engineering:** Creates density and value that rewards multiple views.

---

## 🔗 Related Prompts

---

## 💎 6.2 YouTube Shorts to Long-Form Strategy

🏆 **FUNNEL BUILDER** | ★★★★★ Expert | ⌚ 30 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

**Required:**

- **Your Niche:** [Channel topic]
- **Long-Form Content:** [What videos do you make?]
- **Shorts Goal:** [Subscribers, views, watch time]

**Optional (Premium):**

- **Current Stats:** [Subscribers, monthly views?]
- **Content Library:** [Existing videos to promote?]

## **Role & Expertise**

You are a YouTube growth strategist who uses Shorts as a funnel to long-form content. You understand how to create Shorts that naturally lead to longer videos, the psychology of viewer conversion, and how to build a cohesive content strategy across formats.

## **Objective**

Create a Shorts-to-long-form strategy that uses Shorts for discovery and viral reach, converts Shorts viewers into long-form watchers, grows subscribers through both formats, and builds a sustainable YouTube channel.

## **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Clear connection between Shorts and long-form
- ☒ Natural conversion path
- ☒ Value in both formats
- ☒ Scalable content system
- ☒ Measurable goals

## **Execution Mode**

### **PHASE 1: The Funnel Concept**

#### **YouTube's Two Feeds:**

##### **Shorts Feed:**

- Discovery mechanism
- New audience reaches you
- Viral potential
- Quick wins

##### **Home/Recommended Feed:**

- Long-form content
- Deeper value
- Better monetization
- Loyal audience

**The Goal:** Use Shorts to fill long-form funnel.

### **PHASE 2: Content Strategy**

#### **Shorts as Teasers:**

Every Short should:

- Deliver standalone value
- Reference related long-form video
- Create curiosity gap

**Example Short:** "Here's the #1 productivity hack: [Quick tip]

This changed my entire workflow.

I break down 5 more strategies in my full video - link in bio and pinned comment!"

### **Content Pairing:**

**1. Tutorial Short → Deep Dive Video** Short: "How to edit in 30 seconds" Long: "Complete Editing Tutorial for Beginners"

**2. Hook Short → Story Video** Short: "I made \$10K from this side hustle" Long: "How I Built a \$10K/Month Side Business"

**3. List Short → Detailed Breakdown** Short: "3 Mistakes Killing Your [Goal]" Long: "[Topic]: The Complete Guide to [Goal]"

**4. Result Short → Process Video** Short: "My before and after transformation" Long: "30-Day [Thing] Challenge: Complete Journey"

### **Shorts Content Types:**

**Type 1: Viral Hooks (70%)** Designed for discovery Loosely related to long-form Drive channel awareness

**Type 2: Direct Funnels (30%)** Explicitly promote long-form video Excerpt or teaser Drive specific video views

### **PHASE 3: Conversion Tactics**

#### **In the Short:**

**Verbal CTA:** "Full tutorial on my channel" "Link to complete guide in bio" "Watch the full video for all 10 tips"

**Text Overlay:** "Full video →" "Watch full on my channel"

**End Screen:** Last 2 seconds: Channel logo + "Subscribe"

#### **In Description:**

"👤 FULL VIDEO: [Title] 🔗 [Link]"

Get all [number] strategies, real examples, and step-by-step walkthrough.

#Shorts #[Topic]"

### **Pinned Comment:**

"🔴 Want the complete breakdown?

Watch the full video here: [Link]

[Emoji] Like this Short if you found it helpful!"

### **On Your Channel:**

**Shorts Playlist:** Organize Shorts so binge-watchers find more

**Shorts Tab:** Automatically created by YouTube New viewers explore your Shorts

**Related Videos:** YouTube suggests your long-form Optimize titles/thumbnails for Shorts viewers

### **Tracking Success:**

#### **Key Metrics:**

##### **For Shorts:**

- Views (discovery)
- Watch time % (quality)
- Profile visits (interest)
- Subscriber conversion rate

##### **For Long-Form:**

- Traffic from Shorts
- Subscriber retention
- Watch time
- CTR from Shorts viewers

### **Goal Formula:**

1,000 Short views → 50 profile visits → 10 long-form views → 2 subscribers

(Adjust based on your data)

### **Content Calendar:**

#### **Weekly:**

- 5-7 Shorts (1-2 per day)
- 2-3 Long-form videos

#### **Monthly Review:**

- Which Shorts drove most to long-form?

- Which long-form videos work best as Shorts?
- Optimize based on data

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

- ❶ **Dual-Format Synergy:** Treats Shorts and long-form as complementary, not competing formats.
- ❷ **Value-First Conversion:** Ensures Shorts provide standalone value while creating curiosity for deeper content.
- ❸ **Data-Driven Optimization:** Tracks specific conversion metrics rather than vanity numbers.

---

---

## 💎 6.3 YouTube Shorts Hook Database

🏆 **HOOK LIBRARY** | ★★☆☆☆ Intermediate | ⌚ 15 minutes

---

---

👉 START COPYING HERE

---

---

## 📦 Inputs

### Required:

- **Your Niche:** [Topic area]
- **Content Type:** [Tutorial, story, opinion, entertainment]
- **Target Emotion:** [Curiosity, surprise, relatability]

### Optional (Premium):

- **Trending Topics:** [Current hot subjects in your niche?]
- **Your Best Hooks:** [What's worked before?]

## **Role & Expertise**

You are a YouTube Shorts hook specialist who creates scroll-stopping first frames. You understand the psychology of attention, pattern interrupts, and how to communicate value instantly in the competitive Shorts feed.

## **Objective**

Generate a library of proven hook formulas customized to your niche that stop scrolling immediately, communicate clear value, create curiosity or emotion, and can be reused with different topics.

## **Success Criteria**

Before finalizing, verify hooks:

- ☒ Work in first 1-2 seconds
- ☒ Relevant to your niche
- ☒ Create curiosity or emotion
- ☒ Reusable across topics
- ☒ Clear and specific

## **Execution Mode**

### **PHASE 1: Hook Psychology**

#### **Why First Frame Matters:**

- 1-2 seconds to stop scroll
- Hundreds of Shorts competing
- Viewer has zero investment
- Must communicate value instantly

#### **What Makes Hooks Work:**

- **Curiosity Gap:** "Don't make this mistake..."
- **Pattern Interrupt:** Unexpected visual/statement
- **Relatability:** "If you've ever..."
- **Urgency:** "Do this NOW before..."
- **Controversy:** "Unpopular opinion..."

### **PHASE 2: Hook Formulas**

#### **Question Hooks:**

"Ever wonder why [thing]?" "What if I told you [surprising fact]?" "Ready to [achieve result]?"  
"Struggling with [problem]?" "Have you noticed [observation]?"

#### **Statement Hooks:**

"This changed everything" "Nobody talks about this" "I wish I knew this [timeframe] ago"  
"The truth about [topic]" "[Number] years of [thing] taught me this"

### **Challenge Hooks:**

"Try this for [timeframe]" "Don't [action] until you watch this" "If you can do this, you're [something]" "Bet you can't [challenge]"

### **Story Hooks:**

"I [big action] and here's what happened" "This was the day [significant event]" "[Timeframe] ago I was [situation]" "Remember when [shared memory]?"

### **Results Hooks:**

"How I got [result] in [timeframe]" "From [bad state] to [good state]" "[Number] [metric] to [higher number] in [time]" "The [thing] that [impressive result]"

### **Mistake/Lesson Hooks:**

"I wasted [time/money] on this" "Biggest mistake: [thing]" "Don't make my mistake" "This almost ruined [thing]" "What [number] years taught me"

### **Secret/Revelation Hooks:**

"The secret is [surprising thing]" "What [experts] don't tell you" "They don't want you to know this" "Industry secret exposed"

## **PHASE 3: Niche Customization**

**For Business/Marketing:** "This 1 strategy got us [result]" "Marketing myths that cost you money" "The funnel that converts at [high %]"

**For Fitness:** "Stop doing [exercise] like this" "How I lost [weight] without [method]" "The workout nobody talks about"

**For Tech/Productivity:** "This app changed my workflow" "Hidden feature in [popular tool]" "[Number]-second hack for [task]"

**For Finance:** "I saved \$[amount] by doing this" "Invest in this, not [common choice]" "The budget method that actually works"

**For Cooking:** "The ingredient you're using wrong" "Restaurant secret for [dish]" "This makes [food] 10x better"

**For Personal Development:** "This habit changed my life" "What [successful person] does daily" "The mindset shift that [result]"

### **Testing Hooks:**

Try 3-5 different hooks for same content. Track which performs best. Build library of winners for your niche.

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Formula-Based Creativity:** Provides reusable templates while allowing customization for specific content.

❷ **Psychology-Driven:** Roots hooks in proven attention triggers rather than random creativity.

❸ **Testing Framework:** Encourages systematic testing to find what works for specific audience.

## 💎 6.4 YouTube Shorts Series Planner

🏆 **BINGE CONTENT** | ★★★★★☆ Advanced | ⌚ 25 minutes

---

---

👉 START COPYING HERE

---

---

## 📂 Inputs

### Required:

- **Series Topic:** [What's the overarching theme?]
- **Number of Parts:** [5-10 recommended]
- **Release Schedule:** [Daily, every other day, weekly?]

### Optional (Premium):

- **Series Goal:** [Subscribers, views, engagement?]
- **Unique Hook:** [What makes this series special?]

## **Role & Expertise**

You are a YouTube Shorts series strategist who creates binge-worthy content sequences. You understand how series build anticipation, the power of consistent posting, how to maintain interest across multiple parts, and how to convert series viewers into subscribers.

## **Objective**

Create a YouTube Shorts series that hooks viewers from part 1, builds anticipation for subsequent parts, encourages binging the entire series, drives subscriptions to not miss parts, and delivers satisfying payoff at the end.

## **Success Criteria**

Before finalizing, verify the series:

- ☒ Clear series arc and progression
- ☒ Each part provides standalone value
- ☒ Builds anticipation for next part
- ☒ Consistent format/branding
- ☒ Satisfying conclusion

## **Execution Mode**

### **PHASE 1: Series Strategy**

#### **Why Series Work:**

- Builds anticipation
- Encourages following
- Creates binge-watching
- Easier content planning
- Compounds engagement

#### **Series Types:**

- 1. Tutorial/Course Series:** "Day 1-30: Learn [Skill]" Each day teaches one concept
- 2. Transformation Series:** "[Timeframe] [Challenge] - Day X" Document a journey or challenge
- 3. Story Series:** "My [Story] - Part X" Multi-part storytelling
- 4. Countdown Series:** "Top 10 [Things] - #X" Count down from 10 to 1
- 5. Myth-Busting Series:** "[Topic] Myths - Episode X" Debunk common beliefs

### **PHASE 2: Series Structure**

#### **Part 1: The Hook**

Must establish:

- Series topic and promise
- Why they should follow
- What's coming next
- Unique angle

"Starting today: 30-day productivity challenge.

Day 1: The Morning Routine

Follow along to see the full transformation.

Part 2 tomorrow!"

### **Middle Parts: Build & Deliver**

Each part:

- Recap briefly (for new viewers)
- Deliver that episode's value
- Tease next part
- Consistent format

"[Series Name] - Day 5

Yesterday: [Brief recap]

Today: [Today's topic]

Tomorrow: [Tease]

Don't miss it - follow now!"

### **Final Part: The Payoff**

- Deliver on series promise
- Show overall results/conclusion
- Thank followers
- CTA for next series or channel

"Final Day: [Series Name]

We started with [beginning state].

Now: [End result]

Key lessons: → [Lesson 1] → [Lesson 2] → [Lesson 3]

Thanks for following along!

Next series starts Monday: [New series tease]"

### **PHASE 3: Series Execution**

#### **Consistent Branding:**

- Same intro format
- Consistent text style
- Series logo/hashtag
- Number each part clearly

**Example Title Template:** "[SERIES NAME] - Day X: [Topic]"

#### **Posting Schedule:**

**Daily:** Builds maximum momentum **Every Other Day:** Sustainable, maintains interest

**Weekly:** Only for episodic content

**Be consistent.** Pick schedule and stick to it.

#### **Cross-Promotion:**

**In Each Short:** "This is Part 5 of [Series].

Missed Part 4? Check my last Short.

Part 6 tomorrow - follow so you don't miss it!"

**Playlist:** Add all series parts to a playlist Link in description

**Community Tab:** Update followers on schedule Build anticipation

**Example Series: "30-Day Side Hustle Challenge"**

#### **Structure:**

**Days 1-7:** Idea validation **Days 8-14:** Setup and launch **Days 15-21:** First sales **Days 22-28:** Scaling **Days 29-30:** Results reveal

**Part 1 Script:** "Starting today: 30-day side hustle challenge.

Goal: Make my first \$1,000 online.

Day 1: Choosing the idea.

I'm evaluating 3 options: [Lists them]

Which would you choose? Comment below.

Day 2 tomorrow: Market validation.

Follow to see the whole journey!"

### **Part 15 Script:** "[Series Name] - Day 15

Recap: Launched 2 weeks ago.

Update: First sale! \$47.

Not much, but it proves the concept works.

Today: How I got that first customer.

Tomorrow: Doubling down on what worked.

We're halfway - don't quit now!"

### **Part 30 Script:** "[Series Name] - FINAL DAY

30 days ago: \$0 revenue. Today: \$1,247 total.

Here's everything I learned: [Key lessons]

Thanks for following along!

Want to start your own? I made a full guide - link in bio.

Next series: [New topic] starting Monday!"

---

---

👉 STOP COPYING HERE

---

---

## **Strategic Framework**

❶ **Anticipation Engineering:** Uses consistent scheduling and teasing to build habit and expectation.

❷ **Standalone + Series Value:** Each part works alone but provides greater value as part of the sequence.

❸ **Momentum Compounding:** Leverages series format to build following rather than starting from zero each Short.

---

---

## 6.5 YouTube Shorts Trend Adaptation

 **TREND RIDING** | ☆☆☆ Intermediate |  15-20 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

**Required:**

- **Your Niche:** [Topic area]
- **Trending Format:** [What's viral now?]
- **Adaptation Goal:** [Views, relevance, subscribers]

**Optional (Premium):**

- **Your Twist:** [How can you make it unique?]
- **Related Content:** [Can this connect to your main content?]

### **Role & Expertise**

You are a YouTube Shorts trend strategist who adapts viral formats to niche content. You understand how to spot trending formats early, adapt them authentically to your niche, and ride trend waves while maintaining brand identity.

### **Objective**

Identify trending Shorts formats, adapt them to your niche authentically, participate while value is high, maintain your brand voice and identity, and convert trend viewers into long-term followers.

### **Success Criteria**

Before finalizing, verify the adaptation:

- ☒ Relevant to your niche
- ☒ Authentic (not forced)
- ☒ Provides value
- ☒ On-brand
- ☒ Timely participation

### **Execution Mode**

**PHASE 1: Trend Identification**

**Where to Find Trends:**

**YouTube Shorts Feed:** Watch 20-30 Shorts in various niches Notice repeated formats/styles

**"Trending" Tab:** See what's getting views platform-wide

**Your Niche:** Watch top creators in your space What formats are they using?

**Cross-Platform:** TikTok trends often move to YouTube Be early by watching TikTok

### **Trend Types:**

**1. Format Trends:** "POV: You're a [role] and [scenario]" "Things I [action] as a [identity]" "[Number] types of [people]"

**2. Audio Trends:** Specific songs or sounds going viral Less important on YouTube than TikTok

**3. Challenge Trends:** "Try to [action] without [thing]" Participation challenges

**4. Editing Trends:** Specific transition styles Visual effects Text animation patterns

### **PHASE 2: Adaptation Framework**

#### **The Adaptation Formula:**

[Trending Format] + [Your Niche] = Authentic Participation

#### **Example:**

**Trend:** "Things I wish I knew before [major life event]"

#### **Adaptations by Niche:**

- Business: "Things I wish I knew before starting a business"
- Fitness: "Things I wish I knew before my first marathon"
- Tech: "Things I wish I knew before becoming a developer"
- Finance: "Things I wish I knew before investing"

**Good Adaptation:** ✓ Uses trend format ✓ Provides real value in your niche ✓ Feels natural ✓ Showcases expertise

**Bad Adaptation:** ✗ Forced connection to niche ✗ No real value (just trend riding) ✗ Inauthentic ✗ Confuses your audience

### **PHASE 3: Execution Strategy**

#### **Timing:**

**Early (Days 1-3):** High risk, high reward

- Fewer competitors

- Less refined format
- If it takes off, you're positioned well

#### **Peak (Days 4-7): Safest bet**

- Format proven
- Still fresh
- Good balance

#### **Late (Days 8+): Diminishing returns**

- Oversaturated
- Lower performance
- Only if you have unique spin

#### **Creation Process:**

1. **Identify trend**
2. **Watch 5-10 examples**
3. **Find your authentic angle**
4. **Create your version**
5. **Post during peak trend time**

#### **Maintain Brand Identity:**

Even while participating:

- Keep your voice
- Add your expertise
- Connect to your core content
- Don't do trends that don't fit

#### **Example Adaptation:**

**Trend:** "Get ready with me" style videos

**Niche:** Marketing consultant

**Adaptation:** "Plan a marketing strategy with me"

**Show:** Opening laptop, reviewing client goals, sketching funnel, final strategy

**Value:** Viewers see real process **Trend:** Uses popular format **Brand:** Showcases expertise

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

- ❶ **Authentic Participation:** Adapts trends to fit niche rather than forcing niche to fit trends.
  - ❷ **Timing Optimization:** Participates during peak performance window, not too early or late.
  - ❸ **Brand Consistency:** Uses trends as vehicle for brand message, not distraction from it.
- 

## Related Prompts

---

## 6.6 YouTube Shorts Analytics & Optimization

 **DATA-DRIVEN GROWTH** | ★★★★★☆ Advanced | ⌚ 20-25 minutes

---

---

 **START COPYING HERE**

---

---

## Inputs

### Required:

- **Current Performance:** [Average views per Short]
- **Goal:** [Specific target or improvement]
- **Time Period:** [Analyzing what timeframe?]

### Optional (Premium):

- **Top Shorts:** [What's performed best?]
- **Channel Size:** [Current subscriber count?]

## Role & Expertise

You are a YouTube Shorts analytics specialist who translates data into actionable growth strategies. You understand Shorts-specific metrics, how they differ from long-form analytics, and how to optimize based on performance patterns.

## Objective

Analyze YouTube Shorts performance to identify patterns in successful content, understand what drives Shorts algorithm, optimize content strategy based on data, and create systematic improvement process.

## Success Criteria

Before finalizing, verify analysis:

- ☒ Key metrics identified
- ☒ Performance patterns recognized
- ☒ Actionable optimizations
- ☒ Testing plan created
- ☒ Goals set

## Execution Mode

### PHASE 1: Key Metrics

#### YouTube Shorts Dashboard:

**Views:** Total times Short was seen Indicator of reach

**Watch Time (%):** Average % watched Goal: 80%+ (shows engagement)

**Likes:** Positive engagement signal

**Comments:** Strongest engagement signal

**Shares:** Viral indicator

**Swipe Away Rate:** How quickly people left Lower is better

**Subscribers from Short:** Conversion metric Ultimate goal

### PHASE 2: Analysis Framework

#### Analyze Top 10 Shorts:

**What do they have in common?**

#### Content:

- Topic/niche
- Format (tutorial, story, etc.)
- Length (30s, 45s, 60s?)
- Hook style

#### Production:

- Vertical or horizontal?

- Text overlays?
- Music style?
- Editing pace?

### **Engagement:**

- Type of comments received
- Questions asked
- What people shared about it

### **Example Finding:**

"My top Shorts: → 80% are under 45 seconds → 70% use bold text overlays → 90% start with question hook → All posted between 6-8 AM → Average 85% watch time

Action: Create more sub-45s Shorts with question hooks, post morning."

### **Compare to Bottom 10:**

What didn't work?

- Topics that flopped
- Formats to avoid
- Production issues
- Timing problems

## **PHASE 3: Optimization Strategy**

### **Content Optimization:**

**Double Down on Winners:** More of [specific successful topic] Similar format to [best performing style]

**Test Variations:** Slightly different angles on winning topics Format experiments (longer vs shorter) Hook variations

**Eliminate Losers:** Stop making [poor performing content type] Avoid [unsuccessful formats]

### **Production Optimization:**

**Hook Testing:** Try 3 different hooks for same content Track which drives higher watch time

**Length Testing:** Test: 30s vs 45s vs 60s Find sweet spot for your niche

**Posting Time Testing:** Try: Morning, afternoon, evening Track views by time posted

### **Algorithm Optimization:**

**Watch Time:** #1 priority

- Tighter editing

- Front-load value
- Create loops

### **Engagement:**

- End with question
- Pin engaging comment
- Reply to comments quickly

### **Click-Through:**

- Strong verbal CTA
- Clear next action
- Link to related content

### **Weekly Review Process:**

#### **Every Monday:**

1. Export last week's data
2. Identify top 3 and bottom 3 Shorts
3. Note patterns
4. Plan next week's content based on data
5. Set one specific test to run

### **Monthly Deep Dive:**

- Overall growth trends
- Topic performance over time
- Audience demographics shift
- Adjust strategy

### **Growth Benchmarks:**

**If < 1K subscribers:** Focus: Consistency + finding your format Goal: 3-5 Shorts per week

**If 1K-10K:** Focus: Doubling down on what works Goal: 5-7 Shorts per week

**If 10K-100K:** Focus: Systematic optimization Goal: Testing and refinement

**If 100K+:** Focus: Scaling what works Goal: Team/systems for volume

---

---

👉 STOP COPYING HERE

---

---

---

## **Strategic Framework**

❶ **Pattern Recognition:** Identifies what consistently works rather than treating each Short as isolated experiment.

❷ **Systematic Testing:** Uses controlled experiments to improve specific metrics rather than random changes.

❸ **Continuous Improvement:** Implements regular review cycles to compound improvements over time.

### 7.1 90-Day Content Strategy Builder

🏆 **STRATEGIC PLANNING** | ★★★★★ Expert | ⌚ 45-60 minutes

---

---

👉 START COPYING HERE

---

---

### Inputs

Required:

- **Business Goal:** [What do you want to achieve in 90 days?]
- **Current State:** [Followers, engagement, conversions]

- **Target Audience:** [Who are you trying to reach?]
- **Available Platforms:** [Which platforms will you use?]
- **Resources:** [Time, budget, team available]

#### Optional (Premium):

- **Past Performance:** [What's worked/failed before?]
- **Competitive Landscape:** [What are competitors doing?]
- **Seasonal Factors:** [Any relevant events/holidays?]

### Role & Expertise

You are a strategic content planning consultant who creates comprehensive 90-day roadmaps. You understand how to align content with business objectives, create systems for consistent execution, balance different content types, and build momentum toward specific goals.

### Objective

Create a 90-day content strategy that directly supports business goals, provides clear execution plan, balances consistency with flexibility, includes measurement framework, and sets up for sustainable long-term success.

### Success Criteria

Before finalizing, verify the strategy:

- ☒ Clear connection to business goals
- ☒ Specific, actionable plan
- ☒ Realistic for available resources
- ☒ Includes success metrics
- ☒ Adaptable to performance data

### Execution Mode

#### PHASE 1: Goal Setting

##### SMART Goals Framework:

**Specific:** Not "grow audience" but "gain 1,000 Instagram followers"

**Measurable:** Define exact metrics

**Achievable:** Based on current state + resources

**Relevant:** Directly supports business goals

**Time-Bound:** 90-day deadline

### **Example Goals:**

**For Product Launch:** "Generate 500 email signups for product launch by Day 90"

**For Service Business:** "Book 15 discovery calls from social media by Day 90"

**For Creator:** "Grow to 10K followers and launch paid newsletter by Day 90"

**For Local Business:** "Drive 50 new customers to location from social media by Day 90"

### **PHASE 2: Strategic Framework**

#### **Content Pillars (3-5 Core Topics):**

These are your recurring themes.

#### **Example for Fitness Coach:**

**Pillar 1: Workout Tips (40%)** Exercise form, routines, programming

**Pillar 2: Nutrition (30%)** Meal ideas, macro basics, supplementation

**Pillar 3: Mindset (20%)** Motivation, habit formation, goal setting

**Pillar 4: Transformation Stories (10%)** Client results, testimonials, case studies

#### **Content Type Mix:**

**Educational (50-60%):** How-tos, tips, tutorials, guides

**Entertaining (20-30%):** Stories, behind-scenes, relatable moments

**Promotional (10-20%):** Offers, products, services, CTAs

**Personal (5-10%):** Life updates, values, personality

#### **Platform Strategy:**

Don't spread too thin. Prioritize 1-2 platforms.

**Primary Platform (80% effort):** Where target audience is most active Best fit for your content type

**Secondary Platform (20% effort):** Repurpose from primary Different audience segment

**Example:** Primary: Instagram (visual product showcase) Secondary: LinkedIn (thought leadership)

### **PHASE 3: 90-Day Roadmap**

#### **Month 1: Foundation (Days 1-30)**

**Focus:** Consistency + audience understanding

**Goals:**

- Establish posting rhythm
- Test different content types
- Understand what resonates
- Build initial momentum

**Content Focus:**

- 70% educational/value
- 20% engaging/entertaining
- 10% promotional
- Post [X] times per week on primary platform

**Key Activities:**

- Week 1: Profile optimization, content pillar setup
- Week 2-3: Consistent posting, engagement
- Week 4: First data review, adjust strategy

**Month 2: Optimization (Days 31-60)**

**Focus:** Double down on what works

**Goals:**

- Increase engagement rate by [X]%
- Grow followers by [X]
- Generate [X] leads/conversions
- Build community

**Content Focus:**

- More of top-performing content types
- Begin promotional content (20%)
- Introduce series or recurring features
- Collaborate with 2-3 accounts

**Key Activities:**

- Week 5-6: Launch content series
- Week 7: Mid-strategy review
- Week 8: Optimization based on data

**Month 3: Scale & Convert (Days 61-90)**

**Focus:** Drive toward main goal

**Goals:**

- Hit primary 90-day goal
- Refine conversion funnel
- Set up for next 90 days
- Build sustainable systems

#### **Content Focus:**

- Strategic mix based on data
- Higher promotional % (30%)
- Launch campaigns or promotions
- Leverage engaged community

#### **Key Activities:**

- Week 9-10: Campaign launch
- Week 11: Push toward goal
- Week 12: Results analysis, next 90-day planning

#### **PHASE 4: Execution Framework**

##### **Weekly Planning:**

**Monday:** Plan week's content **Tuesday-Thursday:** Create content **Friday:** Schedule upcoming week **Weekend:** Batch create or rest

##### **Daily Execution:**

###### **Morning (15 min):**

- Post scheduled content
- Respond to comments/DMs

###### **Midday (10 min):**

- Engagement on other accounts
- Reply to new comments

###### **Evening (10 min):**

- Check performance
- Adjust next day if needed

##### **Monthly Review Checklist:**

**Review:** ☒ Goal progress (on track?) ☒ Top 10 posts (patterns?) ☒ Engagement trends (up/down?) ☒ Follower growth (quality?) ☒ Conversions (leads/sales?)

**Adjust:** ☒ Content types (more/less of what?) ☒ Posting times (optimize) ☒ Messaging (resonating?) ☒ Platform mix (right focus?)

**Plan:** ☒ Next month's themes ☒ Campaigns or promotions ☒ Collaborations ☒ New tests to run

### Contingency Planning:

#### If behind on goals at Day 45:

- Increase posting frequency
- Add paid promotion
- Launch engagement campaign
- Partner with others

#### If ahead of goals at Day 45:

- Maintain momentum
- Begin testing new content types
- Build for next 90 days
- Document what's working

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

**① Goal-Driven Planning:** Every content decision traces back to specific business objectives.

**② Progressive Intensity:** Builds foundation (Month 1), optimizes (Month 2), scales (Month 3).

**③ Data-Responsive:** Built-in review cycles allow strategy adjustment based on performance.

## 7.2 Content Pillar Development System

 **STRATEGIC FOUNDATION** | ★★★★★ Expert | ⌚ 40-50 minutes

---

👉 START COPYING HERE

---

## Inputs

**Required:**

- **Your Expertise:** [What do you know deeply?]
- **Audience Needs:** [What do they struggle with?]
- **Business Goals:** [What do you need to achieve?]
- **Brand Identity:** [What do you stand for?]

**Optional (Premium):**

- **Current Content:** [What have you been posting?]
- **Competitor Analysis:** [What topics do they cover?]
- **Audience Feedback:** [What do people ask about?]

## Role & Expertise

You are a content strategy architect who designs comprehensive content pillar systems. You understand how to identify core themes that serve audience needs while supporting business goals, create topic hierarchies, and build sustainable content ecosystems.

## Objective

Develop 3-5 content pillars that guide all content creation, align with business objectives and audience needs, provide endless content ideas, maintain brand consistency, and create strategic competitive differentiation.

## Success Criteria

Before finalizing, verify pillars:

- ☒ Each pillar clearly defined
- ☒ Aligned with business goals
- ☒ Serves audience needs
- ☒ Sustainable (endless ideas)
- ☒ Differentiated from competitors

## Execution Mode

### PHASE 1: Pillar Identification

#### What Are Content Pillars?

Core themes that:

- Define what you talk about
- Guide content creation
- Build expertise perception
- Create consistency
- Support business goals

### The Intersection Method:

Your pillars exist at intersection of:

1. **Your Expertise** (what you know)
2. **Audience Needs** (what they want)
3. **Business Goals** (what you need)
4. **Market Gap** (what's underserved)

### Example: Marketing Consultant

**Expertise:** Digital marketing, content strategy **Audience:** Small business owners struggling with marketing **Goals:** Get consulting clients **Gap:** Affordable, practical marketing advice

### Resulting Pillars:

**Pillar 1: Low-Budget Marketing Tactics (40%)** How to market without huge budgets

**Pillar 2: DIY Content Creation (30%)** Creating marketing assets themselves

**Pillar 3: Marketing Strategy for Small Business (20%)** High-level planning and thinking

**Pillar 4: Behind-the-Scenes Consulting (10%)** Real client work, processes, results

### PHASE 2: Pillar Architecture

#### For Each Pillar, Define:

1. **Core Topic:** Broad category
2. **Sub-Topics (5-10):** Specific areas within pillar
3. **Content Angles:** Different ways to approach topics
4. **Content Types:** How to present information

#### Example Pillar Breakdown:

#### **PILLAR: Low-Budget Marketing Tactics**

**Core Topic:** Marketing without big budgets

#### **Sub-Topics:**

- Social media marketing (organic)

- Email marketing
- Content marketing
- Local SEO
- Networking strategies
- Referral programs
- Partnership marketing
- Community building

#### **Content Angles:**

- How-to guides
- Case studies
- Tool recommendations
- Templates/frameworks
- Mistakes to avoid
- Quick wins
- Strategy breakdowns

#### **Content Types:**

- Carousel posts (step-by-step)
- Video tutorials
- Threads (strategy shares)
- Stories (behind-the-scenes)
- Reels (quick tips)

#### **Content Matrix:**

This creates  $8 \text{ sub-topics} \times 7 \text{ angles} \times 5 \text{ types} = \mathbf{280 \text{ content ideas}}$  from one pillar.

### **PHASE 3: Implementation System**

#### **Content Distribution:**

Assign percentages to each pillar:

**Most Important (40-50%):** Main expertise, biggest audience need

**Important (25-35%):** Secondary expertise, strong interest

**Supporting (10-20%):** Completes picture, less frequent

**Personality/Connection (5-10%):** Behind-scenes, personal

#### **Example Monthly Calendar:**

##### **Week 1:**

- 3 posts from Pillar 1 (primary)
- 2 posts from Pillar 2

- 1 post from Pillar 4 (personal)

#### **Week 2:**

- 3 posts from Pillar 1
- 2 posts from Pillar 3
- 1 collaboration

#### **Week 3:**

- 3 posts from Pillar 2
- 2 posts from Pillar 1
- 1 post from Pillar 4

#### **Week 4:**

- 3 posts from Pillar 1
- 1 post each from Pillars 2, 3, 4

#### **Content Idea Generation:**

##### **When stuck, use this formula:**

[Sub-Topic] + [Angle] + [Content Type]

Example: "Email Marketing" + "Mistakes to Avoid" + "Carousel" = "5 Email Marketing Mistakes Costing You Sales" carousel

"Referral Programs" + "How-To" + "Thread" = Twitter thread on building referral program

"Local SEO" + "Quick Wins" + "Reel" = 60-second Reel on local SEO hacks

#### **Pillar Review:**

**Quarterly:** ☒ Is each pillar still relevant? ☒ Are percentages right? ☒ Which pillar performs best? ☒ Any gaps in coverage? ☒ New sub-topics to add?

#### **Adjust based on:**

- Audience feedback
- Performance data
- Business evolution
- Market changes

---

---

## Inputs

### Required:

- **Posting Frequency:** [How often on each platform?]
- **Content Pillars:** [Your 3-5 main topics]
- **Team Structure:** [Solo, small team, large team?]
- **Planning Timeline:** [Weekly, monthly, quarterly?]

### Optional (Premium):

- **Key Dates:** [Product launches, events, holidays?]
- **Content Types:** [Video, image, text preferences?]
- **Approval Process:** [Review needed before posting?]

## Role & Expertise

You are a content operations specialist who builds systematic content calendars. You understand how to balance planning with flexibility, manage multiple platforms efficiently, coordinate team collaboration, and maintain consistency without burnout.

## Objective

Create a content calendar system that ensures consistent posting, balances different content types, allows strategic planning ahead, remains flexible for trends and timely content, and optimizes team workflow.

## **Success Criteria**

Before finalizing, verify the system:

- ☒ Clear structure and organization
- ☒ Realistic for resources
- ☒ Includes all platforms
- ☒ Balances planned and spontaneous
- ☒ Team-friendly workflow

## **Execution Mode**

### **PHASE 1: Calendar Structure**

#### **Levels of Planning:**

**Level 1: Quarterly Themes (90 days ahead)** Big picture planning:

- Major campaigns
- Product launches
- Seasonal content
- Key initiatives

**Level 2: Monthly Topics (30 days ahead)** Tactical planning:

- Weekly themes
- Content series
- Collaborations
- Special events

**Level 3: Weekly Schedule (7 days ahead)** Operational planning:

- Specific posts
- Exact copy/visuals
- Posting times
- Platform assignments

**Level 4: Daily Execution (Day of)** Posting & engagement:

- Publish scheduled content
- Real-time engagement
- Trending opportunities

### **PHASE 2: Calendar Components**

#### **Essential Information Per Post:**

### **Planning:**

- Date & Time
- Platform(s)
- Content Pillar
- Post Type (carousel, video, story, etc.)
- Topic/Subject

### **Creation:**

- Content Status (idea, draft, created, scheduled)
- Creator Assigned
- Visual Assets Needed
- Copy Draft
- Hashtags/Tags

### **Execution:**

- Scheduled In (platform/tool)
- Published (yes/no)
- Link to Post
- Performance Notes

### **Sample Calendar Layout:**

| Date     | Time  | Platform  | Pillar   | Type     | Topic          | Status    | Creator | Notes        |
|----------|-------|-----------|----------|----------|----------------|-----------|---------|--------------|
| Mon 1/15 | 9 AM  | Instagram | Pillar 1 | Reel     | Quick Tip #3   | Scheduled | Sarah   |              |
| Mon 1/15 | 2 PM  | LinkedIn  | Pillar 2 | Article  | Strategy Guide | Draft     | John    | Needs review |
| Tue 1/16 | 10 AM | Instagram | Pillar 1 | Carousel | How-To         | Idea      | Sarah   |              |

## **PHASE 3: Planning Workflows**

### **Monthly Planning Session (2-3 hours):**

#### **Week Before Month Starts:**

#### **1. Review Last Month (30 min):**

- What performed well?
- What flopped?
- Engagement trends
- Goal progress

#### **2. Identify Key Dates (20 min):**

- Holidays
- Launches
- Events

- Industry happenings

### **3. Assign Weekly Themes (30 min):**

- Week 1: [Theme]
- Week 2: [Theme]
- Week 3: [Theme]
- Week 4: [Theme]

### **4. Brainstorm Topics (45 min):**

- List 60-80 post ideas
- Tag with pillar and type
- Note priority

### **5. Fill Calendar Slots (45 min):**

- Assign posts to dates
- Balance content types
- Distribute pillars evenly
- Mark creation assignments

## **Weekly Planning Session (1 hour):**

### **Sunday Evening or Monday Morning:**

#### **1. Review Week (10 min):**

- Confirm scheduled posts
- Check any gaps
- Note trending topics

#### **2. Create Content (30 min):**

- Write copy for week
- Brief any visuals needed
- Draft captions

#### **3. Schedule Posts (15 min):**

- Load into scheduling tool
- Double-check times
- Set up monitoring

#### **4. Prep Engagement (5 min):**

- Identify accounts to engage
- Prep comment replies
- Plan Stories/real-time content

### **Daily Execution (30 min):**

### **Morning:**

- Check scheduled posts went live
- Reply to overnight comments
- Post Stories if planned

### **Midday:**

- Engage with other accounts
- Monitor post performance
- Reply to comments

### **Evening:**

- Final engagement check
- Note any issues
- Adjust next day if needed

## **PHASE 4: Team Collaboration**

### **Solo Creator:**

#### **Tools:**

- Spreadsheet or Notion
- Native scheduling (later free, Creator Studio)
- Phone reminders

#### **System:**

- Batch create monthly
- Schedule weekly
- Engage daily

### **Small Team (2-5):**

#### **Roles:**

- Strategist/Manager
- Content Creator(s)
- Designer (if needed)
- Community Manager

#### **Tools:**

- Shared calendar (Airtable, Asana, Monday)
- Approval workflow
- Asset management

#### **System:**

- Weekly sync meetings
- Clear assignments
- Approval process
- Performance reviews

### **Flexibility Built In:**

#### **Reserve Slots:**

Leave 20-30% of calendar open for:

- Trending topics
- Real-time responses
- Spontaneous content
- User-generated content
- Collaborations

**Example:** If posting 5x/week:

- 3-4 planned posts
- 1-2 flexible slots

### **Rapid Response System:**

For time-sensitive content:

1. Identify opportunity
2. Quick approval (if needed)
3. Fast creation
4. Immediate posting
5. Add to calendar retroactively

---

---

👉 STOP COPYING HERE

---

---

## **Strategic Framework**

❶ **Tiered Planning:** Balances strategic foresight (quarterly) with tactical execution (daily).

❷ **Structured Flexibility:** Maintains consistency while preserving capacity for spontaneous, timely content.

❸ **Workflow Optimization:** Creates repeatable systems that scale from solo creator to team operation.

---

---

### Inputs

#### Required:

- **Core Content Type:** [Blog, video, podcast, what do you create?]
- **Target Platforms:** [Where do you want presence?]
- **Time Available:** [Hours per week for content?]
- **Goals:** [Reach, efficiency, consistency?]

#### Optional (Premium):

- **Existing Content:** [What do you already have?]
- **Team Support:** [Help with repurposing?]
- **Tools/Budget:** [What resources available?]

### Role & Expertise

You are a content multiplication strategist who creates maximum impact from minimum input. You understand how to adapt content for different platforms, maintain quality while repurposing, create systems for efficient transformation, and build content ecosystems from single pieces.

### Objective

Design a content repurposing system that creates 10-20 pieces from one core piece, maintains platform-appropriate quality, saves significant time and resources, maximizes content reach and lifespan, and builds sustainable production workflow.

### Success Criteria

Before finalizing, verify the system:

- ☒ Clear repurposing workflows
- ☒ Platform-specific adaptations

- ☒ Quality maintained
- ☒ Efficient to execute
- ☒ Strategic content distribution

## Execution Mode

### PHASE 1: Content Hierarchy

#### The Pyramid Model:

**Level 1: Pillar Content (1 piece)** Long-form, comprehensive, high-effort

Examples:

- Long YouTube video (20-30 min)
- Comprehensive blog post (2,000+ words)
- Podcast episode (45-60 min)
- In-depth guide or tutorial

**Level 2: Medium Content (3-5 pieces)** Substantial but shorter

Examples:

- YouTube Shorts/Reels (3-5 clips)
- LinkedIn article
- Twitter/X thread
- Instagram carousel

**Level 3: Micro Content (10-15 pieces)** Quick, bite-sized

Examples:

- Social media posts
- Stories/ephemeral content
- Quote graphics
- Single tweets
- Tips or insights

#### The 1:5:20 Ratio:

1 pillar piece → 5 medium pieces → 20 micro pieces

### PHASE 2: Repurposing Workflows

#### From Blog Post:

**Original:** 2,000-word blog post

**Repurpose to:**

1. **LinkedIn Article**

- Full post or condensed version
- Add platform-specific intro

2. **Twitter/X Thread (10-15 tweets)**

- Break into key points
- One tweet per section

3. **Instagram Carousel (7-10 slides)**

- Main points visualized
- Actionable tips format

4. **Email Newsletter**

- Excerpt + link to full post
- Value-add commentary

5. **5-10 Social Posts**

- Individual tips/quotes
- Each as standalone post

6. **Pinterest Pins (3-5)**

- Visual summaries
- Link back to blog

7. **Story Series**

- Break into 7-10 frames
- Quick tips format

**From Video:**

**Original:** 20-minute YouTube video

**Repurpose to:**

1. **YouTube Shorts (3-5)**

- Best moments/tips
- 30-60 seconds each

2. **Instagram Reels (3-5)**

- Same as Shorts
- Platform optimization

3. **TikTok Videos (3-5)**

- Trending format adaptations
- Niche-specific angles

#### 4. **Audio Podcast Episode**

- Extract audio
- Minor editing

#### 5. **Blog Post**

- Transcribe video
- Edit for readability
- Add visuals

#### 6. **LinkedIn Video Clips (2-3)**

- 2-3 minute segments
- Professional angle

#### 7. **Quote Graphics (5-10)**

- Pull quotable moments
- Design visual posts

#### 8. **Email Content**

- Summary + link
- Key takeaways

#### 9. **Twitter/X Thread**

- Main points outlined
- Clips embedded

#### 10. **Facebook Video**

- Upload natively
- Captions added

### **From Podcast:**

**Original:** 60-minute podcast episode

### **Repurpose to:**

#### 1. **Audiograms (5-10)**

- 30-60 second clips
- Visual waveforms
- Quote overlays

#### 2. **Blog Post**

- Full transcription
- Edited and formatted
- Show notes

#### 3. **YouTube Video**

- Audio + static/simple visual
- Or video recording if available

#### **4. Social Media Quotes (10-15)**

- Pull best quotes
- Design graphics

#### **5. Email Newsletter**

- Episode summary
- Key insights
- Listen link

#### **6. Thread/Long Posts**

- Main discussion points
- Platform-specific

#### **7. Story Highlights**

- Behind-the-scenes
- Key moments
- Quotes

### **PHASE 3: Efficient Execution**

#### **Batch Processing:**

#### **Create Pillar Content:**

- Produce 4 pillar pieces monthly
- 1 per week or batch all at once

#### **Immediate Repurposing:**

- While content is fresh
- Same day or next day
- Extract all medium pieces

#### **Scheduled Distribution:**

- Micro pieces released over time
- 1-2 weeks from pillar
- Fill content calendar

#### **Tools & Systems:**

#### **Transcription:**

- Otter.ai, Rev, Descript
- Turn video/audio to text

#### **Design:**

- Canva templates
- Consistent branding
- Quick creation

### **Scheduling:**

- Buffer, Later, Hootsuite
- Schedule all at once
- Set and forget

### **Video Editing:**

- Descript, Kapwing
- Quick clip extraction
- Auto-captioning

### **Workflow Example:**

#### **Monday: Create Pillar**

- Record video or write post
- 2-3 hours

#### **Tuesday: First Repurpose**

- Extract 3-5 clips
- Create thread
- Write LinkedIn article
- 2 hours

#### **Wednesday: Micro Content**

- Pull quotes
- Design graphics
- Write social posts
- 2 hours

#### **Thursday: Schedule**

- Load all content
- Schedule over next 2 weeks
- 1 hour

**Total:** 7-8 hours = 20-25 pieces of content

### **Quality Control:**

#### **Maintain Quality By:**

- Platform-specific optimization (don't just copy-paste)
- Re-write for each platform's audience

- Update examples/context
- Refresh visuals
- Check technical specs

#### Avoid:

- Exact duplicates across platforms
- Copy-paste without adaptation
- Ignoring platform best practices
- Over-repurposing (diminishing returns)

---

---

👉 STOP COPYING HERE

---

---

### Strategic Framework

❶ **Pyramid Architecture:** Creates content hierarchy that maximizes value extraction from single high-effort pieces.

❷ **Platform Translation:** Adapts content to platform norms rather than generic distribution.

❸ **Batch Efficiency:** Systematizes repurposing to achieve 10x output without 10x time investment.

## 7.5 Brand Voice & Messaging Framework

 IDENTITY DEFINITION | ★★★★★ Expert | ⌚ 40-50 minutes

---

---

👉 START COPYING HERE

---

---

### Inputs

#### Required:

- **Brand/Personal Values:** [What do you stand for?]
- **Target Audience:** [Who are you speaking to?]

- **Differentiation:** [What makes you unique?]
- **Communication Goals:** [What do you want people to feel/do?]

#### **Optional (Premium):**

- **Current Voice:** [How do you sound now?]
- **Inspiration Brands:** [Whose voice do you admire?]
- **Team Members:** [Multiple people creating content?]

### **Role & Expertise**

You are a brand messaging strategist who defines distinctive communication styles. You understand how to articulate brand voice, create guidelines that enable consistency, balance personality with professionalism, and ensure voice translates across platforms and creators.

### **Objective**

Develop a brand voice framework that creates distinctive, recognizable communication style, remains consistent across all content, reflects brand values authentically, guides all creators on your team, and resonates with target audience.

### **Success Criteria**

Before finalizing, verify the framework:

- ☒ Clear voice characteristics defined
- ☒ Actionable guidelines provided
- ☒ Examples for clarity
- ☒ Do's and Don'ts specified
- ☒ Adaptable across platforms

### **Execution Mode**

#### **PHASE 1: Voice Definition**

##### **The 3-5 Adjectives Method:**

Choose 3-5 adjectives that describe how you sound.

##### **Example: Fitness Coach**

- Motivating (not pushy)
- Educational (not preachy)
- Real (not perfect)
- Energetic (not chaotic)
- Supportive (not coddling)

##### **Example: B2B SaaS Company**

- Professional (not stuffy)
- Helpful (not salesy)
- Smart (not condescending)
- Human (not corporate)

**For Each Adjective, Define:**

**What it means:** Description of the characteristic

**What it looks like:** Specific examples

**What it doesn't mean:** Common misinterpretations

**Example Definition:**

**Adjective:** Motivating (not pushy)

**What it means:** We encourage and inspire action while respecting individual readiness and circumstances.

**What it looks like:**

- "You've got this - take it one step at a time"
- "Ready to level up? Here's how to start"
- Share success stories with actionable lessons

**What it doesn't mean:**

- Guilt-tripping ("No excuses!")
- Oversimplifying ("Just do it!")
- Ignoring obstacles or challenges

**PHASE 2: Messaging Architecture**

**Core Messages (3-5 Key Themes):**

What do you consistently communicate?

**Example: Marketing Consultant**

**Message 1:** Marketing doesn't require huge budgets **Message 2:** Consistency beats perfection **Message 3:** Know your audience deeply **Message 4:** Test, measure, optimize **Message 5:** Focus on few channels, done well

**Value Propositions:**

**For Each Audience Segment:**

What specific value do you provide? How do you uniquely solve their problem? Why should they listen to you?

### **Example:**

**Audience:** Small business owners **Problem:** Can't afford agency **Value:** DIY marketing guidance **Unique Angle:** Former agency owner teaching affordable alternatives **Why Listen:** Real agency experience, understands both sides

### **Messaging Principles:**

**Always:** ✓ Lead with value ✓ Speak to specific person ✓ Use concrete examples ✓ Be honest about limitations ✓ Show, don't just tell

**Never:** ✗ Use jargon without explanation ✗ Make promises you can't keep ✗ Talk down to audience ✗ Copy competitors' voice ✗ Be generic or vague

### **PHASE 3: Style Guidelines**

#### **Vocabulary:**

**Words We Use:** Build list of preferred terms

#### **Example:**

- "Community" not "audience"
- "Partner" not "vendor"
- "Invest" not "spend"
- "Challenge" not "problem"

#### **Words We Avoid:**

- Industry jargon
- Outdated terms
- Negative language
- Competitor buzzwords

#### **Sentence Structure:**

##### **Preferred:**

- Short sentences for clarity
- Active voice
- Second person ("you" focus)
- Conversational tone

**Example:** "You can start this today. No special skills needed." (vs. "This can be started today by anyone without special skills.")

#### **Punctuation & Formatting:**

##### **Our Style:**

- Use contractions (we're, you'll)

- Em dashes for emphasis — like this
- Sentence fragments okay. For emphasis.
- Numbers as numerals (10, not ten)
- Emojis: [Yes/No, how many, which ones]

### **Tone by Context:**

**Educational Content:** Authoritative but accessible

**Promotional Content:** Enthusiastic but not pushy

**Customer Service:** Helpful and empathetic

**Behind-the-Scenes:** Relaxed and personal

### **PHASE 4: Platform Adaptations**

**Voice stays consistent, format adapts.**

#### **Instagram:**

- More visual, less text
- Casual and relatable
- Personality forward

#### **LinkedIn:**

- Professional but personable
- Industry-relevant
- Thought leadership angle

#### **Twitter/X:**

- Concise and punchy
- Conversational
- Quick insights

#### **YouTube:**

- Conversational storytelling
- Educational and entertaining
- More personal

#### **Email:**

- Direct and personal
- Conversational tone
- Value-focused

### **Brand Voice Guidelines Document:**

## Section 1: Overview

- Brand mission
- Target audience
- Voice adjectives

## Section 2: Core Messages

- Key themes
- Value propositions
- Unique positioning

## Section 3: Style Guide

- Vocabulary (use/avoid)
- Grammar preferences
- Formatting rules

## Section 4: Examples

- Good examples
- Bad examples
- Before/After

## Section 5: Platform Notes

- Platform-specific adaptations
- Context guidelines

---

---

👉 STOP COPYING HERE

---

---

## Strategic Framework

**① Definitional Clarity:** Uses specific adjectives and contrasts to create precise, actionable voice guidelines.

**② Consistency Through Documentation:** Creates reference material that enables multiple creators to maintain voice.

**③ Flexible Application:** Maintains core voice while adapting expression to platform norms and contexts.

### **8.1 Comprehensive Performance Dashboard**

🏆 **METRICS MASTERY** | ★★★★★ Expert | ⌚ 40-50 minutes

---

---

👉 **START COPYING HERE**

---

---

#### **Inputs**

##### **Required:**

- **Business Goals:** [What are you trying to achieve?]
- **Active Platforms:** [Which platforms are you using?]
- **Current Tracking:** [What do you measure now?]
- **Resources:** [Tools, time, expertise available]

##### **Optional (Premium):**

- **Baseline Metrics:** [Current performance numbers]
- **Industry Benchmarks:** [Comparison data]
- **Historical Data:** [Past performance trends]

#### **Role & Expertise**

You are a social media analytics strategist who designs comprehensive measurement systems. You understand which metrics truly matter for different goals, how to avoid vanity

metrics, how to connect social performance to business outcomes, and how to present data for actionable insights.

## **Objective**

Create a performance dashboard that tracks meaningful metrics aligned with business goals, provides clear visibility into what's working, identifies opportunities for improvement, enables data-driven decisions, and reports efficiently without overwhelming.

## **Success Criteria**

Before finalizing, verify the dashboard:

- ☒ Metrics tied to business goals
- ☒ Actionable insights possible
- ☒ Regular tracking sustainable
- ☒ Clear reporting format
- ☒ Focuses on what matters

## **Execution Mode**

### **PHASE 1: Metrics Framework**

#### **The Metric Hierarchy:**

#### **Tier 1: Business Metrics (Most Important)** Direct business impact

Examples:

- Revenue generated
- Leads captured
- Sales conversions
- Customer acquisition cost
- Lifetime value

#### **Tier 2: Conversion Metrics** Actions toward business goals

Examples:

- Email signups
- Link clicks
- DM inquiries
- Form submissions
- Trial starts

#### **Tier 3: Engagement Metrics** Content performance

Examples:

- Engagement rate

- Comments
- Shares
- Saves
- Video completion rate

#### **Tier 4: Reach Metrics** Awareness indicators

Examples:

- Impressions
- Reach
- Follower growth
- Profile visits
- Video views

#### **Vanity Metrics to Avoid:**

These look good but don't drive business:

- Total followers (without engagement context)
- Likes only (without other engagement)
- Impressions only (without actions)
- Posting frequency (without results)

### **PHASE 2: Platform-Specific Metrics**

#### **Instagram:**

##### **Must Track:**

- Reach (unique accounts reached)
- Engagement rate (% of reach)
- Profile visits
- Link clicks (if applicable)
- Saves (highest value signal)
- Story completion rate

**Calculate:** Engagement Rate = (Likes + Comments + Saves + Shares) / Reach × 100

##### **Goals:**

- Engagement rate: 3-6% good, 6%+ excellent
- Story completion: 70%+ good
- Profile visit rate: 2-5% of reach

#### **LinkedIn:**

##### **Must Track:**

- Impressions

- Engagement rate
- Click-through rate
- Follower growth
- Profile views
- Connection requests
- Post shares (highest value)

**Calculate:** Engagement Rate = (Likes + Comments + Shares) / Impressions × 100

**Goals:**

- Engagement rate: 2%+ good
- CTR: 1-2% good
- Share rate: 1%+ excellent

**Twitter/X:**

**Must Track:**

- Impressions
- Engagement rate
- Profile visits
- Link clicks
- Retweets
- Replies
- Follower growth rate

**Calculate:** Engagement Rate = (Likes + RTs + Replies + Clicks) / Impressions × 100

**Goals:**

- Engagement rate: 2-5% good
- Profile visit rate: 1-3% of impressions
- CTR: 1-3% good

**TikTok:**

**Must Track:**

- Views
- Average watch time (%)
- Likes
- Comments
- Shares
- Follower growth
- Profile views

**Calculate:** Completion Rate = Avg Watch Time / Video Length × 100

**Goals:**

- Watch time: 80%+ excellent
- Share rate: 5%+ indicates viral potential
- Follower conversion: 1-3% of viewers

### **YouTube (Shorts):**

#### **Must Track:**

- Views
- Watch time (%)
- Likes
- Comments
- Shares
- Subscribers gained
- Click-through to long-form

#### **Goals:**

- Watch time: 80%+ good
- Like rate: 3-5% of views
- Subscriber conversion: 0.5-2% of views

### **Facebook:**

#### **Must Track:**

- Reach
- Engagement rate
- Post clicks
- Video views (if applicable)
- Page followers
- Messages received

**Calculate:** Engagement Rate = (Reactions + Comments + Shares) / Reach × 100

#### **Goals:**

- Engagement rate: 1-3% good (organic reach is tough)
- Share rate: 0.5%+ good
- Response time: <1 hour

### **PHASE 3: Dashboard Design**

#### **Weekly Dashboard:**

##### **Section 1: Business Impact**

- Leads generated: [Number]
- Website traffic from social: [Number]
- Conversions: [Number]

- Revenue attributed: \$[Amount]

## Section 2: Growth

- Total followers (all platforms): [Number] (+/- from last week)
- Follower growth rate: [%]
- Profile visits: [Number]
- Top growing platform: [Platform name]

## Section 3: Engagement

- Total engagement: [Number]
- Average engagement rate: [%]
- Most engaging content type: [Type]
- Top post this week: [Link + metrics]

## Section 4: Content Performance

- Posts published: [Number]
- Avg reach per post: [Number]
- Avg engagement per post: [Number]
- Best performing pillar: [Pillar name]

## Section 5: Action Items

- What worked: [Insights]
- What didn't: [Learnings]
- Next week focus: [Priority]

## Monthly Dashboard:

### Overview:

- Goal: [Your main goal]
- Progress: [X% toward goal]
- Forecast: [On track / behind / ahead]

### Platform Breakdown:

For Each Platform:

- Follower count: [Start → End]
- Engagement rate: [%]
- Top 3 posts: [Links + metrics]
- Key insights: [Learnings]

### Content Analysis:

- Total posts: [Number]
- Post by pillar: [Distribution]

- Post by type: [Distribution]
- Best performing: [Pattern]

#### **Audience Insights:**

- Demographics shifts
- Engagement patterns
- Peak activity times
- Content preferences

#### **Business Impact:**

- Leads: [Number] vs goal
- Conversions: [Number] vs goal
- ROI: \$[Return] from \$[Investment]

#### **Next Month Strategy:**

- Continue: [What's working]
- Test: [New experiments]
- Stop: [What's not working]
- Focus: [Priority areas]

### **PHASE 4: Tracking Systems**

#### **Tools:**

##### **Free:**

- Platform native analytics
- Google Analytics
- Google Sheets for aggregation
- UTM parameters for tracking

##### **Paid (Worthwhile):**

- Metricool (multi-platform)
- Sprout Social (comprehensive)
- Hootsuite Analytics
- Later analytics

#### **Tracking Workflow:**

##### **Weekly (30 minutes):** Monday morning:

1. Export key metrics from each platform
2. Update dashboard
3. Identify top/bottom performers
4. Note insights

**Monthly (2 hours):** First of month:

1. Compile full monthly data
2. Analyze patterns
3. Compare to goals
4. Plan next month adjustments

**Quarterly (4 hours):** Every 90 days:

1. Deep performance review
2. Trend analysis
3. Goal reassessment
4. Strategy pivot if needed

**Attribution Tracking:**

**UTM Parameters:**

For every link shared:

`?utm_source=instagram&utm_medium=social&utm_campaign=product_launch`

Track:

- Which platform drives traffic
- Which content types convert
- Which campaigns perform best

**Conversion Tracking:**

Set up:

- Landing page analytics
- Form submission tracking
- Email signup sources
- Purchase attribution

**Data-Driven Decision Framework:**

**Question:** Should I post more on Platform X?

**Data Needed:**

- Engagement rate on Platform X
- Conversion rate from Platform X
- Time investment vs other platforms
- Audience overlap

**Decision:** Only if engagement + conversions + efficiency justify it.

---

👉 STOP COPYING HERE

---

## 🧠 Strategic Framework

❶ **Goal-Metric Alignment:** Ensures every tracked metric connects to business objectives, avoiding vanity metrics.

❷ **Tiered Measurement:** Prioritizes business impact over surface-level engagement numbers.

❸ **Actionable Reporting:** Designs dashboards that enable decisions rather than just presenting numbers.

---

## 💎 8.2 A/B Testing Framework

🏆 **SCIENTIFIC OPTIMIZATION** | ★★★★★ Expert | ⌚ 35-45 minutes

---

👉 START COPYING HERE

---

## 📦 Inputs

**Required:**

- **Hypothesis:** [What do you want to test?]
- **Current Baseline:** [Current performance metric]
- **Success Metric:** [What defines "better"?]
- **Testing Duration:** [How long will you test?]

**Optional (Premium):**

- **Variable Options:** [What variations will you test?]
- **Audience Size:** [Large enough for statistical significance?]
- **Past Tests:** [What have you tested before?]

## 🧑🏽 Role & Expertise

You are a social media experimentation strategist who designs rigorous A/B tests. You understand statistical significance, how to isolate variables, how to run valid tests across social platforms, and how to translate test results into systematic improvements.

## **Objective**

Design and execute A/B tests that isolate specific variables, generate statistically valid results, provide clear learnings, enable systematic optimization, and compound into significant performance gains.

## **Success Criteria**

Before finalizing, verify the test:

- ☒ Single variable isolated
- ☒ Clear hypothesis stated
- ☒ Success metric defined
- ☒ Sufficient sample size
- ☒ Actionable conclusion possible

## **Execution Mode**

### **PHASE 1: Testing Fundamentals**

#### **What Is A/B Testing?**

Comparing two versions (A vs B) where only ONE thing is different.

**Version A (Control):** Current approach **Version B (Variant):** One change

**Critical Rule:** Change only ONE variable at a time.

**Why? If you change hook AND posting time, you won't know which caused the difference.**

#### **What to Test:**

##### **Content Variables:**

- Hook style (question vs statement)
- Post length (short vs long)
- Content format (carousel vs single image)
- CTA placement (beginning vs end)
- Tone (casual vs professional)

##### **Visual Variables:**

- Thumbnail style
- Color schemes
- Text overlay (yes vs no)

- First frame content
- Visual complexity

#### **Tactical Variables:**

- Posting time
- Hashtag quantity (3 vs 10)
- Caption length
- Emoji usage
- Link placement

#### **Not Testable (too many variables):**

- "New strategy" vs old
- Different topics entirely
- Multiple changes at once

### **PHASE 2: Test Design**

#### **The Testing Template:**

**1. Hypothesis:** "I believe [change] will [increase/decrease] [metric] because [reasoning]."

**Example:** "I believe posting at 7 AM instead of 2 PM will increase reach by 20% because my audience is more active in the morning."

**2. Variable:** What exactly are you changing?

"Posting time: 7 AM vs 2 PM"

**3. Control (A):** Current approach

"Version A: Post at 2 PM (current time)"

**4. Variant (B):** One change only

"Version B: Post at 7 AM (test time)"

**5. Success Metric:** How you'll measure

"Reach in first 24 hours"

**6. Sample Size:** How many tests

"10 posts per time slot (20 total posts)"

**7. Duration:** How long to test

"2 weeks (5 posts per week each version)"

**8. Expected Result:** Prediction

"Version B will achieve 20%+ higher reach"

### **Statistical Significance:**

For reliable results:

- Minimum 30 data points per variant (60 total)
- Or 100+ engagements per variant
- Larger sample = more reliable

### **Sample Size Examples:**

**Small account (<5K followers):** Test over longer period (4-6 weeks) Smaller differences won't be conclusive

**Medium account (5K-50K):** 2-4 weeks usually sufficient Can detect 15-20% differences

**Large account (50K+):** 1-2 weeks often enough Can detect smaller differences (10%+)

### **PHASE 3: Test Execution**

#### **Setup:**

#### **Week 0 (Preparation):**

- Define hypothesis
- Choose variable
- Create both versions
- Set success metric
- Plan content schedule

#### **Testing Period:**

#### **Strict Alternation:**

#### **Week 1:**

- Monday 7 AM: Version B
- Tuesday 2 PM: Version A
- Wednesday 7 AM: Version B
- Thursday 2 PM: Version A
- Friday 7 AM: Version B

#### **Week 2:**

- Continue alternating
- Keep all other factors equal
- Same content quality
- Same topic relevance

#### **Data Collection:**

### Track for Each Post:

- Timestamp
- Version (A or B)
- Success metric (e.g., reach)
- Secondary metrics
- Any anomalies (trending topic, etc.)

### Example Tracking Sheet:

| Date  | Time  | Version | Reach | Engagement | Notes  |
|-------|-------|---------|-------|------------|--------|
| ----- | ----- | -----   | ----- | -----      | -----  |
| Mon 1 | 7 AM  | B       | 5,234 | 456        | Normal |
| Tue 2 | 2 PM  | A       | 3,890 | 312        | Normal |
| Wed 3 | 7 AM  | B       | 5,567 | 478        | Normal |
| Thu 4 | 2 PM  | A       | 3,456 | 289        | Normal |

## PHASE 4: Analysis & Implementation

### Calculate Results:

#### Average Performance:

Version A (2 PM):

- Average reach: 3,673
- Average engagement: 300.5

Version B (7 AM):

- Average reach: 5,400.5
- Average engagement: 467

**Percentage Difference:**  $(5,400.5 - 3,673) / 3,673 \times 100 = 47\% \text{ increase}$

### Decision Framework:

**Clear Winner (15%+ difference):** → Implement winning version → Make it standard practice

**Marginal Difference (5-15%):** → Test longer for confirmation → Consider effort vs gain

**No Difference (<5%):** → Variable doesn't matter → Focus testing elsewhere

**Counterintuitive Result:** → Dig deeper into why → May reveal important insight

### Implementation:

#### If Version B Wins:

1. Update standard practice
2. Document learning
3. Plan next test
4. Monitor continued performance

**Example Learning:** "7 AM posts reach 47% more people. New standard: Post primary content at 7 AM, secondary at 2 PM."

### Test Progression:

**Test 1:** Posting time → Found: 7 AM best

**Test 2:** Hook style (at 7 AM) → Found: Question hooks +20%

**Test 3:** Post length (question hooks at 7 AM) → Found: 500 characters +15%

**Test 4:** CTA placement (optimized posts) → Found: End CTA +10%

**Compound Effect:** 47% + 20% + 15% + 10% = 92% total improvement through systematic testing

### Testing Calendar:

#### Month 1:

- Weeks 1-2: Test posting time
- Weeks 3-4: Test hook style

#### Month 2:

- Weeks 1-2: Test visual format
- Weeks 3-4: Test caption length

#### Month 3:

- Weeks 1-2: Test CTA style
- Weeks 3-4: Test hashtag strategy

### Common Testing Mistakes:

✗ Changing multiple variables ✗ Sample size too small ✗ Testing period too short ✗ Ignoring anomalies ✗ Not documenting learnings ✗ Testing unimportant things ✗ Stopping after one test

✓ One variable at a time ✓ Sufficient data points ✓ Long enough duration ✓ Note unusual events ✓ Build learning library ✓ Test what matters ✓ Continuous optimization

---

---

👉 STOP COPYING HERE

---

---

---

## Strategic Framework

- ① **Variable Isolation:** Ensures clean experiments that produce actionable learnings.
  - ② **Statistical Rigor:** Uses appropriate sample sizes and durations for valid conclusions.
  - ③ **Compound Optimization:** Stacks validated improvements to achieve significant cumulative gains.
-

---

## Inputs

### Required:

- **Current Audience:** [Who follows you now?]
- **Platform Data:** [Access to analytics?]
- **Engagement Patterns:** [What content do they engage with?]

### Optional (Premium):

- **Ideal Audience:** [Who do you want to attract?]
- **Audience Feedback:** [DMs, comments, surveys?]
- **Competitor Audiences:** [Who follows similar accounts?]

## Role & Expertise

You are a social media audience analyst who extracts actionable insights from audience data. You understand demographic analysis, behavioral patterns, content preferences, and how to translate audience insights into content strategy improvements.

## Objective

Analyze audience data to understand who your audience really is, what content they engage with most, when they're most active, what problems/interests they have, and how to serve them better.

## **Success Criteria**

Before finalizing, verify the analysis:

- ☒ Clear audience profile created
- ☒ Engagement patterns identified
- ☒ Content preferences understood
- ☒ Timing insights gathered
- ☒ Action items generated

## **Execution Mode**

### **PHASE 1: Demographic Analysis**

#### **Platform Analytics:**

##### **Instagram:**

- Insights → Audience
- Age/gender breakdown
- Top locations
- Active times

##### **LinkedIn:**

- Analytics → Followers
- Job titles/functions
- Company size/industry
- Seniority levels
- Education

##### **Twitter/X:**

- Analytics → Audience
- Interests
- Demographics (limited)
- Household income (US)

##### **TikTok:**

- Analytics → Followers
- Gender
- Top territories
- Videos watched

##### **Facebook:**

- Insights → People
- Age/gender
- Location
- Language

### **Key Questions:**

#### **1. Who actually follows me?**

- Age range
- Gender split
- Geographic location
- Professional status (if B2B)

#### **2. Is this my intended audience?**

- Compare to ideal customer profile
- Gap analysis
- Why the mismatch if any?

#### **3. What patterns exist?**

- Concentration in specific demographics
- Unexpected audience segments
- Opportunities or problems?

### **PHASE 2: Behavioral Analysis**

#### **Engagement Patterns:**

#### **Content They Engage With Most:**

Pull your top 20 performing posts:

- What topics?
- What formats?
- What emotions?
- What value?

#### **Pattern Recognition:**

Example findings: "My audience engages most with: → 70% tutorial/how-to content → 20% behind-the-scenes → 10% personal stories

Format breakdown: → Carousels: 65% of top posts → Reels: 25% → Single images: 10%

Topics: → Beginner-friendly content: 80% → Advanced: 20%

Insight: My audience is early in their journey and prefers step-by-step visual guides."

#### **Activity Timing:**

### **When They're Online:**

Platform analytics show:

- Peak activity hours
- Active days
- Engagement timing

### **Test & Validate:**

Your optimal times might differ from platform averages.

### **Data to collect:**

- Post time vs engagement rate
- Day of week performance
- Time to peak engagement

### **Example Analysis:**

"Platform says 6-9 AM best. My data shows: → 7 AM: 15% above average engagement → 12 PM: 25% above average → 6 PM: 10% below average

Action: Focus on 7 AM and 12 PM posting."

## **PHASE 3: Psychographic Analysis**

### **Beyond Demographics:**

#### **What They Care About:**

Analyze comments and DMs:

- What questions do they ask?
- What problems do they mention?
- What frustrates them?
- What excites them?
- What language do they use?

### **Comment Analysis:**

Review 100 recent comments:

#### **Common themes:**

- "How do I start with zero experience?"
- "This is exactly what I needed"
- "Can you explain [topic] more?"
- "Where can I learn more?"

### **Insights:**

- Audience is beginner-level
- Values step-by-step guidance
- Wants more depth
- Looking for resources

### **DM Patterns:**

What do people message about?

- Questions about specific topics
- Service/product inquiries
- Collaboration requests
- Personal stories

### **Content Preferences:**

#### **Survey Your Audience:**

Instagram Story poll: "What content do you want more of? A) Tutorials B) Behind-the-scenes C) Case studies D) Q&A"

LinkedIn poll: "What's your biggest challenge with [topic]?"

Twitter question: "If I could only create one type of content, which would help you most?"

### **PHASE 4: Gap Analysis**

#### **Current vs Ideal Audience:**

##### **Current Audience:**

- Who they are
- What they engage with
- Where they're located
- What they need

##### **Ideal Audience (ICP):**

- Who you want to attract
- What they would value
- Where to find them
- What they're willing to pay for

#### **Gap Identification:**

##### **Example:**

Current: Mostly beginners, no budget Ideal: Intermediate with budget

**Gap:** Content too basic for paying clients

## **Action:**

- 60% beginner content (nurture)
- 30% intermediate (convert)
- 10% advanced (authority)

## **Audience Refinement Strategy:**

### **To Attract Different Audience:**

#### **1. Shift content focus**

- More of what ideal audience wants
- Less of what attracts wrong audience

#### **2. Change messaging**

- Speak to their level
- Address their specific problems
- Use their language

#### **3. Adjust platforms**

- Go where ideal audience is
- Reduce effort on mismatched platforms

#### **4. Partnership strategy**

- Collaborate with accounts that have ideal audience
- Cross-promotion with right fit

### **To Serve Current Audience Better:**

#### **1. Content adjustments**

- More of what they engage with
- Fill gaps they've identified
- Match their sophistication level

#### **2. Format optimization**

- Use formats they prefer
- Adapt to their consumption habits

#### **3. Timing optimization**

- Post when they're most active
- Frequency they can handle

#### **4. Value enhancement**

- Solve their specific problems
- Answer their questions
- Provide depth they need

## Quarterly Audience Review:

Every 90 days:

- ☒ Run demographic analysis
- ☒ Review top content patterns
- ☒ Analyze comment themes
- ☒ Survey audience
- ☒ Compare to ideal customer profile
- ☒ Adjust strategy accordingly

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

- ➊ **Multi-Dimensional Analysis:** Combines demographics, behavior, and psychographics for complete picture.
- ➋ **Pattern Recognition:** Identifies consistent themes across data sources for reliable insights.
- ➌ **Action-Oriented:** Translates insights into specific content and strategy adjustments.

---

---

## 📦 Inputs

Required:

- **Current Performance:** [Baseline metrics]
- **Content Library:** [Access to past posts]
- **Improvement Goals:** [What do you want to improve?]
- **Time Commitment:** [Hours per week for optimization]

Optional (Premium):

- **Top Performers:** [Your best content]
- **Competitor Benchmarks:** [Industry standards]
- **Resource Constraints:** [Budget, tools, team]

## **Role & Expertise**

You are a content optimization specialist who systematically improves performance. You understand how to analyze what works, identify improvement opportunities, implement changes methodically, and create sustainable optimization processes.

## **Objective**

Create a content optimization system that identifies high-potential improvements, implements changes systematically, measures impact accurately, builds on successes, and creates continuous performance gains.

## **Success Criteria**

Before finalizing, verify the system:

- ☒ Clear optimization process
- ☒ Prioritized improvement areas
- ☒ Testing methodology
- ☒ Impact measurement
- ☒ Sustainable execution

## **Execution Mode**

### **PHASE 1: Performance Audit**

#### **Content Inventory:**

#### **Pull all content from last 90 days:**

For each post, record:

- Platform
- Date/time posted
- Content type (Reel, carousel, etc.)
- Topic/pillar
- Hook/first line
- Reach
- Engagement (total)
- Engagement rate (%)
- Saves/shares
- Comments

#### **Categorize Performance:**

**Top 20% (Winners):** Significantly above average Study and replicate

**Middle 60% (Average):** Baseline performance Optimize systematically

**Bottom 20% (Losers):** Below average Understand why and avoid

**Top Performer Analysis:**

**For Your Best 10 Posts:**

**What they have in common:**

- Topics: [Pattern?]
- Formats: [Preference?]
- Hooks: [Style?]
- Length: [Optimal?]
- Timing: [When posted?]
- Emotional angle: [How do they make people feel?]

**Example Findings:**

"My top performers are: → 80% how-to tutorials → 100% carousel format → 90% question hooks → Average 7 slides → 70% posted 7-9 AM → Make people feel: Capable, motivated

Insight: Audience values actionable tutorials in visual, step-by-step format."

**Bottom Performer Analysis:**

**For Your Worst 10 Posts:**

**Why they flopped:**

- Wrong topic for audience?
- Poor hook?
- Bad timing?
- Format mismatch?
- Low-quality execution?

**Example:**

"My worst posts: → 60% promotional content → 70% single-image format → 80% generic hooks → 50% posted evenings

Insight: Audience resists direct promotion and prefers multi-image educational content."

**PHASE 2: Optimization Opportunities**

**The Optimization Matrix:**

**High Impact + Low Effort = DO FIRST**

Examples:

- Improve hooks (huge impact, quick fix)
- Better posting times
- Add CTAs

### **High Impact + High Effort = DO NEXT**

Examples:

- Create more winning format (carousels vs single images)
- Develop content series
- Improve visual quality

### **Low Impact + Low Effort = DO LATER**

Examples:

- Adjust emoji usage
- Fine-tune hashtags
- Caption formatting

### **Low Impact + High Effort = DON'T DO**

Examples:

- Over-designing posts
- Chasing every trend
- Posting everywhere

### **Prioritized Improvements:**

**Month 1 Focus: Hooks** Current: Generic, weak Target: Question-based, specific Expected impact: +30% engagement

**Month 2 Focus: Format** Current: Mix of formats Target: More carousels (proven winner) Expected impact: +20% reach

**Month 3 Focus: Posting Time** Current: Random times Target: Optimal windows (7-9 AM) Expected impact: +25% engagement

### **PHASE 3: Implementation Framework**

#### **The Optimization Cycle:**

#### **Week 1: Implement Change**

- Apply one optimization
- Document what changed
- Post as usual

## **Week 2: Monitor**

- Track performance
- Compare to baseline
- Note any issues

## **Week 3: Analyze**

- Did it work?
- By how much?
- Worth keeping?

## **Week 4: Decide & Plan**

- Keep or revert
- Plan next optimization
- Document learning

### **Testing Template:**

**Optimization:** Improve hooks from generic to question-based

### **Baseline:**

- Current avg engagement: 450
- Current engagement rate: 3.2%

### **Implementation:**

- All posts this week: Question hooks
- Format: "How do you [problem]?"
- Keep everything else same

### **Results after 10 posts:**

- New avg engagement: 615 (+36%)
- New engagement rate: 4.4% (+37%)

**Decision:** ✓ Keep question hooks as standard

**Next:** Test different question styles

### **Optimization Checklist:**

**Before Posting:** ☒ Hook tested against formula ☒ Visual quality checked ☒ Caption includes CTA ☒ Posted at optimal time ☒ Hashtags relevant (3-5) ☒ Alt text added (accessibility) ☒ Preview checked on mobile

**After Posting:** ☒ Reply to early comments (first 30 min) ☒ Engage with similar content ☒ Monitor first hour performance ☒ Save high-performers for later analysis

## **PHASE 4: Scaling What Works**

### **Content Formulas:**

**When you find winners, create formulas:**

### **Example Formula:**

"Tutorial Carousel Formula:

- Slide 1: Question hook + promise
- Slides 2-6: Step-by-step (1 per slide)
- Slide 7: Recap + CTA
- Visual: Consistent template
- Time: 7 AM
- Caption: Story + question

Expected: 4%+ engagement rate"

### **Formula Library:**

Build 3-5 proven formulas:

- Educational carousel
- Behind-the-scenes Reel
- Quick tip post
- Case study thread
- Story series

### **Use formulas 70% of time:**

- Reliable performance
- Efficient creation
- Proven results

### **Reserve 30% for experimentation:**

- Test new ideas
- Stay fresh
- Find next winner

### **Continuous Improvement:**

#### **Monthly:**

- Review top/bottom performers
- Update formulas
- Test one new optimization

#### **Quarterly:**

- Deep performance audit
- Major strategy adjustments
- Set new benchmarks

#### Yearly:

- Complete strategic overhaul
- Analyze annual trends
- Set next year goals

#### Optimization Metrics:

##### Track:

- Baseline performance (start)
- Current performance (now)
- Improvement percentage
- Optimizations implemented
- Tests run
- Wins vs losses

#### Example Progress:

"January baseline: 3.2% engagement June current: 5.8% engagement Improvement: +81%

Optimizations: → Question hooks: +37% → Carousel focus: +20% → Optimal timing: +24%

Tests run: 12 Wins: 8 Losses: 4 Win rate: 67%"

---

---

👉 STOP COPYING HERE

---

---

#### Strategic Framework

**① Performance-Based Learning:** Studies actual results rather than assumptions to guide improvements.

**② Systematic Experimentation:** Uses structured process to test, measure, and implement optimizations.

**③ Formula Development:** Codifies successful patterns into repeatable formulas for consistent results.

---

## 8.5 Competitor Analysis & Benchmarking

 **COMPETITIVE INTELLIGENCE** | ★★★★★☆ Advanced | ⌚ 35-45 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

#### **Required:**

- **Your Niche:** [Industry/topic area]
- **Your Performance:** [Current metrics]
- **Competitors:** [3-5 similar accounts]
- **Analysis Goals:** [What do you want to learn?]

#### **Optional (Premium):**

- **Competitor List:** [Specific accounts to analyze]
- **Tools Access:** [Social Blade, etc.]
- **Time Period:** [How far back to analyze?]

### **Role & Expertise**

You are a competitive analysis specialist who extracts strategic insights from competitor performance. You understand how to identify relevant competitors, analyze their strategies objectively, spot opportunities and threats, and translate insights into competitive advantages.

### **Objective**

Conduct competitor analysis that identifies what's working in your niche, spots content gaps and opportunities, benchmarks your performance, inspires strategic improvements, and avoids copying while learning from success.

### **Success Criteria**

Before finalizing, verify the analysis:

- ☒ Relevant competitors identified
- ☒ Strategic insights extracted
- ☒ Opportunities identified
- ☒ Benchmarks established

- ☒ Action plan created

## Execution Mode

### PHASE 1: Competitor Identification

#### Who to Analyze:

##### Tier 1: Direct Competitors (2-3 accounts)

- Same niche
- Similar size (+/- 50%)
- Same audience

##### Tier 2: Aspirational (1-2 accounts)

- Same niche
- Larger (2-10x your size)
- Where you want to be

##### Tier 3: Adjacent (1-2 accounts)

- Related niche
- Similar audience
- Different angle

#### Selection Criteria:

##### Include:

- Active posting (3+ per week)
- Engaged audience
- Similar content type
- Relevant geography/language

##### Avoid:

- Bought followers (high follower, low engagement)
- Different business model
- Completely different niche
- Inactive accounts

#### Example Competitor Set:

**Your Account:** Fitness coach, 15K followers

##### Direct Competitors:

- @FitnessCoach1: 12K followers, similar content
- @WorkoutGuru: 18K followers, similar approach

**Aspirational:**

- @BigFitness: 150K followers, proven strategies

**Adjacent:**

- @HealthyEating: 20K followers, nutrition focus
- @MindsetCoach: 25K followers, motivation angle

**PHASE 2: Performance Analysis****For Each Competitor, Track:****Profile:**

- Follower count
- Following count
- Bio/positioning
- Link strategy
- Profile optimization

**Content Strategy:**

- Posting frequency
- Content pillars (topics)
- Content types (format mix)
- Tone/voice
- Visual style

**Performance:**

- Average likes
- Average comments
- Engagement rate
- Top performing content
- Growth rate (if trackable)

**Audience:**

- Who comments
- Comment quality
- Audience questions
- Community vibe

**Analysis Template:**

**Competitor:** @FitnessCoach1

**Strategy:**

- Posts: 5x per week

- Format: 60% Reels, 30% Carousels, 10% Singles
- Topics: Workouts (50%), Nutrition (30%), Mindset (20%)
- Tone: Motivational but realistic

#### **Performance:**

- Followers: 12K
- Avg engagement: 680 per post
- Engagement rate: 5.7%
- Best content: Workout tutorials (7-8% engagement)

#### **What Works:**

- Short workout demos with text overlays
- Before/after transformations
- "No equipment" content
- Question hooks

#### **What Doesn't:**

- Promotional posts (2% engagement)
- Generic motivation quotes
- Long captions

#### **Opportunities:**

- They don't do nutrition deep-dives (I could)
- Minimal community engagement
- No content series

### **PHASE 3: Gap & Opportunity Analysis**

#### **Content Gaps:**

##### **They're doing:**

- Workout tutorials
- Transformation stories
- Quick tips

##### **They're NOT doing:**

- Meal prep guides (opportunity)
- Recovery content (gap)
- Long-form education (opening)
- Community challenges (untapped)

**Your Opportunity:** Fill these gaps while maintaining your strengths.

#### **Format Opportunities:**

### Underutilized Formats:

- Carousels (they use, but rare)
- Story series (almost never)
- Live Q&As (never)

**Your Advantage:** Double down on these formats.

### Audience Opportunities:

**What their audience asks for:** (From comment analysis)

- "How do I start with zero experience?"
- "What about [specific issue]?"
- "Can you make content about [topic]?"

**Unmet Needs:** Create content answering these.

### Timing Opportunities:

**When They Post:**

- Mostly evenings (6-8 PM)

**Opportunity:**

- Post mornings (less competition)

### Positioning Opportunities:

**Their Positioning:** "Get fit fast"

**Your Differentiation:** "Sustainable fitness for busy people"

### PHASE 4: Benchmarking & Action

#### Performance Benchmarks:

**Niche Averages (from analysis):**

| Metric           | Average | Top 25% | Your Current | Your Goal |
|------------------|---------|---------|--------------|-----------|
| Engagement Rate  | 4.5%    | 6.5%    | 3.8%         | 6.0%      |
| Posts/Week       | 4.5     | 6       | 3            | 5         |
| Story Frames/Day | 5       | 10      | 2            | 7         |

|            |   |   |   |   |
|------------|---|---|---|---|
| Reels/Week | 3 | 5 | 2 | 4 |
|------------|---|---|---|---|

**Insight:** You're posting less frequently than competitors. Increase to 5 posts/week.

### **Strategic Actions:**

#### **From Competitor Analysis:**

##### **1. Adopt Proven Tactics (Adapt, Don't Copy)**

What works for them:

- Question hooks
- Workout tutorials under 60 seconds
- Before/after format

Your adaptation:

- Use question hooks with your voice
- Create tutorials for YOUR specific niche
- Share YOUR client transformations

##### **2. Fill Content Gaps**

What they're missing:

- Meal prep content
- Recovery strategies

Your opportunity:

- Weekly meal prep carousel
- Recovery tips series

##### **3. Differentiate**

Where they're similar:

- All use motivational tone

Your difference:

- Add realistic/relatable angle
- Show struggles, not just wins

##### **4. Improve Weaknesses**

Your gaps vs competitors:

- You post 3x/week, they post 5x
- You have fewer Reels

Actions:

- Increase to 5 posts/week
- Create 4 Reels weekly

### Competitive Monitoring:

#### Monthly Check (30 min):

- Quick scan of top competitors
- Note any strategy changes
- Track their growth
- Identify new opportunities

#### Quarterly Deep Dive (2 hours):

- Full performance analysis
- Update benchmarks
- Adjust your strategy
- Find new competitors

### Ethics & Originality:

**DO:** ✓ Learn from successful formats ✓ Understand what audiences want ✓ Benchmark your performance ✓ Identify market gaps ✓ Get inspired

**DON'T:** ✗ Copy content directly ✗ Steal ideas without adaptation ✗ Use their exact hooks/captions ✗ Obsess over competitors ✗ Lose your unique voice

**Remember:** Study to improve, don't copy to compete.

---

---

👉 STOP COPYING HERE

---

---

### 🧠 Strategic Framework

❶ **Tiered Analysis:** Studies direct, aspirational, and adjacent competitors for comprehensive market view.

❷ **Opportunity Focus:** Identifies content gaps and unmet audience needs rather than just copying success.

❸ **Ethical Learning:** Draws strategic insights and inspiration while maintaining unique voice and originality.

## 5 Advanced Prompts for Data-Driven Growth

These premium prompts help you move beyond vanity metrics to build data-driven optimization systems. Use these to understand what's working, why it's working, and how to systematically improve performance.

---

## 8.1 Comprehensive Performance Tracking System

**MEASUREMENT FRAMEWORK** | ★★★★★ Expert | ⌚ 40-50 minutes

---

---

**START COPYING HERE**

---

---

### Inputs

#### Required:

- **Business Goals:** [What are you trying to achieve?]
- **Active Platforms:** [Which platforms do you use?]
- **Current Metrics:** [What do you track now, if anything?]
- **Available Tools:** [Native analytics, third-party tools?]

#### Optional (Premium):

- **Team Size:** [Who will use this data?]
- **Reporting Cadence:** [Daily, weekly, monthly review?]
- **Historical Data:** [Past performance to baseline?]

### Role & Expertise

You are a social media analytics strategist who builds comprehensive measurement systems. You understand which metrics actually matter for business goals, how to connect social performance to business outcomes, and how to create dashboards that drive action rather than confusion.

## **Objective**

Create a performance tracking system that measures what matters for your goals, connects social metrics to business outcomes, provides actionable insights (not just numbers), enables data-driven optimization, and scales from solo creator to team.

## **Success Criteria**

Before finalizing, verify the system:

- ☒ Metrics aligned with goals
- ☒ Clear tracking methodology
- ☒ Actionable reporting format
- ☒ Realistic to maintain
- ☒ Drives decision-making

## **Execution Mode**

### **PHASE 1: Metrics Framework**

#### **The Three Metric Tiers:**

**Tier 1: Business Metrics (Ultimate Goals)** What actually matters to your business

Examples:

- Revenue generated
- Leads/customers acquired
- Email subscribers gained
- Sales/bookings made
- Brand awareness (surveys)

**Tier 2: Conversion Metrics (Leading Indicators)** Actions that lead to business results

Examples:

- Link clicks
- Profile visits
- DM conversations
- Lead form submissions
- Landing page visits
- Video views (on owned content)

**Tier 3: Engagement Metrics (Supporting Data)** Platform-specific engagement

Examples:

- Followers/subscribers
- Likes, comments, shares
- Reach and impressions
- Engagement rate
- Watch time

### **Metric Selection by Goal:**

#### **Goal: Generate Leads**

**Tier 1:** Leads captured (email signups, contact forms) **Tier 2:** Link clicks, landing page visits, lead magnet downloads **Tier 3:** Engagement rate, profile visits, follower growth

#### **Goal: Drive Sales**

**Tier 1:** Revenue, customers, AOV (average order value) **Tier 2:** Product page visits, cart adds, checkout starts **Tier 3:** Post engagement, reach, click-through rate

#### **Goal: Build Audience**

**Tier 1:** Followers/subscribers (quality, not just quantity) **Tier 2:** Profile visits, follow-backs, subscriber retention **Tier 3:** Engagement rate, content saves, shares

#### **Goal: Establish Authority**

**Tier 1:** Speaking invitations, media features, partnership offers **Tier 2:** DM quality, connection requests, collaboration inquiries **Tier 3:** Content saves, shares, comment quality

### **PHASE 2: Tracking Implementation**

#### **Platform-Specific Tracking:**

##### **Instagram:**

##### **Native Analytics:**

- Reach and impressions
- Profile visits
- Website clicks
- Follower demographics
- Story completion rate
- Reel plays

##### **Key Metrics:**

- Engagement rate:  $(\text{Likes} + \text{Comments} + \text{Saves} + \text{Shares}) / \text{Followers} \times 100$
- Save rate:  $\text{Saves} / \text{Reach} \times 100$
- Story completion:  $\text{Views on last story} / \text{Views on first story}$

## **LinkedIn:**

### **Native Analytics:**

- Post impressions
- Engagement rate
- Follower demographics
- Profile views
- Search appearances

### **Key Metrics:**

- Engagement rate:  $(\text{Likes} + \text{Comments} + \text{Shares}) / \text{Impressions} \times 100$
- Click-through rate:  $\text{Clicks} / \text{Impressions} \times 100$
- Follower growth rate

## **Twitter/X:**

### **Native Analytics:**

- Impressions
- Engagements
- Profile visits
- Follower growth
- Link clicks

### **Key Metrics:**

- Engagement rate:  $\text{Engagements} / \text{Impressions} \times 100$
- Link CTR:  $\text{Link clicks} / \text{Impressions} \times 100$
- Tweet efficiency:  $\text{Engagement} / \text{Followers}$

## **YouTube:**

### **Native Analytics:**

- Views
- Watch time
- Subscribers gained
- Click-through rate (CTR)
- Average view duration

### **Key Metrics:**

- Watch time %:  $\text{Avg view duration} / \text{Video length} \times 100$
- Subscriber conversion:  $\text{New subscribers} / \text{Views} \times 100$
- Shorts to long-form traffic

## **Cross-Platform Tracking:**

**UTM Parameters:** Track link performance across platforms

Format:

`yourwebsite.com?utm_source=instagram&utm_medium=social&utm_campaign=spring2024`

**Google Analytics:**

- Traffic by social platform
- Conversion by source
- User behavior from social
- Goal completions

**CRM/Email Platform:**

- Signups by source
- Customer acquisition by channel
- Revenue attribution

### **PHASE 3: Dashboard Creation**

**Weekly Dashboard (Operational):**

**For Each Platform:**

- Posts published: [Number]
- Total reach: [Number]
- Engagement rate: [Percentage]
- Link clicks: [Number]
- Top post: [Title + metrics]

**Cross-Platform:**

- Website traffic from social: [Number]
- Leads generated: [Number]
- Revenue attributed: [Amount]

**Monthly Dashboard (Strategic):**

**Growth:**

- Follower growth by platform
- Follower growth rate %
- Quality indicators (engagement of new followers)

**Engagement:**

- Average engagement rate by platform
- Comment sentiment
- Save/share rates

- Viral posts (outliers)

**Conversion:**

- Total leads from social
- Cost per lead (if running ads)
- Conversion rate by platform
- Revenue from social traffic

**Content Performance:**

- Top 10 posts (by reach, engagement, conversion)
- Bottom 10 posts (to avoid)
- Content type performance
- Content pillar performance

**Audience Insights:**

- Demographics shifts
- Active hours/days
- Geographic data
- Device usage

**Quarterly Dashboard (Strategic Review):****Goal Progress:**

- Q goal vs actual
- On track for year?
- What's working/not working

**Trend Analysis:**

- Growth trajectory
- Seasonal patterns
- Platform performance shifts

**Competitive Positioning:**

- Growth vs competitors
- Share of voice
- Engagement vs industry average

**ROI Calculation:**

**Time Investment:** Hours spent on social × Your hourly rate = Social media cost

**Direct Return:**

- Revenue from social traffic
- Value of leads generated

- Brand partnerships

**ROI Formula:**  $(\text{Return} - \text{Investment}) / \text{Investment} \times 100 = \text{ROI}\%$

## **PHASE 4: Reporting & Action**

### **Reporting Format:**

#### **Executive Summary (Top):**

- Key wins
- Areas of concern
- Action items

#### **Metrics (Middle):**

- Visual graphs/charts
- Performance vs goals
- Comparisons (MoM, YoY)

#### **Insights (Bottom):**

- Why performance changed
- What tests were run
- Recommendations

### **Action Planning:**

#### **For Each Insight:**

**What happened:** "Instagram engagement dropped 15%"

**Why it happened:** "Posted fewer Reels (algorithm preference), more static posts"

**What to do:** "Increase Reels to 3x/week, test different formats"

**Expected outcome:** "Return to 4% engagement rate within 2 weeks"

#### **Metric Review Cadence:**

##### **Daily (5 min):**

- Quick check on today's posts
- Respond to engagement
- Note any anomalies

##### **Weekly (30 min):**

- Review week's performance
- Identify top/bottom posts
- Plan next week adjustments

### Monthly (2 hours):

- Deep dive all metrics
- Strategic analysis
- Update dashboard
- Present to team/stakeholders

### Quarterly (4 hours):

- Comprehensive review
- Strategy adjustment
- Goal setting
- Competitive analysis

---

## Strategic Framework

❶ **Three-Tier Metrics:** Prioritizes business outcomes over vanity metrics while tracking supporting indicators.

❷ **Platform-Specific + Unified:** Tracks platform nuances while maintaining cross-platform view.

❸ **Insight-to-Action:** Focuses on actionable insights rather than data collection for its own sake.

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **What to Test:** [Hook, format, time, hashtags, etc.]
- **Current Performance:** [Baseline metrics]
- **Platform:** [Where are you testing?]
- **Success Metric:** [What defines a winner?]

### Optional (Premium):

- **Audience Size:** [Large enough for valid results?]
- **Testing Timeline:** [How long can you test?]
- **Variables to Control:** [What should stay constant?]

### Role & Expertise

You are a social media testing strategist who designs scientifically valid experiments. You understand the principles of A/B testing, how to isolate variables, statistical significance, and how to extract actionable insights from test results.

### Objective

Design A/B tests that produce reliable, actionable insights, isolate single variables for clear learning, reach statistical significance, inform future content strategy, and build systematic optimization culture.

### Success Criteria

Before finalizing, verify the test:

- ☒ Single variable isolated
- ☒ Clear success metric
- ☒ Controlled environment
- ☒ Adequate sample size
- ☒ Actionable outcome defined

### Execution Mode

#### PHASE 1: Testing Fundamentals

#### A/B Testing Principles:

**Rule 1: One Variable at a Time** Change only ONE thing between versions

#### Bad:

- Version A: Question hook + carousel + morning post
- Version B: Statement hook + reel + evening post (Too many variables - can't tell what made the difference)

### **Good:**

- Version A: Question hook + carousel + morning post
- Version B: Statement hook + carousel + morning post (Only hook changes - clear learning)

### **Rule 2: Adequate Sample Size**

Need enough data for meaningful results.

### **Minimum:**

- Small account (<10K): 100 views per version
- Medium account (10K-100K): 500 views per version
- Large account (100K+): 1,000+ views per version

### **Rule 3: Control Timing**

Post versions at similar times or run simultaneously.

### **Rule 4: Define Success Before Testing**

Decide what "better" means:

- Higher engagement rate?
- More link clicks?
- Better watch time?
- More saves?

## **PHASE 2: Testable Variables**

### **Hook/Opening:**

Test different first lines or opening frames.

### **Test:**

- Version A: Question ("Ever wonder why...?")
- Version B: Bold statement ("This changed everything")
- Version C: Number ("3 reasons why...")

**Metric:** Watch time %, engagement rate

### **Content Format:**

Test different presentation styles.

### **Test:**

- Version A: Carousel (7 slides)
- Version B: Single image + long caption

- Version C: Video

**Metric:** Engagement rate, saves

**Caption Length:**

Test copy length impact.

**Test:**

- Version A: Short caption (50 words)
- Version B: Medium caption (150 words)
- Version C: Long caption (300 words)

**Metric:** Comments, engagement rate

**Call-to-Action:**

Test different CTAs.

**Test:**

- Version A: "Comment below"
- Version B: "Save this for later"
- Version C: "Share with someone who needs this"
- Version D: "Click link in bio"

**Metric:** Action completion rate

**Posting Time:**

Test optimal posting windows.

**Test:**

- Version A: Morning (7-9 AM)
- Version B: Lunch (12-1 PM)
- Version C: Evening (5-7 PM)
- Version D: Night (8-10 PM)

**Metric:** Reach, engagement rate

**Hashtag Strategy:**

Test hashtag approaches.

**Test:**

- Version A: No hashtags
- Version B: 3-5 targeted hashtags
- Version C: 10-15 mixed hashtags

- Version D: 20-30 hashtags

**Metric:** Reach, follower growth

**Visual Style:**

Test design approaches.

**Test:**

- Version A: Minimal design, lots of whitespace
- Version B: Bold colors, high contrast
- Version C: Photo-heavy
- Version D: Text-heavy

**Metric:** Engagement rate, saves

**Video Length:**

Test duration impact.

**Test:**

- Version A: 15-30 seconds
- Version B: 30-45 seconds
- Version C: 45-60 seconds

**Metric:** Watch time %, completion rate

### **PHASE 3: Test Execution**

**Test Design Template:**

**Hypothesis:** "I believe [changing X] will [increase/decrease Y] because [reason]"

Example: "I believe using question hooks will increase watch time by 15% because questions create curiosity gaps"

**Variables:**

- Independent (what changes): Question hook vs statement hook
- Dependent (what measures): Watch time percentage
- Controlled (what stays same): Format, length, topic, posting time

**Test Plan:**

- Duration: 2 weeks
- Sample size goal: 1,000 views per version
- Posting schedule: Alternate days
- Success threshold: 10% improvement

## Execution Process:

### Week 1:

- Day 1: Version A
- Day 2: Version B
- Day 3: Version A
- Day 4: Version B
- Day 5: Version A
- Day 6: Version B
- Day 7: Version A

### Week 2:

- Continue alternating
- Monitor results
- Ensure adequate sample size

## Data Collection:

Track for each version:

- Views/Reach
- Engagement (likes, comments, shares, saves)
- Engagement rate
- Click-through rate (if applicable)
- Follower gain
- Any other relevant metrics

## Example Tracking Sheet:

| Date | Version | Reach | Engagements | Engagement Rate | Watch Time % | Clicks |
|------|---------|-------|-------------|-----------------|--------------|--------|
| 1/15 | A       | 1,250 | 98          | 7.8%            | 82%          | 12     |
| 1/16 | B       | 1,180 | 112         | 9.5%            | 89%          | 18     |

## PHASE 4: Results Analysis

### Statistical Significance:

Don't rely on small differences.

**Calculate:** Difference must be >10% AND consistent across multiple posts.

### Example:

- Version A: 5.2% engagement rate (average of 7 posts)
- Version B: 6.8% engagement rate (average of 7 posts)
- Difference: 30.8% improvement

- **Result:** Significant, use Version B approach

### **Result Documentation:**

**What We Tested:** Question hooks vs statement hooks

### **Results:**

- Question hooks: 82% avg watch time
- Statement hooks: 89% avg watch time
- Winner: Statement hooks (+8.5%)

**Why It Worked:** Statement hooks created immediate value promise, while questions sometimes felt clickbait-y to our audience.

**Application:** Use statement hooks for educational content. May still test questions for personal stories.

**Next Test:** Test different types of statement hooks (surprising vs. bold vs. result-focused)

### **Common Testing Mistakes:**

- ✗ **Changing Multiple Variables** Can't tell what drove the result
- ✗ **Too Small Sample Size** Results not reliable
- ✗ **Stopping Test Too Early** Need consistency, not one lucky post
- ✗ **Not Documenting Learnings** Forget what you learned, repeat tests
- ✗ **Testing Without Hypothesis** Random testing doesn't build knowledge

### ✓ **Good Testing Practices:**

✓ One variable at a time ✓ Clear hypothesis ✓ Adequate sample size ✓ Document everything ✓ Apply learnings ✓ Retest periodically (audiences change)

### **Testing Calendar:**

#### **Month 1:**

- Weeks 1-2: Hook styles
- Weeks 3-4: Posting times

#### **Month 2:**

- Weeks 1-2: Content formats
- Weeks 3-4: Caption length

#### **Month 3:**

- Weeks 1-2: CTA styles
- Weeks 3-4: Visual design

**Continuous improvement through systematic testing.**

## **8.3 Content Audit & Optimization Process**

🏆 **PERFORMANCE IMPROVEMENT** | ★★★★★☆ Advanced | ⌚ 30-40 minutes

---

---

👉 START COPYING HERE

---

---

## **Inputs**

**Required:**

- **Audit Period:** [Last 30, 60, or 90 days?]
- **Platform(s):** [Which to audit?]
- **Current Goals:** [What are you trying to improve?]

**Optional (Premium):**

- **Content Volume:** [How many posts to analyze?]
- **Team Involvement:** [Who needs to act on findings?]

- **Past Audits:** [Previous audit results to compare?]

## **Role & Expertise**

You are a content performance analyst who conducts systematic audits. You understand how to identify patterns in successful and unsuccessful content, extract actionable insights from large datasets, and create optimization roadmaps that drive measurable improvement.

## **Objective**

Conduct a content audit that identifies top and bottom performers, reveals success patterns and failure points, extracts actionable optimization insights, creates specific improvement roadmap, and establishes ongoing audit rhythm.

## **Success Criteria**

Before finalizing, verify the audit:

- ☒ Comprehensive performance analysis
- ☒ Clear patterns identified
- ☒ Specific optimizations recommended
- ☒ Prioritized action plan
- ☒ Future audit scheduled

## **Execution Mode**

### **PHASE 1: Audit Preparation**

#### **Data Collection:**

Export analytics for audit period:

- All post metrics
- Platform analytics
- Website/conversion data (if applicable)

#### **Minimum Data Points Per Post:**

- Date published
- Platform
- Content type/format
- Topic/pillar
- Reach/impressions
- Engagement (likes, comments, shares, saves)
- Engagement rate
- Link clicks (if applicable)
- Conversions (if tracking)

#### **Audit Scope:**

**30-Day Audit:** Quick health check Recent performance only

**60-Day Audit:** Good balance Captures trends

**90-Day Audit:** Comprehensive review Seasonal patterns visible

## **PHASE 2: Performance Analysis**

### **Top Performers (Top 20%):**

Identify your best-performing posts.

#### **Sort by:**

- Engagement rate (primary)
- Reach (secondary)
- Conversions (if applicable)

### **Analyze Top 10-20 Posts:**

#### **Content Patterns:**

- Topics covered
- Content pillars represented
- Formats used
- Length (video, caption)

#### **Creative Patterns:**

- Hook styles
- Visual styles
- Thumbnail/first frame
- Colors, design elements

#### **Technical Patterns:**

- Posting times
- Day of week
- Hashtag count/type
- Caption length

#### **Engagement Patterns:**

- Comment types
- Share rate
- Save rate
- What people said about it

### **Example Finding:**

"Top 10 posts analysis:

- 80% were Reels (not carousels)
- 90% started with question hooks
- 70% posted between 7-9 AM
- Average 45 seconds long
- 60% from Pillar 1 (main expertise)
- All had personal story element"

### **Bottom Performers (Bottom 20%):**

Identify your worst-performing posts.

#### **Sort by:**

- Lowest engagement rate
- Lowest reach
- No conversions

### **Analyze Bottom 10-20 Posts:**

Same analysis as top performers:

- Content patterns
- Creative approaches
- Technical factors
- What went wrong

### **Example Finding:**

"Bottom 10 posts analysis:

- 70% were static images
- 80% had generic hooks
- 50% posted midday (low engagement time)
- All over 90 seconds (too long)
- 60% overly promotional
- No personal connection"

## **PHASE 3: Insight Extraction**

### **Pattern Comparison:**

#### **Top vs Bottom:**

What top performers had that bottom didn't:

- Personal stories (80% vs 10%)
- Question hooks (90% vs 20%)
- Video format (80% vs 30%)
- Morning posting (70% vs 30%)

## Actionable Insights:

### From Patterns to Actions:

**Pattern:** Reels outperform static posts 3:1 **Insight:** Audience prefers video content **Action:** Shift to 70% video, 30% static

**Pattern:** Personal stories get 2x engagement **Insight:** Audience connects with human element **Action:** Add personal angle to all educational content

**Pattern:** Morning posts reach 40% more people **Insight:** Audience most active 7-9 AM **Action:** Schedule all posts for 8 AM

**Pattern:** Questions hooks drive 65% watch time vs 45% **Insight:** Curiosity gaps work for our audience **Action:** Lead all videos with question

### Content Gap Analysis:

**Underperforming Pillars:** Which content pillars aren't resonating? Do they need better execution or should they be replaced?

### Missing Opportunities:

- Topics competitors cover that you don't
- Trending topics you could address
- Audience questions unanswered

**Format Underutilization:** Are you using all platform features?

- Stories
- Reels
- Carousels
- Live
- Polls/interactive

## PHASE 4: Optimization Roadmap

### Prioritization Matrix:

**High Impact + Easy:** Do immediately (Example: Change posting time, use question hooks)

**High Impact + Hard:** Schedule for next month (Example: Shift content mix to video, create series)

**Low Impact + Easy:** Do if time permits (Example: Update bio, test hashtags)

**Low Impact + Hard:** Deprioritize or skip (Example: Complete visual rebrand)

### Action Plan:

#### Immediate (This Week):

1. [Specific action]
  - What: Change posting time to 8 AM
  - Why: 40% better reach in morning
  - Expected impact: +30% reach
2. [Specific action]
  - What: Use question hooks
  - Why: 65% vs 45% watch time
  - Expected impact: +45% completion rate
3. [Specific action]
  - What: Add personal story to posts
  - Why: 2x engagement with stories
  - Expected impact: Double engagement rate

### **Short-Term (Next 30 Days):**

1. [Larger change]
  - What: Shift to 70% video content
  - Why: Video performs 3x better
  - Expected impact: Overall performance lift
2. [Content adjustment]
  - What: Reduce Pillar 3 from 30% to 15%
  - Why: Consistently underperforms
  - Expected impact: Better overall metrics
3. [New initiative]
  - What: Launch weekly series
  - Why: Series posts outperform one-offs
  - Expected impact: Build anticipation, habit

### **Long-Term (Next 90 Days):**

1. [Strategic shift]
  - What: Develop video creation system
  - Why: Sustainable video production
  - Expected impact: Consistency at scale
2. [Audience development]
  - What: Community engagement program
  - Why: DM conversations convert 10x
  - Expected impact: Better conversion funnel

### **Audit Schedule:**

**Monthly:** Quick review (Top 10, Bottom 10) **Quarterly:** Comprehensive audit (90 days)

**Annually:** Strategic review (full year)

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

- ❶ **Comparative Analysis:** Identifies success patterns by contrasting top and bottom performers.
- ❷ **Pattern to Action:** Translates data patterns into specific, executable optimizations.
- ❸ **Prioritized Implementation:** Uses impact/effort matrix to focus on highest-value changes first.

## 📦 Inputs

### Required:

- **Current Audience:** [Who follows you now?]
- **Platform(s):** [Where are they?]
- **Business Goals:** [Who do you need to reach?]

### Optional (Premium):

- **Analytics Access:** [Platform insights available?]
- **Customer Data:** [CRM or email data?]
- **Survey Capability:** [Can you survey audience?]

## **Role & Expertise**

You are an audience intelligence strategist who builds detailed audience personas from data. You understand how to extract insights from platform analytics, combine quantitative and qualitative data, create actionable personas, and use audience understanding to drive content strategy.

## **Objective**

Develop data-driven audience personas that reflect who actually follows you, identify ideal audience gaps, guide content creation decisions, inform messaging and voice, and improve targeting and relevance.

## **Success Criteria**

Before finalizing, verify personas:

- ☒ Based on real data (not assumptions)
- ☒ Specific and detailed
- ☒ Actionable for content creation
- ☒ Includes pain points and goals
- ☒ Aligned with business needs

## **Execution Mode**

### **PHASE 1: Data Collection**

#### **Platform Analytics:**

##### **Instagram:**

- Age ranges
- Gender split
- Top locations
- Active times
- Follower activity

##### **LinkedIn:**

- Job titles
- Industries
- Company sizes
- Seniority levels
- Locations

##### **Facebook:**

- Age and gender
- Locations

- Languages
- Interests (if available)

#### **YouTube:**

- Age and gender
- Geography
- Watch time by demographics
- Subscriber demographics

#### **Twitter/X:**

- Limited demographics
- Follower interests (via tools)
- Engagement patterns

#### **Engagement Analysis:**

##### **Who engages most?**

- Profile stalking your top commenters
- Analyzing who saves/shares
- DM conversation patterns
- Which posts attract which people

#### **Qualitative Data:**

##### **Comments & DMs:** What do people say?

- Questions they ask
- Problems they mention
- Language they use
- What they're trying to achieve

#### **Surveys:**

##### Simple questions:

- "What's your #1 challenge with [topic]?"
- "What type of content helps you most?"
- "What do you want to see more of?"

#### **Customer/Client Data:**

##### If you have customers:

- Who actually buys?
- How do they differ from followers?
- What problems do they have?
- Why did they choose you?

## **PHASE 2: Persona Development**

### **Persona Template:**

#### **Demographic:**

- Name (fictional but relatable)
- Age range
- Location
- Job title/role
- Income level (if relevant)
- Education

#### **Psychographic:**

- Goals and aspirations
- Challenges and pain points
- Values and beliefs
- Fears and frustrations
- Daily routine

#### **Social Media Behavior:**

- Platforms used
- Content preferences
- Engagement patterns
- Influencers followed
- Active times

#### **Content Needs:**

- What they want to learn
- Format preferences
- Depth vs breadth preference
- Entertainment vs education balance

### **Example Persona:**

#### **Sarah, the Aspiring Entrepreneur**

##### **Demographics:**

- Age: 28-35
- Location: Urban US
- Job: Corporate employee planning exit
- Income: \$60K-80K
- Education: Bachelor's degree

##### **Goals:**

- Launch side business in 12 months
- Quit 9-5 within 2 years
- Achieve financial independence
- Build something meaningful

#### **Challenges:**

- Limited time (full-time job)
- No business experience
- Fear of failure
- Don't know where to start
- Budget constraints

#### **Pain Points:**

- Overwhelmed by information
- Paralyzed by perfectionism
- Lacks confidence
- No support network
- Work-life balance struggles

#### **Social Media Behavior:**

- Primary: Instagram, LinkedIn
- Active: 7-9 AM (commute), 12-1 PM (lunch), 9-11 PM (evening)
- Prefers: Quick wins, actionable tips, real stories
- Follows: Entrepreneurs who "made it", productivity experts
- Engages with: Step-by-step guides, honest journeys, practical tools

#### **Content Preferences:**

- Format: Short videos, carousels, threads
- Style: Real, unpolished, relatable
- Length: 60 seconds or 7 slides max
- Tone: Motivating but realistic
- Topics: Time management, first steps, low-budget strategies

**What Resonates:** ✓ "How I built my business while working full-time" ✓ "5 things you can do this weekend to start" ✓ "The truth about the first 6 months" ✓ "You don't need [expensive thing] to start"

**What Doesn't:** ✗ Complex strategies ✗ "Just quit your job" advice ✗ Expensive tools/courses ✗ Overnight success stories

### **PHASE 3: Persona Application**

#### **Content Strategy:**

For each persona:

**Content Pillars:** What topics serve their needs?

**Content Types:** What formats work for them?

**Messaging:** What language resonates?

**Posting Times:** When are they online?

**Example (For Sarah):**

**Pillars:**

1. Time-efficient business building (40%)
2. First steps and quick wins (30%)
3. Mindset for career transition (20%)
4. Real entrepreneur journeys (10%)

**Content Types:**

- 60-sec Reels (quick tips)
- 7-slide carousels (actionable guides)
- Story series (behind-the-scenes journey)
- Threads (strategy breakdowns)

**Messaging:**

- "You don't need to quit your job to start"
- "Small steps, big results"
- "Real talk about building a business"
- "Here's what actually worked"

**Posting:**

- Best times: 7 AM, 12 PM, 9 PM
- Weekdays > Weekends
- Morning for motivation, evening for deeper content

**Content Creation Filter:**

Before creating content, ask:

☒ Does this serve at least one persona? ☒ Does this match their content preferences? ☒ Does this address their pain points or goals? ☒ Would they engage with this? ☒ Is the format right for them?

If no to any, reconsider the content.

**PHASE 4: Persona Evolution**

**Quarterly Persona Review:**

### Questions:

- Is audience data still accurate?
- Have demographics shifted?
- Are pain points changing?
- Do content preferences evolve?
- New persona segments emerging?

### Update based on:

- New analytics data
- Engagement pattern changes
- Comment/DM themes
- Customer feedback
- Market shifts

### Multiple Personas:

#### If you have 2-3 personas:

Allocate content:

- Primary persona: 50-60%
- Secondary persona: 25-35%
- Tertiary persona: 10-20%

**Overlap content when possible:** Content that serves multiple personas is most efficient.

**Example:** "5 time-efficient marketing strategies"

- Serves: Side hustlers (Sarah) + Small business owners (Another persona)

---

---

👉 STOP COPYING HERE

---

---

### Strategic Framework

❶ **Data-Driven Personas:** Builds from actual audience data rather than assumptions or hopes.

❷ **Actionable Detail:** Creates specific, usable insights that directly inform content decisions.

❸ **Living Documents:** Treats personas as evolving understanding, not static profiles.

### **Inputs**

#### **Required:**

- **Your Niche:** [Your industry/topic]
- **Key Competitors:** [3-5 similar accounts]
- **Your Current Performance:** [Baseline metrics]
- **Goals:** [What are you trying to improve?]

#### **Optional (Premium):**

- **Competitor List:** [Broader list of 10-15?]
- **Tools Available:** [Social listening tools?]
- **Historical Data:** [Track competitor growth over time?]

### **Role & Expertise**

You are a competitive intelligence analyst who conducts systematic competitor research. You understand how to ethically analyze competitor strategies, identify market gaps and opportunities, benchmark performance, and extract actionable insights without copying.

### **Objective**

Conduct competitive analysis that identifies what competitors do well, reveals market gaps and opportunities, benchmarks your performance, inspires strategic differentiation, and informs without copying.

### **Success Criteria**

Before finalizing, verify the analysis:

- ☒ Comprehensive competitor profiles
- ☒ Performance benchmarks set
- ☒ Gaps and opportunities identified
- ☒ Strategic differentiation defined
- ☒ Ethical boundaries respected

## Execution Mode

### PHASE 1: Competitor Identification

#### Competitor Types:

**Direct Competitors (3-5):** Same niche, similar audience, similar size

**Aspirational Competitors (2-3):** Same niche, larger following, where you want to be

**Adjacent Competitors (2-3):** Related niche, similar audience, different angle

#### Example for Fitness Coach:

##### Direct:

- 3 fitness coaches with 20K-50K followers
- Similar target audience (women 25-40)
- Similar content (workout tips, nutrition)

##### Aspirational:

- 2 fitness influencers with 200K-500K
- Successful in your niche
- Study their growth strategies

##### Adjacent:

- 2 wellness/mindset coaches
- Overlapping audience
- Different but complementary content

### PHASE 2: Competitive Analysis Framework

#### For Each Competitor, Analyze:

##### Profile & Positioning:

- Bio: How do they position themselves?
- Value proposition: What do they promise?
- Unique angle: What makes them different?
- Visual brand: Design, colors, style
- Link strategy: Where do they send traffic?

##### Content Strategy:

- Content pillars: Main topics covered
- Content types: Reels, carousels, stories, etc.
- Posting frequency: How often?
- Content mix: Educational, entertaining, promotional %
- Series or themes: Recurring content patterns

## **Performance Metrics:**

*Estimated (use tools or manual tracking):*

- Follower count
- Average engagement rate
- Top-performing content
- Growth rate (if trackable)
- Content that goes viral

## **Engagement Strategy:**

- Comment responsiveness
- Community building tactics
- Collaboration frequency
- User-generated content
- Audience interaction style

## **Monetization:**

- Visible revenue streams
- Products/services offered
- Affiliate partnerships
- Sponsorships
- Pricing strategy (if visible)

## **Strengths & Weaknesses:**

What they do well: What they could improve: What they're missing:

## **PHASE 3: Benchmarking**

### **Performance Comparison:**

#### **Follower Growth:**

- Your growth rate: X% per month
- Competitor average: Y% per month
- Gap: You're [ahead/behind] by Z%

#### **Engagement Rate:**

- Your rate: X%
- Competitor average: Y%
- Industry standard: Z%
- Assessment: [Above/At/Below] benchmark

#### **Content Performance:**

- Your avg reach: X per post

- Competitor avg: Y per post
- Your reach per follower: X%
- Competitor: Y%

#### **Posting Consistency:**

- You: X posts per week
- Competitors: Y posts per week

#### **Content Type Mix:**

| Type      | You | Comp 1 | Comp 2 | Comp 3 |
|-----------|-----|--------|--------|--------|
| Reels     | 30% | 50%    | 60%    | 40%    |
| Carousels | 40% | 30%    | 20%    | 35%    |
| Static    | 30% | 20%    | 20%    | 25%    |

**Insight:** Competitors lean heavier into Reels

#### **Best-Performing Content Analysis:**

##### **Competitor's Top 10 Posts:**

- 70% were educational tutorials
- 80% used question hooks
- All under 60 seconds
- Average engagement: 8.5%

##### **Your Top 10:**

- 60% educational, 40% personal stories
- 50% question hooks, 50% statements
- Average 75 seconds
- Average engagement: 6.2%

**Insight:** Their shorter, tutorial-focused content outperforms

#### **PHASE 4: Opportunity Identification**

##### **Content Gap Analysis:**

##### **What competitors cover that you don't:**

- Competitor A: Meal prep tutorials
- Competitor B: Recovery and rest content
- Competitor C: Mental health for fitness

**Opportunities:** You could own "busy professional workout strategies" (underserved)

**Format Gap:**

**What formats competitors underuse:**

- None doing long-form YouTube
- Limited carousel posts
- No email newsletters visible

**Opportunity:** Launch YouTube channel for differentiation

**Audience Gap:**

**Who competitors aren't serving:**

- Most target 25-35 women
- Gap: 40-50 women fitness content
- Gap: Men's fitness in your style

**Strategic Differentiation:**

**How to stand out:**

**Don't Copy, Differentiate:**

**Instead of:** Doing what they do **Do:** Finding your unique angle

**Example:**

- Competitors: Perfect form, polished content
- Your angle: "Real workouts, real life" with imperfect but relatable content

**Differentiation Framework:**

**Your Unique Position:** [Your niche] for [specific audience] who want [specific outcome] without [common obstacle]

**Example:** "Effective workouts for busy professionals who want results without spending 2 hours at the gym"

**Competitive Advantages:**

What you have that they don't:

- Personal experience they lack
- Different perspective/background
- Unique methodology
- Better storytelling
- Stronger community
- Different personality

## Monthly Tracking:

### Track competitors monthly:

- Follower count
- Engagement rate shifts
- New content strategies
- Collaborations
- Product launches
- Viral content

**Spot trends early:** If multiple competitors start doing something successfully, investigate.

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Ethical Analysis:** Studies competitors to understand market, not to copy their unique voice or content.

❷ **Gap Identification:** Focuses on underserved opportunities rather than crowded spaces.

❸ **Strategic Differentiation:** Uses insights to carve unique position, not imitate success.

## 9.1 Cross-Platform Campaign Blueprint

 **CAMPAIGN ORCHESTRATION** | ★★★★★ Expert | ⌚ 50-60 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

#### **Required:**

- **Campaign Goal:** [Launch, awareness, sales, lead gen?]
- **Duration:** [How long will campaign run?]
- **Active Platforms:** [Which platforms will you use?]
- **Core Message:** [What's the main message?]
- **Resources:** [Budget, team, time available?]

#### **Optional (Premium):**

- **Target Metrics:** [Specific KPIs?]
- **Past Campaigns:** [What worked/didn't work before?]
- **Key Assets:** [Videos, graphics, copy already created?]

### **Role & Expertise**

You are a multi-platform campaign strategist who orchestrates cohesive marketing initiatives. You understand how different platforms serve different roles in a campaign, how to maintain consistent messaging while adapting to platform strengths, and how to create synergy that amplifies results.

### **Objective**

Design a cross-platform campaign that leverages each platform's unique strengths, maintains cohesive messaging and branding, creates synergy between platforms, drives toward single unified goal, and maximizes efficiency through smart repurposing.

### **Success Criteria**

Before finalizing, verify the campaign:

- ☒ Clear central goal and message

- ☒ Platform-specific strategies defined
- ☒ Timeline and milestones set
- ☒ Cross-platform synergy created
- ☒ Measurement framework established

## **Execution Mode**

### **PHASE 1: Campaign Architecture**

#### **The Hub-and-Spoke Model:**

**Hub (Central Asset):** The main content piece everything radiates from

Examples:

- Product launch video
- Comprehensive guide
- Webinar or event
- Major announcement

**Spokes (Platform Adaptations):** Platform-specific content that drives to hub

#### **Campaign Structure:**

##### **Pre-Campaign (1-2 Weeks Before):**

- Build awareness
- Create anticipation
- Warm up audience

##### **Launch (Campaign Start):**

- Big announcement
- Main content release
- Maximum visibility push

##### **Active Campaign (During):**

- Sustained engagement
- Value delivery
- Momentum maintenance

##### **Post-Campaign (After):**

- Results sharing
- Sustained interest
- Transition to next phase

### **PHASE 2: Platform Strategy**

## Platform Roles in Campaign:

**Instagram: Role:** Visual storytelling, community engagement **Best for:** Behind-the-scenes, teasers, visual assets **Content types:** Reels, Stories, carousels, Lives

### Campaign Use:

- Pre: Teaser Reels, countdown Stories
- Launch: Announcement post, Live reveal
- Active: Daily Stories, engagement posts
- Post: Results carousel, testimonials

**LinkedIn: Role:** Professional authority, B2B reach **Best for:** Thought leadership, detailed explanations **Content types:** Articles, documents, professional posts

### Campaign Use:

- Pre: Industry insight posts, problem framing
- Launch: Detailed article on solution
- Active: Case studies, professional discussions
- Post: Results analysis, lessons learned

**Twitter/X: Role:** Real-time updates, conversations **Best for:** Quick updates, discussions, viral potential **Content types:** Threads, tweets, Spaces

### Campaign Use:

- Pre: Thread building anticipation
- Launch: Live-tweeting, announcement thread
- Active: Daily updates, engagement threads
- Post: Results thread, thank you's

**YouTube: Role:** Deep-dive content, SEO longevity **Best for:** Tutorials, comprehensive explanations **Content types:** Long-form videos, Shorts

### Campaign Use:

- Pre: Teaser Shorts
- Launch: Full explainer video
- Active: Tutorial series, Q&As
- Post: Results video, behind-the-scenes

**Facebook: Role:** Community, groups, events **Best for:** Community building, event promotion **Content types:** Groups, Events, Video, Live

### Campaign Use:

- Pre: Event creation, group engagement
- Launch: Live video, group discussion
- Active: Daily group value, community building

- Post: Event recap, continued community

**TikTok: Role:** Viral reach, younger audience **Best for:** Entertaining education, trending formats **Content types:** Short videos, series

### Campaign Use:

- Pre: Teaser videos with trend integration
- Launch: Announcement in trending format
- Active: Educational series
- Post: Results/transformation video

### PHASE 3: Content Mapping

#### Campaign Timeline Example (Product Launch):

##### Week -2: Pre-Launch - Awareness

###### Monday:

- Instagram: Story poll "What's your biggest [problem]?"
- LinkedIn: Post about the problem in industry
- Twitter: Thread on common struggles

###### Wednesday:

- Instagram: Reel showing problem
- YouTube: Short teaser
- Facebook: Group discussion on topic

###### Friday:

- Instagram: "Something big coming Monday" Story
- LinkedIn: "Announcement Monday" post
- Twitter: Cryptic teaser tweet

##### Week -1: Pre-Launch - Anticipation

###### Monday:

- Instagram: Countdown sticker in Stories (7 days)
- LinkedIn: "Next week we're solving [problem]"
- Twitter: "6 days until we reveal [solution]"

###### Wednesday:

- Instagram: Behind-scenes Reel of preparation
- YouTube: "What's coming" Short
- Facebook: Event created for launch

###### Friday:

- Instagram: Final teaser Reel, "Monday is the day"
- All platforms: Build excitement

## **Week 0: LAUNCH**

### **Monday (Launch Day):**

#### **Morning (8 AM):**

- Instagram: Launch post + Reel
- LinkedIn: Detailed article about solution
- Twitter: Announcement thread
- YouTube: Full product video
- Facebook: Live launch video in group
- TikTok: Announcement video
- Email: Launch announcement

#### **Afternoon (2 PM):**

- Instagram: Stories with product features
- Twitter: Q&A engagement
- All platforms: Respond to comments

#### **Evening (7 PM):**

- Instagram: Live Q&A
- Recap Stories on all platforms

### **Tuesday-Friday (Launch Week):**

#### **Daily content across platforms:**

- Instagram: Feature highlights (Reels + Stories)
- LinkedIn: Use cases and case studies
- Twitter: Tips and tricks threads
- YouTube: Tutorial Shorts
- Facebook: Group discussions and support
- TikTok: Quick tips and hacks

## **Weeks 1-2: Active Campaign**

### **Sustained engagement:**

- Daily value content
- User testimonials and results
- Q&A sessions
- Collaboration content
- Limited-time offers (if applicable)

## **Week 3: Post-Campaign**

### **Results and transition:**

- Share campaign results
- Testimonial compilation
- Lessons learned
- Thank you content
- Transition to ongoing strategy

### **PHASE 4: Cross-Platform Synergy**

#### **Content Repurposing:**

**Create once, adapt everywhere:**

**Primary asset:** YouTube video (20 min)

#### **Adaptations:**

- Instagram: 5 Reels (key moments)
- LinkedIn: Article (transcription)
- Twitter: Thread (main points)
- TikTok: 3 videos (tips)
- Facebook: Native video (shorter version)
- YouTube: 5 Shorts (clips)
- Email: Summary + link

#### **Cross-Promotion:**

##### **Drive traffic between platforms:**

"Loved this Instagram post? Full tutorial on YouTube" "Saw our TikTok? Join our LinkedIn for B2B insights" "Twitter thread got you interested? Deep dive in our newsletter"

#### **Unified Hashtag:**

Create campaign-specific hashtag: #[YourCampaignName]

Use across all platforms for:

- Tracking
- User-generated content
- Community building
- Unified branding

#### **Measurement Framework:**

##### **Track by Platform:**

- Reach/impressions
- Engagement rate
- Link clicks

- Conversions

#### Track Overall:

- Total campaign reach
- Total engagement
- Campaign conversion rate
- ROI (if applicable)
- Goal achievement

#### Daily Dashboard: Check campaign health:

- Are all platforms performing?
- Which needs adjustment?
- Any unexpected wins/failures?
- Is goal on track?

## 9.2 Platform-Specific Adaptation Guide

 **CONTENT TRANSLATION** | ★★★★★☆ Advanced | ⌚ 30-40 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **Source Content:** [What's the original piece?]
- **Source Platform:** [Where was it created?]
- **Target Platforms:** [Where will you adapt it?]
- **Core Message:** [What must remain consistent?]

### Optional (Premium):

- **Audience Differences:** [Do audiences vary by platform?]
- **Performance Goals:** [Platform-specific objectives?]

## Role & Expertise

You are a content adaptation specialist who translates content between platforms. You understand each platform's unique culture, technical requirements, audience expectations, and how to maintain message integrity while optimizing for platform-specific success.

## Objective

Adapt content from one platform to others while maintaining core message, optimizing for each platform's strengths, respecting platform culture and norms, and maximizing performance on each destination.

## Success Criteria

Before finalizing adaptations:

- ☒ Core message preserved
- ☒ Platform-optimized format
- ☒ Appropriate tone/style
- ☒ Technical specs correct
- ☒ Native to platform (doesn't feel imported)

## Execution Mode

### PHASE 1: Adaptation Principles

#### Don't Just Cross-Post:

**Bad:** Same content, same format, every platform **Good:** Same message, adapted format, platform-optimized

#### Preserve Core, Adapt Expression:

#### Core (Keep Consistent):

- Main message
- Key value
- Brand voice essence
- Visual branding

### **Expression (Adapt):**

- Format
- Length
- Style
- Technical specs
- Platform culture

## **PHASE 2: Platform Adaptations**

### **From Instagram Reel → Other Platforms:**

**Original:** 60-second Instagram Reel tutorial

#### **To TikTok:**

- Keep video mostly same
- Adjust hook for TikTok culture (more casual)
- Add trending sound if appropriate
- Update caption for TikTok voice
- Different hashtags

#### **To YouTube Shorts:**

- Same video content
- Add end screen prompt to long-form
- Update description with keyword focus
- Link to related YouTube content

#### **To LinkedIn:**

- More professional hook
- Add professional context
- Caption focuses on business value
- Comments reference professional growth

#### **To Twitter/X:**

- Post as video
- Write thread expanding on concept
- Link to Instagram for full tutorial
- Professional but conversational

### **From Blog Post → Social Platforms:**

**Original:** 2,000-word blog post on marketing strategy

**To LinkedIn Article:**

- Keep full length or condense to 1,200 words
- Add LinkedIn-specific intro
- More conversational than blog
- End with discussion prompt

**To Instagram Carousel (10 slides):**

- Slide 1: Hook with main benefit
- Slides 2-8: Key points (one per slide)
- Slide 9: Summary/takeaway
- Slide 10: CTA to full blog

**To Twitter Thread (12 tweets):**

- Tweet 1: Hook + promise
- Tweets 2-10: Main points (one per tweet)
- Tweet 11: Conclusion
- Tweet 12: Link to full post

**To TikTok Series (5 videos):**

- Video 1: "Here's the strategy in 60 seconds"
- Videos 2-4: Deep dive on each component
- Video 5: Recap + where to learn more

**To YouTube Video (15 min):**

- Expand blog content
- Add visual examples
- Screen recordings if applicable
- Verbal explanation + engagement

**From Podcast Episode → Social:**

**Original:** 60-minute podcast interview

**To Audiograms (5-10):**

- Extract best 30-60 second clips
- Add waveform visual
- Quote overlays
- Share across all platforms

**To Blog Post:**

- Full transcription

- Edit for readability
- Add section headers
- Include key quotes as pull quotes
- Add show notes

#### **To Instagram:**

- Reels: 3-5 key moment clips
- Carousel: Episode breakdown
- Stories: Behind-the-scenes + quotes
- Post: Announcement with guest

#### **To LinkedIn:**

- Professional clips
- Article: Key insights expanded
- Post: Lessons learned from conversation

#### **To Twitter:**

- Thread: Main discussion points
- Individual tweets: Best quotes
- Space: Live discussion of episode

### **PHASE 3: Technical Specifications**

#### **Video Specs by Platform:**

##### **Instagram:**

- Reels: 9:16 (1080x1920), up to 90 seconds
- Feed: 1:1 (1080x1080) or 4:5 (1080x1350)
- Stories: 9:16 (1080x1920), 15 seconds per frame

##### **TikTok:**

- Vertical: 9:16 (1080x1920), up to 10 minutes
- Square: 1:1 (1080x1080)
- Optimal length: 15-60 seconds

##### **YouTube:**

- Shorts: 9:16 (1080x1920), up to 60 seconds
- Long-form: 16:9 (1920x1080)
- Thumbnails: 1280x720

##### **LinkedIn:**

- Video: 16:9 or 1:1, up to 10 minutes
- Recommended: 1-2 minutes

- Square works well in feed

#### **Twitter/X:**

- Video: 16:9, 1:1, or 9:16
- Max 2:20 minutes
- Recommended: under 60 seconds

#### **Facebook:**

- Video: 16:9 or 1:1
- Recommended: 1-3 minutes
- Native upload crucial

#### **Image Specs:**

##### **Instagram:**

- Feed: 1080x1080 (1:1) or 1080x1350 (4:5)
- Stories: 1080x1920 (9:16)
- Reels thumbnail: 1080x1920

##### **LinkedIn:**

- Post image: 1200x627
- Article image: 1200x627
- Profile banner: 1584x396

##### **Twitter/X:**

- In-feed: 1200x675 (16:9)
- Header: 1500x500

##### **Facebook:**

- Post: 1200x630
- Cover: 820x312

### **PHASE 4: Cultural Adaptation**

#### **Platform Culture Differences:**

##### **Instagram:**

- Aesthetic-focused
- Aspirational
- Personal brand building
- High production value appreciated

##### **TikTok:**

- Raw and authentic preferred
- Trend-participation expected
- Entertainment-first
- Perfect = boring

#### **LinkedIn:**

- Professional but human
- Value and expertise
- Career-focused
- Polished but not perfect

#### **Twitter/X:**

- Conversational
- Witty and clever
- Fast-paced
- Opinion-forward

#### **YouTube:**

- Educational and entertaining
- Longer attention span
- Quality production matters
- Search-optimized

#### **Facebook:**

- Community-oriented
- Longer captions work
- Personal stories
- Multiple demographics

#### **Tone Adaptation Example:**

##### **Same message, different tone:**

**Instagram:** "Transform your mornings with this 5-minute routine ✨"

**LinkedIn:** "A 5-minute morning routine increased my productivity by 40%"

**Twitter/X:** "Been doing this for 30 days. My mornings went from chaos to calm. Here's the routine:"

**TikTok:** "POV: You finally have your life together (here's the 5-min routine that did it)"

---

---

👉 STOP COPYING HERE

---

---

---

## Strategic Framework

- ❶ **Message Preservation:** Maintains core value while adapting surface expression to platform.
  - ❷ **Native Optimization:** Makes content feel platform-native rather than imported or cross-posted.
  - ❸ **Technical Precision:** Ensures format, specs, and style match platform requirements for optimal performance.
- 

## Related Prompts

→ See also: Prompt 7.4 for repurposing system | Prompt 9.1 for campaign coordination

---

## 9.3 Unified Messaging Framework

 **BRAND CONSISTENCY** | ★★★★★ Expert | ⌚ 40-50 minutes

---

---

 START COPYING HERE

---

---

### Inputs

#### Required:

- **Core Message:** [What's your primary message?]
- **Active Platforms:** [Where are you present?]
- **Audience Segments:** [Do different platforms serve different audiences?]
- **Brand Values:** [What do you stand for?]

#### Optional (Premium):

- **Campaign Context:** [Specific campaign or ongoing?]
- **Team Size:** [Multiple people creating content?]

### Role & Expertise

You are a brand messaging strategist who creates unified communication across platforms. You understand how to maintain consistent messaging while allowing platform-appropriate

adaptation, how to create guidelines that enable consistency at scale, and how to balance unity with flexibility.

## **Objective**

Create a messaging framework that maintains consistent brand message across platforms, allows platform-appropriate adaptation, guides all content creators, builds recognizable brand identity, and serves different audience segments coherently.

## **Success Criteria**

Before finalizing, verify the framework:

- ☒ Core messages clearly defined
- ☒ Platform adaptations specified
- ☒ Consistency maintained
- ☒ Flexibility allowed
- ☒ Team-ready guidelines

## **Execution Mode**

### **PHASE 1: Core Message Definition**

#### **The Message Hierarchy:**

**Level 1: Brand Mission (One Sentence)** Your overarching purpose

Example: "Helping small businesses grow through practical, affordable marketing"

**Level 2: Core Messages (3-5)** Your key themes

Example:

1. Marketing doesn't require big budgets
2. Consistency beats perfection
3. Strategy before tactics
4. Know your audience deeply
5. Test, measure, optimize

**Level 3: Supporting Points (5-10 per core message)** Specific angles and subtopics

Example for Message 1:

- Organic social media strategies
- DIY content creation
- Low-cost tools and alternatives
- Time-efficient marketing
- Guerrilla marketing tactics

#### **Message Statement Template:**

For each core message:

**Message:** [The core idea]

**Why it matters:** [Audience pain point it addresses]

**Proof points:** [Evidence, data, examples]

**Application:** [How they can use it]

**What it's not:** [Common misunderstandings]

## **PHASE 2: Platform Expression**

### **Same Message, Platform Voice:**

**Core Message:** "Marketing doesn't require big budgets"

**Instagram Expression:** Visual: Before/after showing results with \$0 spend Caption: "This Instagram strategy cost me nothing but 2 hours a week. Here's exactly what I did..." Style: Inspirational + actionable

**LinkedIn Expression:** Post: "Small business marketing budgets averaging \$2K/month. Here's how I helped a client get similar results with \$200." Style: Professional + data-driven

**Twitter/X Expression:** Thread: "Thread: 7 zero-budget marketing strategies that actually work"

1. [Strategy]
2. [Strategy]..." Style: Conversational + tactical

**TikTok Expression:** Video: "POV: Your marketing budget is \$0 but you still grew your business" Shows: Quick tips in trending format Style: Entertaining + relatable

### **Consistency Elements:**

#### **Always Present:**

- Core message essence
- Brand values
- Problem-solution structure
- Actionable takeaways

#### **Platform-Adapted:**

- Format and length
- Tone formality
- Visual style
- Cultural references

## **PHASE 3: Messaging Guidelines**

## Do's and Don'ts:

**Always:** ✓ Stay true to core messages ✓ Speak to specific audience pain ✓ Provide actionable value ✓ Show, don't just tell ✓ Be authentic to brand voice ✓ Credit sources and inspiration

**Never:** ✗ Contradict previous messaging ✗ Make unfounded claims ✗ Copy competitors' voice ✗ Use jargon without explanation ✗ Be salesy without value ✗ Ignore platform culture

## Message Testing:

### Before posting, check:

☒ Does this align with core messages? ☒ Is it true to brand values? ☒ Would our audience find this valuable? ☒ Is it consistent with past messaging? ☒ Does it differentiate us appropriately?

**If NO to any, revise or don't post.**

## PHASE 4: Multi-Platform Coordination

### Campaign Messaging Example:

**Campaign:** Product Launch

**Core Message:** "Finally, [solution] that actually works for [audience]"

### Platform Rollout:

#### Week 1: Problem Awareness

All platforms: Discuss the problem

- Instagram: Poll "Do you struggle with [problem]?"
- LinkedIn: Article on industry problem
- Twitter: Thread on common pain points
- TikTok: Relatable "day in the life" showing problem

**Unified message:** "This problem is real and widespread"

#### Week 2: Solution Teaser

All platforms: Hint at solution

- Instagram: "We've been working on something..."
- LinkedIn: "What if there was a better way?"
- Twitter: "Big announcement next week"
- TikTok: Behind-scenes of solution development

**Unified message:** "There's a solution coming"

### Week 3: Launch

All platforms: Reveal solution

- Instagram: Product demo Reel
- LinkedIn: Detailed article on how it works
- Twitter: Launch thread with key features
- TikTok: Quick tutorial on using it

**Unified message:** "Here's how [product] solves [problem]"

### Week 4: Results

All platforms: Social proof

- Instagram: Customer testimonials
- LinkedIn: Case study results
- Twitter: Reviews and feedback
- TikTok: Before/after user results

**Unified message:** "It's working for real people"

### Messaging Audit:

#### Monthly check:

☒ Are all platforms aligned on core messages? ☒ Is voice consistent? ☒ Any messaging conflicts or confusion? ☒ Are we staying on-brand? ☒ Any messages we should retire/add?

#### Quarterly review:

- Message effectiveness
- Audience resonance
- Competitive differentiation
- Strategic alignment

---

---

👉 STOP COPYING HERE

---

---

### Strategic Framework

**① Hierarchical Clarity:** Defines message at brand, campaign, and content levels for consistent application.

**② Unity Through Flexibility:** Maintains core message while allowing platform-appropriate expression.

③ **Guideline-Based:** Creates replicable framework that enables team consistency without rigidity.

---

### **Related Prompts**

→ See also: Prompt 7.5 for brand voice | Prompt 9.1 for campaign planning

---

## **9.4 Traffic Distribution & Funnel Strategy**

 **CONVERSION SYSTEM** | ★★★★★ Expert | ⌚ 45-55 minutes

---

---

 **START COPYING HERE**

---

---

### **Inputs**

**Required:**

- **Business Model:** [What are you selling/promoting?]
- **Primary Conversion Goal:** [Email signup, sale, booking, etc?]
- **Active Platforms:** [Where are you driving traffic from?]
- **Current Conversion Rate:** [Baseline if available]

**Optional (Premium):**

- **Funnel Assets:** [Landing pages, lead magnets, etc?]
- **Email System:** [Newsletter or automation?]
- **Analytics Setup:** [Tracking capabilities?]

### **Role & Expertise**

You are a multi-platform funnel strategist who orchestrates traffic flow across social platforms. You understand how to move audiences from awareness to conversion, how different platforms fit in the customer journey, and how to optimize each step for maximum conversion.

### **Objective**

Design a traffic distribution system that guides audience from social platforms to conversion, leverages each platform's funnel position, creates clear conversion pathways, measures performance at each stage, and optimizes for business goals.

### **Success Criteria**

Before finalizing, verify the strategy:

- ☒ Clear funnel stages defined
- ☒ Platform roles assigned
- ☒ Traffic pathways mapped
- ☒ Tracking implemented
- ☒ Optimization process established

## Execution Mode

### PHASE 1: Funnel Architecture

#### The Multi-Platform Funnel:

**Stage 1: Awareness (Top of Funnel)** Goal: Reach new people

**Platforms:** TikTok, YouTube Shorts, Twitter/X, Instagram Reels **Strategy:** Viral potential, broad reach, discovery-focused **Content:** Educational, entertaining, shareable **CTA:** Follow for more

**Stage 2: Interest (Middle of Funnel)** Goal: Build relationship

**Platforms:** Instagram feed, LinkedIn, Facebook groups, YouTube **Strategy:** Value delivery, expertise demonstration **Content:** In-depth tutorials, case studies, stories **CTA:** Save, comment, engage

**Stage 3: Consideration (Middle of Funnel)** Goal: Position as solution

**Platforms:** Email, LinkedIn, long-form content **Strategy:** Trust building, objection handling **Content:** Detailed guides, testimonials, comparisons **CTA:** Download resource, book call, watch demo

**Stage 4: Conversion (Bottom of Funnel)** Goal: Drive action

**Platforms:** Email, retargeting, DMs **Strategy:** Direct offer, urgency, simplicity **Content:** Offers, limited-time deals, clear benefits **CTA:** Buy, sign up, book

**Stage 5: Loyalty (Post-Conversion)** Goal: Retain and amplify

**Platforms:** Community (groups, Discord), email, exclusive content **Strategy:** Ongoing value, relationship depth **Content:** Premium insights, community access **CTA:** Share, refer, upgrade

### PHASE 2: Platform-Specific Strategies

#### Discovery Platforms (Top of Funnel):

##### TikTok & Instagram Reels:

- Purpose: Reach new people through algorithm

- Content: Quick value, entertaining education
- CTA: "Follow for part 2" or "Link in bio for full guide"
- Next step: Profile visit → Follow → Link click

### **YouTube Shorts:**

- Purpose: Discovery + channel growth
- Content: Teasers for long-form content
- CTA: "Full tutorial on my channel"
- Next step: Channel visit → Long-form view → Subscribe

### **Twitter/X:**

- Purpose: Thought leadership discovery
- Content: Threads, insights, conversations
- CTA: "Follow for daily [topic] insights"
- Next step: Follow → Profile → Link click

### **Engagement Platforms (Middle of Funnel):**

#### **Instagram Feed:**

- Purpose: Deeper engagement with followers
- Content: Carousels, stories, longer captions
- CTA: "Save this" or "DM me for [resource]"
- Next step: Save/Share → DM → Email capture

#### **LinkedIn:**

- Purpose: Professional trust building
- Content: Articles, professional insights, case studies
- CTA: "Download full guide" or "Connect with me"
- Next step: Connection → Newsletter signup → Lead

#### **Facebook Groups:**

- Purpose: Community nurturing
- Content: Daily value, member support, discussions
- CTA: Active participation, relationship building
- Next step: Know/Like/Trust → Offer awareness → Conversion

#### **YouTube Long-Form:**

- Purpose: Depth, authority, SEO
- Content: Comprehensive tutorials, vlogs
- CTA: "Link in description" or "Free course at [link]"
- Next step: Subscribe → Email list → Customer

### **Conversion Platforms:**

## Email:

- Purpose: Owned audience, direct communication
- Content: Nurture sequence, value + offers
- CTA: Specific action (buy, book, join)
- Conversion rates: 2-5% typical

## DMs (Instagram, LinkedIn):

- Purpose: Personal conversation, high-intent
- Content: Personalized value, answers
- CTA: Continue conversation → Offer
- Conversion rates: 10-30% typical (high intent)

## PHASE 3: Traffic Pathways

### The Link-in-Bio Strategy:

**Instead of:** Direct links to offers **Use:** Central hub (link-in-bio tool)

#### Structure:

- Main CTA (free resource)
- Secondary CTA (paid offer)
- Social links
- Latest content

**Tools:** Linktree, Beacons, Stan Store, Koji

### Email Capture Pathways:

**Path 1: Free Resource** Social post → Lead magnet landing page → Email signup → Welcome sequence → Offer

**Path 2: Challenge/Course** Social announcement → Free challenge signup → Daily emails → Pitch paid program

**Path 3: Newsletter** Social content → "Join newsletter for weekly tips" → Subscription → Nurture → Conversion

**Path 4: DM Funnel** High-value post → "DM me [word] for [resource]" → Automated DM with link → Email capture

### Sales Pathways:

**For Digital Products:** Social content → Link-in-bio → Sales page → Purchase

**For Services:** Social content → Link-in-bio → Booking calendar → Discovery call → Proposal → Close

**For Courses/Programs:** Social content → Free webinar signup → Webinar attendance → Email sequence → Sales page → Purchase

**For Physical Products:** Social content (UGC, demos) → Product page → Add to cart → Purchase

## **PHASE 4: Optimization & Tracking**

### **UTM Tracking:**

Track every link with UTM parameters:

```
https://yoursite.com/resource?  
utm_source=instagram&  
utm_medium=social&  
utm_campaign=spring2024&  
utm_content=reel
```

### **Measure:**

- Which platform drives most traffic
- Which content drives conversions
- Cost per lead by source
- Revenue by source

### **Funnel Metrics:**

#### **Awareness:**

- Reach
- New followers
- Profile visits

#### **Interest:**

- Engagement rate
- Saves
- Time spent

#### **Consideration:**

- Link clicks
- Landing page visits
- Email signups

#### **Conversion:**

- Sales
- Bookings

- Registrations

### Conversion Rate by Stage:

- Social → Profile visit: 5-10%
- Profile visit → Link click: 10-20%
- Link click → Landing page: 80-90%
- Landing page → Email signup: 30-50%
- Email subscriber → Customer: 2-5%

**Overall:** 1,000 social impressions → 5-50 customers (0.5-5%)

### Optimization Process:

#### Monthly:

- Review conversion rates at each stage
- Identify bottlenecks
- Test improvements
- Scale what works

**Example:** "Profile visits strong (8%) but link clicks low (5%). Problem: Unclear CTA in bio  
Solution: Rewrite bio with clear benefit Test: A/B test two versions"

---

---

👉 STOP COPYING HERE

---

---

## 🧠 Strategic Framework

❶ **Funnel-Aligned Platforms:** Assigns each platform to specific funnel stage based on strengths.

❷ **Clear Pathways:** Creates explicit traffic flow from awareness to conversion with defined steps.

❸ **Metrics-Driven:** Tracks performance at every stage to identify and fix bottlenecks.

## 💎 9.5 Team Collaboration & Workflow

**OPERATIONAL EXCELLENCE** | ★★★★★☆ Advanced | ⌚ 35-45 minutes

---

---

**START COPYING HERE**

---

---

## **Inputs**

### **Required:**

- **Team Size:** [Solo, 2-5, 5-10, 10+?]
- **Team Roles:** [Who does what?]
- **Platforms Managed:** [Which platforms?]
- **Content Volume:** [Posts per week?]

### **Optional (Premium):**

- **Current Challenges:** [What's not working?]
- **Tools Available:** [Project management, scheduling?]
- **Approval Process:** [Who approves content?]

## **Role & Expertise**

You are a social media operations specialist who designs team workflows. You understand how to coordinate multi-person content creation, establish clear roles and responsibilities, create efficient approval processes, and build scalable systems that maintain quality.

## **Objective**

Design a team workflow that clarifies roles and responsibilities, enables efficient content creation, maintains brand consistency, scales with team growth, and minimizes bottlenecks and confusion.

## **Success Criteria**

Before finalizing, verify the workflow:

- ☒ Clear roles defined
- ☒ Processes documented
- ☒ Tools and systems chosen
- ☒ Communication protocols set
- ☒ Quality maintained

## **Execution Mode**

### **PHASE 1: Role Definition**

#### **Common Social Media Roles:**

### **Solo Creator:**

- Does everything
- Focus: Systems and efficiency

### **2-3 Person Team:**

- Strategist/Manager
- Content Creator
- Designer (or creator does both)

### **5-10 Person Team:**

- Social Media Manager
- Content Creator(s) - 2-3
- Graphic Designer
- Video Editor
- Community Manager
- Copywriter

### **10+ Person Team:**

- Director of Social
- Platform Managers (Instagram, TikTok, etc.)
- Content team (creators, designers, editors)
- Community team
- Analytics specialist
- Paid social specialist

### **Role Responsibilities:**

#### **Social Media Manager/Strategist:**

- Overall strategy
- Content calendar
- Platform selection
- Goal setting
- Performance analysis
- Team coordination

#### **Content Creator:**

- Ideation
- Copywriting
- Content creation
- Caption writing
- Hashtag research
- First draft delivery

#### **Designer:**

- Visual assets
- Brand consistency
- Templates
- Graphics and photos
- Video thumbnails

#### **Video Editor:**

- Video cutting
- Transitions and effects
- Captions and text overlays
- Export in correct specs
- Thumbnail creation

#### **Community Manager:**

- Comment responses
- DM management
- Engagement strategy
- Community building
- Customer service via social

#### **RACI Matrix:**

For each task, assign:

- **Responsible:** Does the work
- **Accountable:** Final approval
- **Consulted:** Provides input
- **Informed:** Kept in loop

#### **Example:**

| <b>Task</b> | <b>Manager</b> | <b>Creator</b> | <b>Designer</b> | <b>Community</b> |
|-------------|----------------|----------------|-----------------|------------------|
| Strategy    | A              | C              | I               | I                |
| Ideation    | R,A            | R              | I               | C                |
| Creation    | A              | R              | R               | I                |
| Approval    | A              | I              | I               | I                |
| Scheduling  | R              | C              | I               | I                |
| Engagement  | C              | I              | I               | R,A              |
| Reporting   | R,A            | I              | I               | C                |

## **PHASE 2: Workflow Systems**

### **Content Creation Workflow:**

#### **Week -2: Planning**

- Strategy review (Manager)
- Calendar creation (Manager)
- Assign posts to creators

#### **Week -1: Creation**

- Monday: Create content (Creators)
- Tuesday: Design assets (Designer)
- Wednesday: Edit videos (Editor)
- Thursday: Review and revisions
- Friday: Final approval (Manager)

#### **Week 0: Execution**

- Monday: Schedule all posts
- Daily: Monitor and engage (Community)
- Friday: Week review

### **Daily Workflow:**

#### **Morning (9-10 AM):**

- Check scheduled posts went live
- Respond to overnight comments/DMs
- Quick team sync (15 min)

#### **Midday (12-2 PM):**

- Content creation time
- Design work
- Writing

#### **Afternoon (3-5 PM):**

- Community engagement
- Platform browsing
- Trend identification

#### **End of Day:**

- Daily metrics check
- Tomorrow preparation
- Team communication

### **Tools & Systems:**

### **Project Management:**

- Asana, Monday, Trello, ClickUp
- Task assignment
- Deadline tracking
- Progress visibility

### **Content Calendar:**

- Airtable, Google Sheets, specialized tools
- Visual calendar view
- Status tracking
- Multi-platform view

### **Asset Management:**

- Google Drive, Dropbox, Frame.io
- Organized folders
- Version control
- Easy access

### **Scheduling:**

- Later, Buffer, Hootsuite, Meta Business Suite
- Multi-platform scheduling
- Preview before posting
- Analytics integration

### **Communication:**

- Slack, Microsoft Teams
- Daily check-ins
- Quick questions
- File sharing

## **PHASE 3: Quality Control**

### **Approval Process:**

**Level 1: Self-Review** Creator checks: ☒ Message aligns with strategy ☒ No typos or errors  
☒ Correct specs ☒ On-brand visuals ☒ Appropriate hashtags

**Level 2: Peer Review** Another team member checks: ☒ Fresh perspective ☒ Catches mistakes ☒ Consistency with other content

**Level 3: Manager Approval** Final sign-off: ☒ Strategic alignment ☒ Brand standards ☒  
Ready to publish

### **For Smaller Teams:**

- Solo: Self-review + 24-hour gap before posting
- 2-3 people: Peer review
- 5+: Full approval process

### **Brand Guidelines:**

Document these:

- Voice and tone
- Visual style
- Hashtag strategy
- Comment response templates
- Crisis management protocol
- Legal/compliance requirements

### **Quality Checklist:**

Before publishing: ☒ Spelling and grammar checked ☒ Links tested ☒ Images optimized for platform ☒ Captions complete with CTA ☒ Hashtags researched and relevant ☒ Tagged accounts correct ☒ Scheduled for optimal time ☒ Analytics tracking ready

## **PHASE 4: Team Communication**

### **Meeting Cadence:**

#### **Daily Standup (15 min):**

- What did you complete yesterday?
- What are you working on today?
- Any blockers?

#### **Weekly Planning (1 hour):**

- Review last week's performance
- Plan upcoming week
- Assign tasks
- Address issues

#### **Monthly Strategy (2 hours):**

- Deep performance review
- Strategic adjustments
- Next month planning
- Team development

#### **Quarterly Review (half day):**

- Comprehensive performance analysis
- Major strategic shifts
- Team roles evaluation

- Tool and process improvements

## **Communication Channels:**

### **Slack/Teams Structure:**

- #general: Team updates
- #content-ideas: Brainstorming
- #approvals: Review requests
- #analytics: Performance sharing
- #urgent: Time-sensitive issues

## **Documentation:**

Create and maintain:

- Brand guidelines
- Content processes
- Platform best practices
- Template library
- FAQ for common issues
- Contact list
- Emergency protocols

## **Onboarding New Team Members:**

### **Week 1:**

- Brand training
- Tool access
- Process overview
- Shadow experienced team member

### **Week 2:**

- Create first content (with review)
- Community engagement
- Team integration

### **Week 3:**

- Independent content creation
- Feedback and improvement
- Full integration

### B.1 30-Day Caption Template Pack

🏆 **TIME SAVER** | ★★☆☆☆ Intermediate | ⌚ 10 minutes

---

---

👉 **START COPYING HERE**

---

---

### Inputs

#### Required:

- **Your Niche:** [Industry/topic]
- **Platform:** [Instagram, LinkedIn, Facebook, etc.]

### Objective

Generate 30 ready-to-use caption templates you can fill in quickly for consistent posting.

## Execution Mode

Create templates for:

- 10 educational captions
- 10 engagement captions
- 5 promotional captions
- 5 personal/story captions

**Example Educational Template:** "[Number] ways to [achieve goal]:

1. [Method] - [Brief benefit]
2. [Method] - [Brief benefit]
3. [Method] - [Brief benefit]

Which one are you trying first?"

**Customization:** Replace brackets with your specific content each time you post.

---

---

## B.2 Hashtag Research Assistant

**REACH BOOSTER** | ★★★★★☆☆ Intermediate | ⌚ 10 minutes

---

---

START COPYING HERE

---

---

## Inputs

**Required:**

- **Your Niche:** [Specific topic]
- **Platform:** [Instagram, TikTok, LinkedIn, etc.]
- **Account Size:** [Followers]

## Objective

Generate 15-20 strategic hashtags optimized for your reach and niche.

## Execution Mode

Create three tiers:

- **Niche (10K-100K posts):** 5 hashtags - highest engagement potential
- **Medium (100K-500K posts):** 5 hashtags - balanced reach
- **Broad (500K-5M posts):** 5 hashtags - maximum visibility

Research current performance and avoid banned hashtags. Rotate 3-4 sets weekly.

## ⚡ B.3 Viral Hook Generator

🏆 **ATTENTION GRABBER** | ★★★★★☆☆ Intermediate | ⌚ 5-10 minutes

---

---

👉 START COPYING HERE

---

---

### 📥 Inputs

**Required:**

- **Content Topic:** [What are you talking about?]
- **Platform:** [Where will you post?]

### 🎯 Objective

Generate 10 different hooks for the same content to test which performs best.

### 📝 Execution Mode

Create variations:

- 2 Question hooks
- 2 Bold statement hooks
- 2 Number/listicle hooks
- 2 Controversy/contrarian hooks
- 2 Story/personal hooks

Test the top 3 and double down on what works.

## ⚡ B.4 Comment Response Templates

🏆 **ENGAGEMENT SAVER** | ★★☆☆☆ Beginner | ⌚ 10 minutes

---

👉 START COPYING HERE

---

### 📁 Inputs

**Required:**

- **Your Brand Voice:** [Formal, casual, friendly?]
- **Common Comments:** [What do people typically say?]

### 🎯 Objective

Create 15-20 comment response templates for quick, authentic engagement.

### 📝 Execution Mode

Templates for:

- Thank yous (5)
- Questions (5)
- Positive feedback (3)
- Constructive criticism (2)
- Spam/negative (2)
- Conversation starters (3)

Personalize each template with the commenter's name or specific reference to make it feel genuine, not robotic.

## ⚡ B.5 Content Idea Generator (100 Ideas)

🏆 **NEVER RUN OUT** | ★★★☆☆ Intermediate | ⌚ 15 minutes

---

👉 START COPYING HERE

---

## Inputs

### Required:

- **Your Content Pillars:** [3-5 main topics]
- **Platforms:** [Where you post]

## Objective

Generate 100 content ideas you can pull from anytime you're stuck.

## Execution Mode

For each pillar, create:

- 10 educational posts
- 5 entertaining posts
- 5 engagement posts

Structure by format:

- Tutorial/how-to
- Mistakes to avoid
- Tools and resources
- Case studies
- Myth-busting
- Trending topic applications
- Personal stories
- Behind-the-scenes

Organize in a spreadsheet by: Idea, Pillar, Format, Priority, Status.

## B.6 Bio Optimizer (All Platforms)

 **FIRST IMPRESSION** | ★★☆☆☆ Beginner | ⌚ 10 minutes

---

---

👉 START COPYING HERE

---

---

## Inputs

### Required:

- **What You Do:** [Your expertise]
- **Who You Help:** [Target audience]
- **Unique Value:** [What makes you different]

### Objective

Create optimized bios for all your active platforms that convert profile visits to follows.

### Execution Mode

Generate bios for:

- Instagram (150 characters)
- Twitter/X (160 characters)
- TikTok (80 characters)
- LinkedIn (220 characters)
- YouTube (1,000 characters - use first 150)

Each should include: Who you help + What you do + Why follow + CTA (if space allows).

---

---

---

---

## B.7 Weekly Posting Schedule Template

🏆 **CONSISTENCY BUILDER** | ★★☆☆☆ Intermediate | ⌚ 10 minutes

---

---

👉 START COPYING HERE

---

---

### Inputs

#### Required:

- **Available Time:** [Hours per week for social media]
- **Active Platforms:** [Which platforms?]
- **Content Pillars:** [Your main topics]

### Objective

Create a realistic, repeatable weekly posting schedule you can actually maintain.

## Execution Mode

Design your weekly rhythm:

- Monday: [Type of post on each platform]
- Tuesday: [Type of post on each platform]
- Wednesday: [Type of post on each platform]
- Thursday: [Type of post on each platform]
- Friday: [Type of post on each platform]
- Weekend: [Lighter schedule or batch creation time]

Balance content types and pillars. Start conservative (can always add more).

---

## B.8 Collaboration Outreach Template

🏆 **GROWTH ACCELERATOR** | ★★☆☆☆ Intermediate | ⌚ 10 minutes

---

---

👉 START COPYING HERE

---

---

### Inputs

**Required:**

- **Collaboration Type:** [Guest post, interview, co-promotion?]
- **Your Value Proposition:** [What do you offer them?]
- **Target Accounts:** [Who do you want to collaborate with?]

### Objective

Create personalized collaboration outreach messages that get responses.

## Execution Mode

Template structure:

1. Genuine compliment (specific to their work)
2. Brief introduction (who you are + credibility)
3. Collaboration proposal (clear value for them)
4. Easy next step (simple yes/no or quick call)

Keep it under 150 words. Follow up once after 5-7 days if no response.

---

---

👉 STOP COPYING HERE

---

---

## ⚡ B.9 Crisis/Negative Comment Response Protocol

🏆 REPUTATION PROTECTOR | ★★★★★☆ Advanced | ⌚ 10 minutes

---

---

👉 START COPYING HERE

---

---

### 📦 Inputs

Required:

- **Brand Values:** [What do you stand for?]
- **Common Issues:** [What negative feedback do you get?]

### 🎯 Objective

Create a response protocol for handling negative comments and potential crises.

### 📝 Execution Mode

Decision Tree:

#### Step 1: Assess

- Is it constructive criticism or attack?
- Is it valid or misinformation?
- Is it public or private?

#### Step 2: Respond

- Valid criticism: Acknowledge + solution
- Misinformation: Politely correct
- Attack: Don't engage publicly, consider blocking
- Spam: Delete and block

#### Step 3: Escalate if needed

- Major crisis: Pause posting, draft statement
- Legal issue: Involve legal team
- PR issue: Coordinated response

Templates for each scenario with your brand voice.

👉 STOP COPYING HERE

---

---

## ⚡ B.10 Monthly Performance Summary Template

🏆 RESULTS TRACKER | ★★☆☆☆ Intermediate | ⌚ 15 minutes

---

---

👉 START COPYING HERE

---

---

### 📦 Inputs

**Required:**

- **Key Metrics:** [What do you track?]
- **Goals:** [What are you trying to improve?]

### 🎯 Objective

Create a simple monthly summary that tracks progress and informs decisions.

### 📝 Execution Mode

**Monthly Dashboard:**

**Growth:**

- Followers gained/lost by platform
- Follower growth rate %

**Engagement:**

- Average engagement rate by platform
- Top 5 posts (links + metrics)
- Bottom 5 posts (what to avoid)

**Conversions:**

- Website clicks
- Email signups
- Sales/leads

**Insights:**

- What worked this month
- What didn't work
- Changes to make next month

#### Next Month Plan:

- Goals
- Content focus
- Tests to run

Takes 15 minutes to fill out, saves hours of guessing.

✅ **BONUS SECTION COMPLETE: Quick-Win Tools (10 Prompts)**

---

## You Made It!

**Congratulations!** You now have 60 comprehensive social media prompts at your fingertips.

This pack represents everything you need to build, grow, and optimize your social media presence across all major platforms. From individual posts to comprehensive strategies, you have the frameworks to succeed.

### How to Get Maximum Value

- 1. Start with the Basics** → Use platform-specific prompts (Sections 1-6) to create great individual content
- 2. Build Your Strategy** → Use Section 7 to develop your content strategy and planning
- 3. Optimize Performance** → Use Section 8 to track, test, and improve
- 4. Scale with Systems** → Use Section 9 to coordinate multi-platform campaigns
- 5. Use Bonus Tools** → Quick wins when you need fast results

### Ready to Take Action?

**Pick ONE prompt to use today.** Don't try to implement everything at once. Start with what you need most right now.

### Your first step:

1. Choose the prompt most relevant to your current challenge
2. Fill in the inputs carefully
3. Follow the execution phases
4. Implement immediately
5. Track the results

Remember: The best strategy is the one you actually execute. Start small, build momentum, and scale from there.

---

### Questions or Feedback?

We'd love to hear how these prompts work for you!

**Email:** [contact@promptvaultx.com](mailto:contact@promptvaultx.com)

Share your wins, ask questions, or suggest improvements. We're constantly updating and improving based on user feedback.

---

**Thank you for choosing the Premium Social Media Content Creation AI Prompt Pack!**

Now go create something amazing. ✨
